tian Church Next Sunday Evening.

There will be a mass temperance meeting at the Christian church next Sunday evening, which will have some unusual features.

Aside from the music, which the promoters promise will be excellent, there will be 10-minute speeches by the ministers and other temperance workers, each of whom will handle some particular phase of the tem-perance question, from the view point of the present issue of local option. In other words, the meeting will be made a symposium at which perhaps every possible inquiry of the doubtful or undecided voter will be answered.

The committee having the arrange ments in charge are taking especial pains with one music, which will be more than excellent—it will proba-bly be the best ever offered in the place at a gathering of this charac

#### TOILET OF TIBETAN WOMEN. Use Black Cosmetics and Put Butter on Their Hair.

As if nature had not been unkind enough the Tibetan woman heightens her ugliness by smearing her face with a horrible black ointment to keep her skin from cracking in the dry wind. Her dress is not very different from her husband's. Her crowning glory is her hair! Plaster ed down with butter from the part to the ears, it goes off behind into a sunburst of small braids to which is fastened a great fan-shaped head-dress falling to the hem of her gar-ments. It is of spreading stripes of red and blue cloth, joined horizontal ly by iron bands, and ornamented with countless coral and malachite beads, silver coins and tiny bells. The one poetic thing about a Tibetan woman is the sound of her going—a soft, melodious tinkle, belying the soft, melodious tinkle,
