WORK ON LIGHT PLANT.

Over 200 Men Will Be Employed in the Construction on Walla Walla River.

Manager R. E. Allen of the Northwestern Gas & Electric company returned to the city last night from a short trip to the south fork of the Walla Walla river where preliminary work toward the construction of the company's new power plant is well under way, says the Walla Walla Statesman.

"There is much work to be done before actual construction work begins," Manager Allen said this morning. "Camps for the men must be established along the right of way and the roadway fixed up so that machinery and supplies may be shipped in."

"A new wagon bridge across the Walla Walla at the Nelbergall place is also necessary and will be put in as soon as the present high water subsides. It will probably be 10 days or two weeks before any considerable force of men will be put to work."

"The first work will probably be on the new reservoir which will be located on the south hillside opposite the Nelbergall place. The construction of this will be a stupendous task alone. The company will probably have 200 men employed by early summer and the work is to be rushed along as fast as possible."

BAND INSTRUMENTS COMING.

W. D. Fletcher Hears From Order for Instruments for Boys' Military Band.

W. D. Fletcher, organizer of the Boys' Military Band of this city, has just heard from the order for \$400 worth of band instruments which he sent to New York City about 10 days ago.

A change has been made in the order and the instruments will all be heavily plated, which will cost nearly \$100 more and will also delay the order for several days longer. When the instruments arrive the Fletcher band will be the best equipped band in Eastern Oregon, and the class will then be formally chosen and the instruments assigned.

DEADLOCK BROKEN.

Continuous Procession of West-bound Freight Cars.

The freight traffic over the O. R. & N. today was one continuous procession. All the trains that have been tied up at the scenes of the washouts on Burnt river for the past several days were turned loose yesterday and today, and have been passing through west-bound.

Several trains passed through last night, but today a number of extras went past besides the regular trains. It will be a day or two before the kinks are straightened out and things are running smoothly.

BOYD & TURNER.

Seattle Attorney Succeeds to the Practice of Col. E. D. Boyd.

Aaron Turner, a young attorney from Seattle, has entered into a partnership with Miss Ida Boyd in the management of the real estate and brokerage business formerly conducted by Col. E. D. Boyd, deceased, and the firm will hereafter be known as Boyd & Turner. The partnership has been formed since the first of April.

Real Estate Transfers.

Charles J. Mark has sold to Arthur Laing of this city, 800 acres of wheat land situated about seven and a half miles northwest of Pendleton, for \$12,000 cash. The land is in one of the best wheat districts of the county and is considered to be an excellent investment.

Frank O'Hara has sold to Rezilla Holcomb for \$8,350, about 167.5 acres of land in the immediate vicinity of Adams. This tract brought close to \$60 an acre. Both of the sales were made through the agency of the Bentley-Hartman real estate firm.

Kate C. A. A. Cowl has sold to Lucetta Romine for \$1,000, a tract of land in the southwest quarter of section 1, township 5, range 35 east, being in the vicinity of Freewater. Emma Eldenrich and others have sold to H. E. Putman for \$1,500, a tract of six and a half acres in section 23, township 6, range 35 east, being in the vicinity of Freewater.

Not Ended.

The crowding has ceased to be the thing at the Peoples Warehouse. In place of that one is able to see a steady flow of customers coming in, and being properly waited on. There are reductions in every department. Some greater than others. There is also some stuff left that gives evidence of having been in the fire. The fire sale prices are the thing at the Peoples Warehouse, and it would be well for you to call and take advantage.

Insurance Paid.

The Liverpool and London and Globe Insurance Co., through the agency of Miss Ida Boyd, this morning paid over to Leon Cohen \$976.82 its share of the loss by fire of March 31, on the stock of the Peoples Warehouse.

One Lone Drunk.

One lone drunk of unknown name appeared before the city judge this morning and not having any coin, was committed to the seclusion of the city jail for three days.

FULTON TELEPHONE

PARTY LINE WITH SEVEN FARMER SUBSCRIBERS.

System is to All Intents and Purposes a Part of the Pendleton Local System, Having All Local and Long Distance Connections Enjoyed by the Townspeople—System Will Probably Be Extended.

The new Fulton telephone line is proving quite a convenience to those who have made connections with it, and for telephone users in the city who may have business with them. The line is now connected in with the switchboard at the central office, and the patrons of the rural line can reach any of the people who may have 'phones on the other system.

The line extends out to the immediate vicinity of Warren station, and at present seven men have made connections with it, namely: Henry Rosenberg, H. J. Taylor, William Duff, T. J. Kirk, John Barr, Julius Hudeman and Henry Eggers.

The total cost of the line was \$500, and each patron pays \$6 per year for his 'phone. Besides this, the entire line is taxed \$2.50 a month for switchboard expenses, which puts the 'phones on the free list with the central office, so that any person can get any patron of the Fulton line as though the latter was in town. The line will perhaps be extended during the summer.

PNEUMATIC SPLINT.

Device to Hasten Jesse Failing's Recovery.

Jesse Failing is reported as being better this afternoon, and the physicians are considering the advisability of putting a pneumatic splint on his leg in order that he may be gotten out of bed. The main thing that is retarding Mr. Failing's recovery is the fact that he is compelled to remain so quietly in bed, which is very trying to him.

To overcome this difficulty, the physicians in charge have sent to Portland for a pneumatic splint, which is so arranged that the leg can be held in position firmly and safely, and yet the sufferer can be taken from the bed and moved about. It is hoped by this means to greatly hasten his recovery and the splint will be adjusted as soon as possible.

CONDITION SERIOUS.

William Godfrey, of the W. & C. R., Still in the Walla Walla Hospital.

Engineer William Godfrey, who was severely injured in the wreck on the W. & C. R. Tuesday night, near Walla Walla, is still in the hospital at that place and his case is considered dangerous. At first it was thought he was but slightly injured, but it develops that he sustained internal injuries.

Fireman William Grayson, who was injured at the same time, left the hospital yesterday and will resume his run in a few days. He was strangled and nearly drowned while under the cab of the engine, but was otherwise uninjured.

General Manager Joseph McCabe, who was badly bruised in the wreck, is attending to his duties and was not seriously injured. None of the passengers on the train were hurt to speak of, several very slight scratches being sustained. The slow speed the train was making at the time prevented a serious wreck.

COMMITTED TO ASYLUM.

Woman's Mental Derangement Is Caused by the Grip.

Mrs. John Campbell, of Gold Springs, was examined by the county board yesterday afternoon and adjudged insane. She will be taken to the asylum as soon as there is any one in the sheriff's office to escort her to Salem, part of the force having gone down yesterday with Mrs. Pahl and son.

Mrs. Campbell is 47 years of age, and her insanity is the result of an attack of the grip. She had a severe siege of the malady about three weeks ago, and when it left her she developed acute mania, and it has required several attendants to control her since, being violent and dangerous. The unfortunate woman is well known in the Cold Springs country, being connected with some of the prominent families of that section.

BRYSON-DUPUIS.

Well Known Young Weston People Will Be Married.

A marriage license was issued this morning to Miss Maude Bryson and Benjamin F. Dupuis, both of Weston.

The bride-to-be is a well known and popular teacher who has been employed in the Weston schools for some time, while the prospective groom is the junior partner in the grocery firm of Payne & Dupuis, of Weston. The ceremony will be performed at the home of the bride's parents on Sunday next.

BUILDING NEW BRIDGE.

O. R. & N. Company Has Large Force of Men at Work on Burnt River's Wrecked Bridge.

The O. R. & N. has a force of about 200 men at work on the bridge and track in the Burnt river canyon, at the scene of the recent washout. The concrete pier of one of the immense steel bridges was loosened, and will be replaced and a tempor-

ary piling bridge is being built around the steel structure, which will have to be removed while the pier is being replaced.

Water in Burnt river was two feet higher at this flood than it was in the high water of 1894, when the track and bridges were so badly damaged. Trains are now running regularly.

Pendleton Bitch Leads.

A special message from F. F. Wamsley, gives the information that "Oregon's Jessie," the pointer bitch owned by Mr. Wamsley, took first prizes in the San Francisco dog show, for field work, open, and general winners, and also took a special first prize as the best pointer bitch on exhibition. "Oregon's Jessie" is a daughter of Queen, a fine pointer bitch formerly owned by George Darveau, of the Hotel St. George, and now owned by Mr. Wamsley.

The Crawford of Union.

C. E. Cochran, T. H. Crawford and C. H. Crawford, all attorneys of Union, were in town last night and this morning, having returned from Portland, where they attended the democratic convention. T. H. Crawford was nominated for presidential elector. The party left this morning for Walla Walla, where they are interested as attorneys in the Stubblefield will case.

Returned From California.

A. D. Stillman returned this morning from Portland and San Francisco. Mr. Stillman went to California some weeks ago to look after interests in the Victoria Island, in the San Joaquin river, and returned in time to attend the convention in Portland. Walter M. Pierce, who went with him to California, is now in San Francisco, detained by business, and will not be home for several days yet.

Returned From Lewiston.

A. Kunkel, the popular implement dealer, has just returned from a visit to Lewiston, his old home, and reports crops much farther advanced there than in this county. However, there is no comparison to be drawn between the cities of Lewiston and Pendleton as the volume of business and traffic is much greater in this city than in Lewiston.

Dr. Cole to Vinson.

Dr. W. G. Cole left this morning for the Dougherty ranch near Vinson, to look after the condition of Pat Dougherty. Owing to the fact that the telephone is out of order, he could hear nothing yesterday, and thought it best to make the trip.

Taken to Asylum.

T. D. Taylor left for Salem last night, having in his custody Mrs. Marguerite Pahl, and 8-year-old son, Henry, who had both been committed to the asylum. Mr. Taylor was accompanied by Mrs. A. S. Pearson, who acted as a special guard for Mrs. Pahl.

Advertising the Fair.

A. B. Galloway of Pendleton, who sells paper for a Portland house, and who suffixes his elaborate autograph on the hotel register with the talismanic sign, "1905," is at the Geiser Grand today.—Baker City Herald.

Returned to Portland.

Miss Edith Wendorf of Portland, who has been the guest of Miss Daisy Stewart for some time, returned to her home this afternoon, accompanied by Miss Stewart, who will be her guest.

ABOUT THAT COAT

You wear a coat. Why? To keep the cold out? No; to keep the warmth in. What of the body that has no warmth—the thin, poor body that lacks the healthy flesh and fat it needs?

For such we say that Scott's Emulsion provides the right kind of a coat. Why? Because Scott's Emulsion builds firm, solid flesh and supplies just enough fat to fill nature's requirements—no more. That means bodily warmth.

We'll send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.
