TO KILL THE DANDRUFF GERM.

Is the Only Possible Way of Having An Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, and you remove the effect." Sold by leading druggists. Send 30c. in stamps for sample to The Herpicide Co., Detroit, Mich. F. W. Schmidt, special agent.

A BOUNTIFUL YEAR

FREEWATER AND HUDSON BAY HAVE FINE CROP.

W. L. Shaw, the Veteran Irrigationist, Preaches a Little Sermon That Should Be Read by Every Farmer in Umatilla County—Nature Has Provided for the Reclamation of the Desert.

"This will be the biggest year for every kind of crop in the history of the county, in our locality," said W. L. Shaw, of Hudson Bay, yesterday evening to the East Oregonian.

"Alfalfa, wheat, fruit, gardens and all crops are in the finest condition possible, for this season of the year. The ground is filled with water, the streams are now running over their banks, and the days of the arid land in the Hudson Bay district are numbered. If we are allowed to use the waste water of the spring season.

"One good spring or winter wetting is all that is needed to produce excellent crops on that sandy soil, and I am glad to know that Oregon courts are beginning to recognize the injustice of laws which permit men to claim water that is running to waste by their farms, and deny other home owners the use of this water, that cannot be used at this season of the year by those claiming it.

"Water and ditches and canals and dams, are not all there is to irrigation. Wise laws and wise regulations that will utilize all the water in our streams and make them cover and reclaim the greatest possible area of idle land consistent with their flow, are also needed in Oregon, and must come before irrigation will have become the perfected system that it is to become in this state.

"As the natural flow of the streams is utilized in producing crops, then it will become necessary to build immense reservoirs to hold the waste floods that cannot be used under present conditions. In the Blue mountains bordering the wheat and alfalfa belts of this county are natural reservoir sites which have been hollowed out by nature, to be completed by man, for saving up until needed, the waste waters of the mountain streams.

"I believe irrigation is a science and it has become almost a religion with some of us, who have seen its glorious work in the American desert."

A Great Sensation.

There was a big sensation in Leesville, Ind., when W. H. Brown of that place, who was expected to die, here his life saved by Dr. King's New Discovery for consumption. He writes: "I endured insufferable agonies from asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure." Similar cures for consumption, pneumonia, bronchitis and grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 50c and \$1.00. Guaranteed by Tallman & Co., druggists. VILLAINOUS PROCURERS.

Spokane Employment Agencies Seek Young Girls.

The Spokane Press, through a system of secret service practice, by which orders were left at different employment agencies for young girls for immoral purposes, has exposed six leading employment agencies in Spokane, who will be barred from business by the authorities.

A reporter for the Press would go to the agent in the disguise of a dance hall manager and leave an order for a certain number of girls.

Then a female reporter would call at the offices inquiring for honest work and the agents used every inducement to have the reporter turn to a life of shame.

Six of the leading agencies were trapped in this manner and their methods exposed in the columns of the Press.

In ruling terms the Spokane trades council, representing 4,000 union toilers of Spokane, last night denounced the infamous practices of the employment agencies and warmly applauded the stand the Press has taken in exposing them. A committee was appointed to visit the city council and urge upon that body the immediate revocation of the licenses of the fiends who prey upon the beauty and virtue of Spokane girls.
