WAS BASE BASEBALL

SEASON OF DISTRESS TO A LARGE CROWD OF FANS.

Considerable Misery Among the Performers—Closed With the Score Largely in Favor of the Railroaders—A Fantastic Melange That Cannot Be Adequately Described.

There was an awful mix-up at the Alta street ball grounds yesterday, when the clerks from the Boston store and the employees of the O. R. & N. came together to decide the baseball supremacy of the two callings. There were no fatalities, except to the science and art of baseball, and all of the injured will recover.

The game was what might be called a melange, and it cannot be described. It consisted of a series of broken collisions resulting in head-end flanges, derailed cars, flat wheels, exhausted air brakes, bent parallels, hot boxes and choked stacks on the one hand, and large discounts, damaged goods and loss of insurance on the other.

The game opened quite auspiciously. All of the boys had nice uniforms and lots of confidence. It closed about the sixth inning with a score of 21 to 8 in favor of the car shovers, because the semaphore arm of the umpire had given out, waving the danger signal to the batters, when the pitcher turned his special loose on the line. The base runners ran without order, signals or schedule, and special excursions were the order of the day.

During the middle of the game a couple of engines filled their tanks too full and ran wild, causing a suspension of the exercises, while they were caught by the fans and side-tracked. Both were from foreign roads, however, and had nothing to do with the regular program.

If it were possible to describe the game it would be done, but the English language is incapable of detailing all of the fine points of the playing. Besides, it might hurt some of the tender feelings of the players, most of whom are using arnica this morning. It was very interesting to the large audience, however.

The next attempt will be between the hack and draymen, as the aggressors, and the O. R. & N. employees as the respondents, if they are able to respond before the close of the season. The draymen demand satisfaction and recompense in the shape of an oyster supper and various and sundry cold bottles, Olympia preferred, and if there is enough left in the hospital fund after a week or so, it is possible that the challenge will be accepted.

Methodists Want to Dance.

The more liberal elements among the New York Methodists have for some time been agitating the proposition to raise the ban placed by the book of discipline on dancing, card playing and the visiting of theaters. They have long recognized that the Puritanical strictness of that prohibitory rule is no longer in harmony with the advanced spirit of tolerance pervading all Christian churches. All previous efforts to bring about a modification of that rule were rendered futile by the opposition of the orthodox elements. The agitation has been continued, however, and it is believed, that at the conference to be held here this month, strong pressure will be brought to bear, to have the absolute prohibition changed to a suggestion, enumerating dancing, card-playing and theater-going among the forms of amusement to be avoided by the faithful. The principal reason urged against the prohibitory rule is that it cannot easily be enforced.—New York dispatch.

No Time for Fools.

When George Westinghouse, as a young inventor, was trying to interest capitalists in his automatic brake, the device which now plays so important a part in the operation of railroad trains, he wrote a letter to Commodore Cornelius Vanderbilt, president of the New York Central Railroad company, carefully explaining the details of the invention. Very promptly his letter came back to him, indorsed in big, scrawly letters, in the hand of Commodore Vanderbilt,—"I have no time to waste on fools."

Afterwards, when the Pennsylvania had taken up the automatic brake and it was proving very successful, Commodore Vanderbilt sent young Mr. Westinghouse a request to call on him. The inventor returned the letter indorsed on the bottom as follows:—"I have no time to waste on fools."

Smokeless Powder Fumes.

"Smokeless powder has its dangers as well as advantages," says Popular Mechanics. "While it does not reveal the location of the guns from which it is fired, and does not obstruct the vision of the gunners, it does emit a most deadly gas, which, if confined, works havoc. When used in the open field or battlements there is usually enough wind blowing to carry away the fumes, but when fired from turrets on board ship the gases are liable to be blown back into the compartment. In recent target practice by a battleship the wind blew the fumes into the turret and nearly asphyxiated the entire gun crew."

Makes a Clean Sweep.

There's nothing like doing a thing thoroughly. Of all the salves you ever heard of, Bucklen's Arnica Salve is the best. It sweeps away and cures burns, sores, bruises, cuts, boils, ulcers, skin eruptions and piles. It's only 25c, and guaranteed to give satisfaction by Tallman & Co., druggists.

"THE GAME KEEPER."

Romantic Irish Drama Coming to the Frazer.

The next attraction at the Frazer will be a novelty in the shape of a new romantic Irish drama, entitled "The Game Keeper," on April 13, in which the title role is taken by Mr. Thomas J. Smith, the young singing comedian.

"The Game Keeper" tells a story of Irish life, in which Mr. Smith figures as the hero. He is a jolly, delightful chap, full of mither wit, with a heart as big as 'hat of the proverbial ox, and honest as the day is long without a fear, and

without favor; ready at all times to assist his friends and protect the downtrodden.

A charming love story is interwoven through the play in which our game keeper, of course, takes the principal role. His enemies set snares for him, and even accuse him of murder, but he outwits them all and in the last act achieves the happiness he so well deserves.

An interesting feature of the performance are Mr. Smith's songs, which he knows so well how to sing, and which are interspersed throughout the different acts. The scenery used in the production is all carried by the company, and the illuminated chapel-scene in the last act is said to be one of the most beautiful stage scenes ever presented.

A Great Sensation.

There was a big sensation in Leesville, Ind., when W. H. Brown of that place, who was expected to die, his life saved by Dr. King's New Discovery for consumption. He writes: "I endured insufferable agonies from asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure." Similar cures for consumption, pneumonia, bronchitis and grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 50c and \$1.00. Guaranteed by Tallman & Co., druggists. Trial bottles free.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggist, price 75c. Take Hall's Family Pills for constipation.

MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on which a parasitic germ will prosper, is like scooping water from the ocean to prevent the tide from rising.

You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ. Newbro's Herpicide does this because it is specially made to do that very thing.

When the germ is removed, the hair has no choice but to resume healthy growth and beauty.

"Destroy the cause, you remove the effect."

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
