## PORTAGE TIED UP

ATTORNEY GENERAL SAYS IT CANNOT PROCEED NOW.

Survey for the Ship Canal Will Encroach Upon the Portage Road and the Matter Will Be at Rest Until After the Ship Canal is Located—Route of Portage Must Be Changed From Original Location.

The Dalles, March 30.—On account of the dissatisfaction existing in Eastern Oregon concerning the delay in the portage railway proceedings, District Attorney Menefee has appealed to headquarters and is in receipt of the following communication from the attorney general: Hon. Frank Menefee,

District Attorney: Dear Sir—Relative to your inquiry as to why the board is delaying the proceedings for right of way for the portage railway, including the suit pending against the O. R. & N. Co., permit me to say that when the special session of the legislature recently closed, the members of the board notified me that they would not proceed with the portage railway until they could ascertain whether the canal would encroach upon its right of way or in any way conflict, and I notified you that nothing further would be done until advised by the board.

I am now informed that in order to carry out the terms of the act providing for securing the right of way for the canal, it will be necessary to resurvey and relocate the line for the portage railway, and the board deems it useless expense to proceed with the present condemnation proceedings when it might become necessary to abandon the same after right of way for the canal had been acquired.

While sympathizing with the people in that portion of the state, and ready to assist in any way in my power any proposition tending to their relief, as I understand the law, you and I, acting as attorneys for the board must obey orders and follow our instructions.

I am free to say that the board has, I believe, pushed the matter along as rapidly as circumstances and negotiations for right of way would permit. Yours very truly,

A. W. CRAWFORD, Attorney General.

### SOUTH DAKOTA DEMOCRATS.

Sure Thing That They Will Instruct for Hearst.

Sioux Falls, S. D., March 30.—The democratic state convention for the selection of four delegates-at-large and alternates to the St. Louis convention was called to order here shortly before noon. The convention for the nomination of a state ticket will be held at Aberdeen in July.

It is a foregone conclusion that today's convention will reaffirm the platform of 1900 and it appears to be equally certain that the delegates from South Dakota will be instructed for William R. Hearst for the presidential nomination. The recent declaration of former Senator Pettigrew for the New York congressman

## WOOD and COAL

It's our business to furnish fuel, and we have nothing but the best.

Dry, sound wood, and the celebrated Kemmerer coal. Prompt delivery, reasonable prices.

### McADAMS

Successor to Collier.

### "WHAT HAPPENED TO IT?"

"Oh, the old story. Horse shied, bolted, rattled — bang — smash! You see the result. Fix it up, old man, the best you can and as quickly as you can." Our friend had his wagon back in short order, staunch, solid, not a weak spot in it, and looking "as good as new." Follow his example when in like trouble.

Examine our Winona wagons, backs and buggies. They have steel-clad hubs, run easy, made from dried timber and warranted to be superior to all other makes. We have them in stock.

NEAGLE BROS. Big Brick Blacksmith Shop.

is indicative of the sentiment of the democratic party throughout the state.

### STATE BUTTER SHOW.

Displays of All Other Dairy Products at Springfield.

Springfield, Ill., March 30.—Butter enough to feed an army and fine enough to grace the table of a king is displayed at the second annual butter show of the Illinois State Dairymen's Association, which opened in Springfield today. Nearly every county in the state is well represented in the display and the exhibits are of such a high class that only the most expert judge would be able to distinguish the difference in grade and award the numerous prizes offered by the association.

The show will continue two days and in conjunction therewith will be held conferences of dairymen and butter makers from all parts of the state. Professor Hart of the University of Illinois has been engaged to give demonstrations in centrifugal separation and other dairy work.

## INDIANA POLITICS

CONTEST OVER WHO WILL BE GOVERNOR.

Hanly Has a Big Lead, But the Rest Do Not Recognize Him as Having a Sure Thing—All the Candidates Are Lawyers, Some of Them of Eminence—One Was a Member of the Venezuelan and Hague Tribunals.

Indianapolis, Ind., March 30.—With the republican state convention less than four weeks off the campaign for the gubernatorial nomination is fast approaching the boiling point. Many of the counties are instructing their delegates, and each of the four candidates in the field has a goodly number to his credit. If the instructed vote only is considered Frank Hanly of Tippecanoe county is in the lead so far, and his friends are claiming his nomination easily.

The other candidates, however, are far from conceding a victory for Hanly and the contest promises to be a hot one to the finish. The leading opponents of the Tippecanoe candidate are Judge William L. Penfield of Auburn, Warren G. Sayre of Wabash, and W. L. Taylor of this city.

Judge Penfield has never been a marked factor in state politics, but he has been connected with the national administration since the election of McKinley in 1896, and as a representative of the country before the Hague tribunal, in the Venezuelan controversy, he attracted considerable public attention. Warren G. Sayre, who is making an active canvass for the nomination, has been associated with some of the stirring scenes in Indiana politics, and has won distinction as a leader of his party. W. L. Taylor, the fourth candidate, has been attorney general of the state for four years. Like the others, he is a lawyer, and a man of popular presence.

### Facts of Petroleum Production.

Washington, D. C., March 30.—The forthcoming annual volume on mineral resources published by the United States geological survey will contain an interesting report on the production of petroleum in 1902. The report will show that the production of crude petroleum, which amounted to \$8,757,256 barrels, was greater than that of any previous year. The increase was due principally to the development of the petroleum fields of Texas, California and Louisiana, and by an increased production in Indiana.

### Do You Want Strength?

If you want to increase your strength you must add to not take from the physical. In other words, the food that you eat must be digested, assimilated and appropriated by the nerves, blood and tissues before being expelled from the intestines. Kodol Dyspepsia Cure adds to the physical. It gives strength to and builds up the human system. It is pleasant to the taste and palatable, and the only combination of digestants that will digest the food and enable the system to appropriate all of its health and strength-giving qualities. Sold by Tallman & Co.

### Teachers Meet at Aurora.

Aurora, Neb., March 30.—The teachers of the Central Nebraska Educational Association, are holding their twelfth annual meeting in this city. The sessions, which are unusually well attended, will continue through Friday. The regular business sessions of the meeting will be interspersed with a number of special features, including a concert, declamatory contest and spelling match.

### Colds Cause Pneumonia.

One of the most remarkable cases of cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 145 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by Tallman & Co.

## "WHAT'S BRED IN THE BONE WILL OUT IN THE FLESH"

Is true of mankind as well as lower animals. We do not expect blooded stock from common sires, physical giants from dwarfs and midgets, nor well-developed, robust children from tainted ancestors and sickly parents. It is contrary to the laws of nature and heredity, which are inviolable, unchangeable and fixed.

Children not only inherit the features, form and disposition of their parents, but the mental and physical qualities, infirmities and diseases as well. That certain diseases are transmitted from parents to children, are bred in the bone and handed down from one generation to another, can not be denied, for we see evidences of it every where and every day.

SCROFULA, a disease almost as fatal as Consumption, is a disease of the blood, is bred in the bone and will out in the flesh in the form of glandular swellings, deep abscesses and sores, boils and eruptions. It affects the eyes and ears, weakens the digestion and destroys the red corpuscles and solids of the blood, resulting in emaciation, stunted growth and poorly nourished bodies.

RHEUMATISM is handed down from gouty ancestors and rheumatic parents. The acid poisons in the blood that cause the sharp, shooting pains in muscles and joints have been there may be from birth, and exposure to bad weather, night air, or cold, easterly winds only hastens the attack by exciting the acid blood. The blood must be purified and the poisons filtered out of the system in order to get relief from this painful disease.

CATARRH is something more than a cold in the head; the poison extends into the Throat and Lungs, attacks the Stomach, Kidneys and Bladder, and every part of the system. We inherit a predisposition or tendency to Catarrh, just like other blood diseases; it is bred in the bone and can not be reached with sprays and salves, but requires constitutional treatment and a thorough cleansing of the disease-tainted blood.

CONTAGIOUS BLOOD POISON is responsible for more suffering than all other diseases combined, and none is so surely transmitted from parent to child. Fearful ulcers and sores and disgusting skin eruptions often break out in infancy, and those whose blood is tainted with this awful poison are handicapped from birth, and unless the poison is eradicated carry the taint through life.

CANCEROUS ULCERS and old sores seem to pursue some families through generations, and in spite of washes, salves and ointments, continue to spread and grow because the taint is in the blood; is bred in the bone and grounded in the flesh.

Nothing but a real blood remedy like S. S. S. can reach these deeply rooted, inborn diseases. It goes to the fountain source of the trouble, uproots the old taint, drives out the poisons that have been lurking in the blood for years, and tones up the weakly constitution.

S. S. S. reaches diseases of this character that no other medicine does or can. It has been tested in thousands of cases during the nearly fifty years of its existence, and its reputation as a cure for chronic blood troubles is firmly established.

S. S. S. is guaranteed purely vegetable and suited to old and young and persons of delicate constitution. If you have inherited a predisposition or tendency to some family taint, the sooner you begin a course of S. S. S. the quicker and more certain the cure. The disease may develop in childhood or later on in life, but is sure to make its appearance sometime, "for what is bred in the bone will out in the flesh," as sure as you live.

Our physicians make diseases of the blood and skin a special study. Write us all about your case, and medical advice or any special information desired will cost you nothing.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

George Stevens, proprietor of a hotel Saturday night in a row with rooming house at Spokane, was killed three roomers over 60 cents.

## BECOMING A MOTHER

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period.

Sold by all druggists at \$1.00 per bottle. Book containing valuable information free. **MOTHER'S FRIEND** The Bradfield Regulator Co., Atlanta, Ga.

## HOLT BROS. Side Hill Combined Harvester

The latest improved two-wheel, side-hill combined harvester has proven a boon to wheat raisers. It is the most successful, most economical and easiest machine to operate ever built.

These harvesters have been given abundant trials right here at home and all users are highly pleased. None have been dissatisfied and all are high in their praise.

The Holt side-hill harvester on a side hill is able to stick to the side of the hill, while the header will slip down the hill. The main wheels are vertical, which braces the machine to the side hills. It works equally adapted to level land.

The Holt harvesters are sold exclusively in this section by
