TWO SUMMERS IN ONE.
By Leaving for New Zealand in Sep- tember, W. R. Frey Expects to Miss Winter Season of 1905.

That people may enjoy two sum- mers in one, is one of the possibil- ities of the round world, and W. R. Frey and wife expect to enjoy this novelty in the year 1904.

Mr. Frey, who has been largely in- terested in Pendleton real estate for several years past, will go to New Zealand about September 1, and by so doing expects to dodge the win- ter of 1904-5. The summer season in Pendleton will draw to a close about that time, and the summer season begins in New Zealand about the same time. That country is about the same distance south of the equator that Oregon is north, and the seasons are opposite.

Christmas in New Zealand comes during the hottest part of the sum- mer, while the 4th of July brings fur wraps and sleigh bells. By spend- ing this summer in Pendleton, and then leaving for the southern hem- isphere at the beginning of the southern summer, Mr. and Mrs. Frey hope to task in 12 months of con- tinual sunshine.

Mrs. Frey is a native of New Zea- land, and Mr. Frey has spent some time there, having rounded the globe since his boyhood days in Scotland. He spent many years in the interior gold fields of Australia and located in Umatilla county about four years ago. He will not sell his Umatilla county wheat land, as he knows of no other investment that would equal it at this time.
