STABBING AFFRAY

LESTER FRAKER STABBED AND ASSAILANT ESCAPES.

Fraker Will Not Tell Who Slashed Him, and the Whole Affair is Somewhat Mysterious — Wounded Man Had a Narrow Escape From Having His Jugular Vein Severed — An Old Grudge Supposed to Be Responsible.

Lester Fraker, well known in Pendleton and vicinity, is carrying a bad cut around with him as the result of an altercation in the Red Front saloon Saturday night.

As the story goes, Fraker was in the saloon at the bar when a stranger came into the room and asked for a drink. Fraker said something to the man, which was not noticed, when the speaker hit the newcomer over the head with a pair of spurs which he had in his hand. The stranger stepped back and drawing a knife made a lunge at Fraker, catching him across the face, inflicting a deep gash along the jaw bone. Had the cut been an inch lower the wound would have been fatal, as the knife would have severed the jugular vein. Fraker was taken to a drug store and his wound dressed, but he would make no statement as to the identity of his assailant, and as the latter had escaped immediately after the cutting, no attempt was made to arrest him.

It is said that the two men had trouble some time previous, and that

the cutting was the result of an old feud. Fraker is a half-brother to W. J. Furnish, of this city.

THE DEEPEST WELL.

Jurgen Mumm Has Just Completed Farm Well 429 Feet Deep.

The deepest well yet put down in Umatilla county has just been completed for Jurgen Mumm, who resides four miles north of the city.

The well is 429 feet deep and contains an abundance of water to supply the needs of the ranch.

The pumping apparatus used to bring the water the long distance to the surface is a Red Jacket deep well pump and it works with ease, only six strokes of the handle being necessary to bring water, and the test given it yesterday demonstrated it to be a success in every particular.

The pump is equipped with Red-Jacket electric welded galvanized steel pipe and is operated by a wind engine. W. J. Clarke & Co., who have the exclusive sale of the Red Jacket pumps in this county, put in the pump in this well.

At this session of the court the printing bill of the Tribune, which was passed up at the last regular term, will come up for settlement.

Three cases were argued before the court today, two of them being appeals from Umatilla county.

The first case brought up was a damage case against the O. R. & N., and held the attention of the court for all of the forenoon. A suit brought in the circuit court to recover damages for destruction of warehouse and grain at Barnhart station in December, 1902. The warehouse company valued its house and contents at \$1,892.86, and received an insurance of \$1,250. Sam Lavis also owned wheat valued at \$725.56, which was destroyed. He transferred his claim. Suit was brought to recover the value of the warehouse and contents. The defendants defaulted and judgment was rendered plaintiffs for \$1,445.63 on one ground, and \$431.25 on a second. Miss Gilliland's Death Was Caused by Chronic Diabetes.

E. church conducted the services. The interment was made in the Olney cemetery. It was erroneously stated in the paper of Saturday that scarlet fever was the cause of Miss Gilliland's death, whereas it was the result of diabetes of long standing.

AN AGED LADY.

"Grandma" Brewer is a Remarkably Well Preserved Woman.

"Grandma" Brewer, of Albany, reached Pendleton yesterday for an extended visit with relatives. Mrs. Brewer is the stepmother of Mrs. D. Turner, Mrs. H. J. Maple and Mrs. Frank Culton, and is 85 years of age, yet she is as youthful in her movements as her grandchildren, and looks many years younger than she is. Her mother died a few years ago at the age of 99 years and 3 months, and up to the day of her death was able to go about the house and assist in the little chores and duties that she had been in the habit of doing for years.

STOLE GOLCONDA ORE.

Sumpter Jeweler Purchases Rich Specimens From a Thief.

Manager James Howard of the Golconda, procures the ore purchased by Jeweler Landreth, as detailed in yesterday's Minor, unquestionably Golconda ore, says the Sumpter Miner.

In company with a Miner man Mr.

Howard examined the piece on exhibition in the window of Landreth's store this morning. It is his belief the ore came from the Golconda, beyond a doubt.

There is a peculiar thing about the different varieties of ore coming from the mother lode. North Pole, Golconda, Columbia, and E. & E. ore each have distinguishing characteristics, and one who is familiar with the products of these mines will hardly make a mistake in picking out samples from any of them.

CHURCH DEDICATED.

New Methodist Church at Athena Was Formally Dedicated Yesterday.

Athena, May 2.—(Special.)—The new Methodist church was dedicated yesterday with appropriate ceremonies.

A very large attendance witnessed the dedicatory exercises, and over \$9,000 was raised to pay off the outstanding indebtedness. A call was made for \$8,100, that being the amount of the remaining debt, and when the subscriptions and pledges were footed-up it was found that over \$1,000 more than enough had been subscribed.

The building cost \$14,000 and is one of the finest church buildings in Eastern Oregon. A new Christian church costing \$11,000, was dedicated here a few months ago, making a total of \$25,000 spent in two churches here within the past year.

PLEASED WITH ASSESSMENT.

Taxpayers in Southern Part of County Are Satisfied With Mr. Strain's Policy.

S. S. Darnell, deputy assessor for Willow Springs, Vinson and Hogue precincts, has completed his work and turned over the rolls of those precincts to the assessor. He says that the taxpayers are unanimously in favor of the policy of Assessor Strain and that not a kick has been registered in any of those precincts against the valuations placed upon property. The assessments were made this year about as last year.

Stock losses in those precincts have been very light, about all the loss reported having resulted from natural causes.

THE REGISTRATION.

Less Than Two Weeks More in Which to Register.

So far there have been 2,425 voters registered at the office of the county clerk. This is about half the total vote of the county, and the books close on the 15th of May.

Pendleton is behind some of the outside districts in her registering, and will have to hurry if all of the voters in the city are registered on time.

The present registration will hold for the coming general election in the state and for the presidential election in November, and for this reason it is hoped that all of the voters in the county make it a point to register before the books close May 15.

Gone to Portland.

Jerrold Tuttle, who for the past year has been connected with the Brock & McComas Drug Company, left this morning for Portland, where he has accepted a responsible position with the wholesale house of Woodward, Clark & Co. Workmen are putting in the new floor on the Main street bridge. The material has been on the ground for several months, but it has not been convenient to put it in place before this time. The work will be completed before the heavy traffic of the wheat hauling season begins, and while travel is light.

Early Closing Question Settled.

The clerks and merchants have reached an agreement by which the dry goods stores will continue to close at 6 o'clock until June 1, after which they will remain open until 8 o'clock. The grocery stores will close at 7 o'clock during May and will be closed at 8 o'clock after June 1st.
