

Our Surpassing Soda

The soda water drawn at our fountain surpasses in absolute purity, in perfect cleanliness, in dainty appetizing service, in perfection of flavors.

We go the limit in making every drink as nearly perfect as it is possible to make it.

We spare neither time, trouble or expense. There are many good reasons why you should drink all of your soda water here and for the fact that there is something about each drink that makes it taste different from other soda.

"GET THE HABIT."

GENERAL NEWS.

Henry Eggert, an eccentric and quite wealthy St. Louis botanist, suicided by shooting.

Russia is said to have 200,000 men at the front, and to consider that number as sufficient.

The prediction is made that the Klondike will yield \$10,000,000 in gold this season.

John Locker and Pat Ardell, railroad laborers, were killed by a landslide near Ventura, Cal.

Clinton Thorne was fatally burned at Watsonville, Cal. by the overturning of a large Rochester lamp.

Swimming and diving are the fad among athletic society women in the leading cities this spring, and the prediction is made that it has come to stay.

Twenty-three per cent of the tenants in the tenement districts of New York City were more or less forcibly evicted from their quarters this spring.

The Mongolia has just reached San Francisco from Trenton, N. J., where she was launched a few weeks ago. She is the largest vessel under the American flag, having a displacement of 23,520 tons, and is 616 feet long.

George William Millers fell heir to \$100,000 cash in Chicago, and search was made for him, as he had been missing several years. The name George William Millers is on the Chicago directory 18 times, but the man wanted cannot be found.

NORTHWEST NEWS.

The city of Ashland has just sold \$20,000 worth of sewer bonds at 4 1/2 per cent interest.

School fund loans, amounting to \$100,000, were allowed by the state land board Friday, at 6 per cent.

One mile of track on the Great Northern has been washed away on the Milk river bottom at Minot, N. D.

While the salmon run on the Columbia is light this spring, the quality of the fish is better than for many years.

Nathaniel Draper, an aged citizen of Payette, Idaho, was killed by a passenger train, Friday, while waiting on the track.

The heaviest storm that ever visited Salt Lake City, swept over the valley and city Friday. The wind blew 40 miles an hour and snow fell to the depth of six inches in many places.

The Princess Victoria, a Canadian Pacific steamer, made the distance from Seattle to Victoria, 73 miles, in three hours and 24 minutes Friday, averaging 26 miles an hour the entire distance. It is the record speed over that route.

Rev. H. Gould, of Newberg, has been placed in nomination for congress in the first district by the prohibitionists, in place of R. W. Kelsey, whose nomination was invalid. The war department has ordered an electric lighting plant for Vancouver barracks.

Owing to a lack of assistance, Dr. Maston, of Klamath Falls, was forced to amputate his own leg, which was broken in a runaway accident Friday. Before the job was finished Mrs. Lydia Lennox was compelled to take the doctor's pocket knife and cut the last tendons away, the doctor having fainted, and two other men present refusing because of sickness at the sight, to assist him.

OUTLOOK TO J. E. BEAN THE STOCK INSPECTOR.

Damage Done by False Reports From Irresponsible Parties—Very Little Loss Among Stock From Death—Mange From the Reservation Does Great Damage—Scab Among Sheep Nearly Eradicated—Range is in Excellent Condition.

John E. Bean, the stock inspector, has just returned from an extended trip of 10 days among the stockmen and flocks of this part of the country and this county in particular, and reports everything to be in the best of condition.

Erroneous Reports.

There is one thing that hurts Mr. Bean's feelings, and that is the erroneous reports that have been sent out from irresponsible parties to the effect that the stockmen in this county had lost 15 per cent or more of their holdings. This is a great mistake, for Mr. Bean saw no cattle dead at all in all the time he was out over the cattle country. He thinks that he smelled something that might have been a dead cow at one time, but is not sure about it, for it might have been a dog.

If there has been any loss it was the natural loss incident to the business, and not one to a shortage of feed, for feed is plenty throughout the county, and the grass is good and growing rapidly. In a few cases cattlemen had not supplied themselves with all of the feed that was necessary for the winter, and their stock came out thin. But wherever these men have been found to be in need, the neighbors have come to their rescue and brought their cattle through until they could do without hay.

Mange From the Reservation.

There is a little mange, and the officers are making an effort to stamp it out, and expect to be successful before the summer is over. The great trouble with the mange problem is the Indian ponies, which are allowed to stray from the reservation and seed other stock with the mange that is always present with this class of stock. The stock belonging to the farmers near the reservation are thus affected, and these in turn infect the neighboring animals, and so the disease spreads.

There were some horses killed last week near Athena, and it will be the practice of the officers to put all of the stock out of the way that is not properly handled, and that has the mange.

If this is kept up for a time it is thought that the Indians will either take better care of their horses, or else will keep them closer to the reservation.

Scab Almost Eradicated.

Scab among the sheep is also under control and is practically eradicated in this county. There is a little of it in one or two bands, but the sheep have been dipped and are being closely watched, so no danger is apprehended from them.

The range at all points in this county is in the best of condition, and the cattle are, therefore, in good condition. The cattlemen, and all stockmen in fact, are greatly pleased with the prospects as far as condition of stock in concerned, though the price of beef is not all that could be wished for.

Mutton Buyers Here.

As shearing progresses the mutton buyers are beginning to come into the county, and are already beginning to pick up a few stray yearlings here and there for the city markets. There are a couple of men now in this county who are buying to ship to the Yakima country, where the sheep will be fattened for the Seattle and other Washington markets, while men are on the road from the meat companies of Portland and California looking for fat wethers for shipment.

WAMSLEY TO BE PROMOTED.

Former O. R. & N. Agent at Pendleton May Be Assistant General Freight Agent.

It is whispered in railroad circles that F. F. Wamsley, for many years agent for the O. R. & N. at this place, will be promoted to the position of assistant general freight agent of the Harriman system, with headquarters at Portland, after the business of consolidation of the O. R. & N. and Southern Pacific is finally adjusted.

R. B. Miller, the present O. R. & N. agent will have the freight department of the Southern Pacific to handle hereafter. E. B. Coman, who now handles both the freight and passenger departments of the Southern Pacific in Oregon is to be promoted to the position of general passenger agent of all the lines west of Huntington and north of Ashland, and A. L. Craig is to go to a higher position in San Francisco.

This rearrangement will throw more work on Mr. Miller's office than he can handle, without assistance, and it is now said that Frank Wamsley is slated for the position of assistant to Mr. Miller, and will have virtual charge of the outside freight traffic. Mr. Miller to remain the head of the department and have authority in all matters.

Mr. Wamsley is one of the best railroad freight experts on the coast and has the reputation of carrying more separate rate schedules in his head than any other man outside of the general offices of the system.

He is thoroughly competent to take the position of assistant freight agent and his many friends in this city hope he will receive this appointment.

Happiness is best when it comes from within.

Robbed the Grave.

A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents. Guaranteed at Tallman & Co.'s drug store.

"Brown's in Town."

"Brown's in Town," and a lot of laughs are in store for the patrons of the Frazer theater on April 25. This clever farce is in line with the very best comedies of the day. The musical numbers this season are all new, the management is said to have made a special effort to engage the very best vaudeville talent.

A Thoughtful Man.

M. M. Austin of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills, and she got relief at once and was finally cured. Only 25c at Tallman & Co.'s drug store.

It is easy to gain a reputation for acuteness by always laughing at another's stories.

HOLT BROS. Side Hill Combined Harvester

The latest improved two-wheel, side-hill combined harvester has proven a boon to wheat raisers. It is the most successful, most economical and easiest machine to operate ever built.

These harvesters have been given abundant trials right here at home and all users are highly pleased. None have been dissatisfied and all are high in their praise.

The Holt side-hill harvester on a side hill is able to stick to the side of the hill, while the header will slip down the hill. The main wheels are vertical, which braces the machine to the side hills. It works equally adapted to level land.

The Holt harvesters are sold exclusively in this section by

E. L. SMITH

218 Court Street, Pendleton, Oregon

All extras for Holt machines on hand.

HELP FOR THE SICK

The marvelous secret of life at last discovered. The most wonderful discovery of the age, the latest system of applying

Oxygen and Electricity for Curing Diseases

No drugs, medicine or doctor; you treat yourself. The acme of perfect home treatment. Thousands are quickly cured of every known disease, from whom I have letters that can be seen at my office.

PROF. SHADDUCK, ELECTRO THERAPEUTIST

And Western representative for the ELECTRIKURE CO. of New York, and the JUDD ELECTRIC CO. of Detroit, Michigan. Patentees and sole manufacturers of the Elektrikure, the Oxelic and Judo's body batteries, and other appliances.

Remember these batteries and his system of applying electricity are different from all others.

He is located at the Palace, 627 Main street, and will give treatments. Also will furnish you with the battery that you need for your disease and teach you how to use it properly. When his patients leave him they have more knowledge how to treat with electricity than nine out of ten that are practicing with it today.

These batteries are endorsed by the leading medical and scientific men, both of this country and Europe. Hundreds are sold annually to the British Marine hospital in Bombay, India.

They are recommended by many well known physicians of Oregon, Washington and Idaho.
