### TO REPEAL EDDY LAW.

Eastern Oregon Mining Corporations Will Make That an Issue.

Already the mining corporations of Baker county are clamoring for the repeal of the Eddy corporation tax law, and will fight every man running for the legislature in that county and Eastern Oregon who is not in favor of repealing the law.

The mining companies claim the law imposing a tax upon them prevents them from developing the country, and drives capital out. The people are well satisfied with the Eddy law, for the reason that it causes the mining companies organized with millions of capital to bear their part of the government by contributing their tax to the state.

## AFTER HARNEY WOOL

### SHANIKO MAKES BID FOR CENTRAL OREGON CLIP.

Said to Have Handled 7,000,000 Pounds Last Year at an Average of 14 Cents—Would Direct Immense Wool Output of Southeastern Oregon to the Columbia Southern—Warehouses Will Be Built at Burns.

F. T. Hulbert, cashier of the Eastern Oregon Banking Co. of Shaniko, and T. G. Condon, manager of the Shaniko Warehouse Co., spent a few days in our city this week interviewing our business men, in regard to handling the freight business of this section through their city and talking to wool men about their clips, says the Burns Herald.

These gentlemen urge many advantages to our people by making shipments via Shaniko and especially in this respect the woolmen. Shaniko is one of the best wool market points in Eastern Oregon today, as the records of the past three or four years show.

Last season the clip of something like 7,000,000 pounds made an average of 14 cents per pound—some going as high as 16 1/2.

Our people are very favorably impressed with the propositions made by these gentlemen and an effort will be made to get at least a few of our sheepmen to send their wool to that point for sale this season.

They desire to give it a practical trial if it proves an advantage it is the intention of the Shaniko people or local men to establish a warehouse in Burns to handle next season's clip and the wool can be hauled to this city, weighed, graded and received, giving the wool men an opportunity to dispose of it right at home.

In case this is accomplished the shearing plant will be moved to the vicinity of this city where the wool would be handy to the warehouse.

### FRUIT INJURED AT TOUCHET.

Cherries, Strawberries and Early Apples Badly Affected.

Fruit in and near Touchet will do well if there is a third of a crop this year. The frost of the latter end of April destroyed nearly all the cherries and strawberries and early apples, says the Walla Walla Union. The late fruits are not so much harmed, according to reports received here.

The freakish way in which the frost has acted has been a matter of some discussion. A few miles to the north of Touchet there is no damage reported by the fruitgrowers, and the orchards fulfilling the fair promises made by them at the opening of the season. But not only are different regions treated with seeming discrimination by "Jack Frost," but on the same tree there is often a branch or two that is not injured, while the remainder of the buds of the tree are completely destroyed. Sometimes, even, on the same cluster of fruit, there may be seen a healthy green fruit surrounded by many all discolored by the frost.

### Butchers at Cincinnati.

Cincinnati, O., May 9.—The Amalgamated Meat Cutters and Butchers' Workmen of North America, which has members in many parts of this country and Canada, began its annual convention in Cincinnati today. The organization is steadily increasing its membership, as is shown by the reports prepared by the officers and committees for presentation to the convention.

### Territorial Druggists Meet.

Tulsa, I. T., May 9.—The Oklahoma and Indian Territory Pharmaceutical Association began a joint convention here today and will remain in session until Thursday. Luther E. Sayers, dean of the College of Pharmacy of the Kansas University, will address the meeting upon the revision of the United States pharmacopoeia.

### To Discuss Wage Question.

Niagara Falls, N. Y., May 9.—Delegates from many parts of the United States and Canada are attending the annual convention begun here today by the International Union of Pulp, Sulphite and Papermill Workers. Wages and conditions of labor are the chief subjects before the convention for consideration and action.

### Stove Men Meet.

New York, May 9.—Members of the National Association of Stove Manufacturers gathered in New York today for their thirty-third annual convention. Numerous matters of interest to the stovemakers will be discussed during the week, such as cash discounts, breakage in transit, catalog house business and packing goods for foreign shipment.

### A Startling Test.

To save a life, Dr. T. G. Merritt, of No. Mohopany, Pa., made a startling test, resulting in a wonderful cure. He writes, "a patient was attacked with violent hemorrhages, caused by ulcerations of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for Dyspepsia, Indigestion, Constipation and Kidney troubles. Try them. Only 50c at Tallman & Co.'s.
