GOOD SHOES CHEAP. Phone Main 1131.

SHEEP BUYERS HERE.

Prices Will Not Average as High as Last Year.

Buyers of sheep for the mutton markets are on the ground in considerable numbers, and more are coming. Messrs. McMasters and Ferguson of North Yakima, are here. They want young sheep—especially 2-year-olds—which they will trail across and fatten in the Yakima district.

John Howard of St. Paul, is again on the ground, after sheep of the same class he has always heretofore been after, for the Eastern markets.

Prices do not promise to average as high as last year, though what is actually realized when it comes to a show down between producer and buyer may justify the former in insisting upon last year's quotations. At this time, however, only \$1.75 to \$2 is offered for animals which a year ago brought from \$2 to \$2.10. The buyers at this time are offering only \$1.50 for yearlings.

BASEBALL SCHEDULE.

"The Wonders" Have a Busy Season Mapped Out.

Manager Lee Drake will take the "Wonders" to Athena next Sunday, for a contest with the "Yellow Kids" of that city, that arrangement having been made last evening. The line-up of the Wonders remains unchanged and the boys are practicing steadily for the game.

On the following Sunday, May 22, the Wonders will cross bats with the "De La Salles" of Walla Walla, on the Alta street grounds. It is the intention of Manager Drake to complete a schedule of local games for every Sunday during the summer, and it is probable the team will go to

House Cleaning Made Easy

See our window for the things that you need. Here is the list: Whiting, Ammonia, Sulphur, Chloride Lime, Magic Cleaning Fluid, Soap, Deodorized Benzine, Sulphur Fumigators and Dusters. Anything else? Ask us.

Tallman & Co.
Leading Druggists

La Grande, to play the "Rubes" on May 29.

A game was partly arranged between the Wonders and the Rubes for next Sunday, but Manager Drake received a phone from La Grande last evening saying that the La Grande ball grounds were not in shape to play on, so the game was switched to Athena.

SMITH-STANTON.

Well Known Helix Couple Married Last Evening at the Wheat Town.

Guy Smith and Lulu Stanton, both of Helix, were married last night at 10:30, at Helix, by Justice D. B. Richardson.

The couple is well known in the northern part of Umatilla county and will reside at Helix.

No Great Damage.

G. W. Rigby has been out to his ranches east and northeast of Pendleton. He avers that the damage to wheat by freezing in that direction and localities is so insignificant that it is not noticeable in fact. What is more, the wheatgrowers for a distance of 10 miles in that direction declare that there has never been a finer prospect for wheat than right now.

Go East.

Mrs. L. G. Frazier and Miss Zelma Phillips left last night for the East. Mrs. Frazier will spend the summer at Pleasanton, Kan., her own old home. Miss Phillips changes at Pleasanton for Butler, Mo., where she formerly resided. She also will spend the summer in the East, and will visit the World's Fair.

Edien-Melhorn.

Ethel E. Edien, of Walla Walla, and Albet Melhorn, of Baker county, were married at the Renn lodging house by Rev. Robert Warner last evening. They will reside at Heppner and left for that city this morning.

No Summer Vaudeville.

Manager Taylor may have a stock company at the Frazier about the first of June, to remain for from six weeks to two months. He has about abandoned all thought of being on the vaudeville circuit this season.

Looking for Investments.

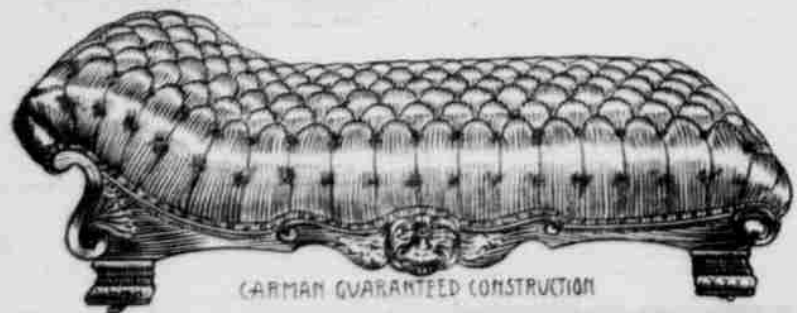

Archie Struthers, a wealthy rancher of Waitsburg, Wash., is here looking for an opportunity to invest in ranch and general farming lands.

No Dessert More Attractive

Why use gelatine and spend hours soaking, sweetening, flavoring and coloring when

Jell-O

produces better results in two minutes? Everything in the package. Simply add hot water and set to cool. It's perfection. A surprise to the housewife. No trouble, less expense. Try it today. In Four Fruit Flavors: Lemon, Orange, Strawberry, Raspberry. At grocers 10c.

Main and Webb Streets

IMPROVEMENTS FOR O. R. & N.

WILL NOT EQUAL WORK DONE DURING LAST YEAR.

Bridge No. 155, Over Meacham Creek, the Highest on O. R. & N. Will Cost \$40,000—New Depot for Huron—Warehouse for La Grande—Stockyards to Be Rebuilt at Heppner.

W. A. Storie, of the O. R. & N. bridge department, is organizing a new bridge gang, which will be ready for work in a few days, and will have headquarters at North Fork. J. O'Meara will be foreman, and he will have under him 11 men.

Among the important jobs which will receive immediate attention and be put to a conclusion at once is the replacing of the old wooden truss bridge across Meacham creek, (No. 115) with a steel span on concrete piers. This completed structure will cost \$22,000, and will be 125 feet long.

Ten miles east of No. 115 is bridge No. 155, which is the highest bridge above the water of any bridge on the line—50 feet. This bridge will also be built entirely anew. It is now a wooden truss and will be replaced with four steel spans on concrete piers. Their aggregate length is 340 feet. It will be the largest and best piece of bridge work on the system and will cost \$40,000.

The bridge across Squaw creek will be entirely rebuilt and in the same vicinity is a steel bridge, the approaches to which are to be rebuilt.

Bridge 108, near Bingham, is to be rebuilt. It is now a wooden trestle. It will be left a Howe truss and \$9,000 will be expended upon it.

An entirely new steel bridge is to be put in across Tanner creek, 40 miles east of Portland, which will cost \$40,000.

The stockyards at Heppner will be rebuilt and will cost \$1,400.

New standard water tanks will be put in at Tekoa and Touchet.

Huron is to have a new depot, and also Pleasant Valley, not far east of Baker City. Harrison, Idaho, will also have a new depot.

The company will also this season build a warehouse 40x100 feet at La Grande, which will cost \$2,000.

In addition, there will be a general overhauling and repairing of everything along the entire system in the shape of a bridge, culvert, tank, depot or warehouse that was not put in strictly first-class shape last season, although Mr. Storie does not think the aggregate of expenditures in his department will equal that of last year.

The new and rebuilt structures, especially bridges, are to be essentially first-class in design and execution, and equally excellent in material.

INSTITUTE COMMITTEES.

Music and Seats Will Be Furnished for the Meeting in This City on May 26.

The following sub-committees on music, seats and entertainment of the speakers for the Farmers' Institute, which will be held in this city on May 26, have been appointed:

On seats, tent and other accommodations—Lee Teutsch, George Perringer and Thomas Thompson.

On music—R. Alexander, C. E. Roosevelt and Dr. C. J. Smith.

On entertainment of the speakers—Leon Cohen, T. G. Halley and J. A. Borrie.

A letter from General Freight Agent R. B. Miller, of the O. R. & N., says that an Eastern trip will render it impossible for him to be present, but that he will have an able representative here in Colonel R. C. Judson, who is authorized to offer any assistance that the O. R. & N. company can give to make the meeting a success.

Great interest is displayed in the meeting by the farmers of this vicinity and it promises to be one of the best farm conventions ever held in the county.

It is expected that large delegations of farmers will be present from Helix, Athena, Echo, Weston and other points in the county, as the meeting is intended to be a county institute, and is not confined to the vicinity of Pendleton.

WHEAT INJURED AT HELIX.

Frost Did Some Damage on the Low Lands in Different Sections.

Helix, May 11.—(Special).—The winter wheat has been severely damaged by frost in the low lands and north hillsides and much of the grain is now turning yellow and falling over, the stalk having been frozen. The rains of the past two days will bring the frost-bitten grain up from the roots and the crop will not be diminished, it is thought.

In May, 1888, a heavy frost occurred in this vicinity which injured the yield about as at present and rains following the frost brought up the damaged grain from the roots and a heavy crop was harvested notwithstanding the setback from the frost.

Will Return in July.

Dr. L. Frances Thompson starts next Monday for the East, accompanied by her son. Together they will spend about two months in the East, much of that time in and around St. Louis, near which city is the doctor's old home. Dr. Thompson will return about the middle of July and resume her practice.

Returned From Dayton.

G. M. Rice, cashier of the First National Bank, returned last evening from a visit to his family at Dayton. He reports the greatest wheat crop in prospect, in the history of that section. The barley crop, for which that district is noted, is also very good. Mr. Rice anticipates one of the most prosperous years for all classes of people, in the history of the Inland Empire, this year. All the small towns between Pendleton and Dayton are in a thriving condition, and show every evidence of prosperity.

J. A. Smith, one of the largest wheat growers in Gilliam and Sherman counties, was in the city last night on a brief visit.

For Memorial Day.

Preliminaries are under way for the observance of Memorial Sunday and Decoration Day. The G. A. R. post will hold a meeting next Saturday at 2 o'clock to further the work of preparation. The post has already appointed committees on speakers, flowers and general arrangements, and has the work well in hand, although it is not positively known at this time who will deliver the addresses on either day.

To Be Installed.

The formal installation of Rev. Van Nuys as pastor of the Presbyterian church of this place will take place Sunday, May 29, but at such an hour (to be determined later) as will not be in conflict with the Memorial Sunday exercises. The hour for the latter will be fixed at the pleasure of the committee having the Memorial Sunday affairs in charge, and the installation services will be made to conform thereto.

To Visit Old Home.

Rev. N. H. Brooks will start East about June 1, and will be absent several weeks. He will visit the World's Fair and his old home in Kentucky before returning. Rev. R. A. Coppie will supply the Christian pulpit during his absence. Mr. Coppie has been supply at Walla Walla for several months, going up on the Saturday evening train and returning Monday.

Jesse Falling Improves.

Jesse Falling continues to improve. His general health has been very little affected by his accident. The fractured thigh is supposed to be knitting slowly, but its progress is very deliberate owing to Mr. Falling's age. It is confidently believed, though, that it will knit sufficiently to yet be a very serviceable limb.

Fire Company Elects.

Fire Company No. 5 held a meeting last night and elected three new members—Charles Zacharias, Al Koch and William Kemp. The affairs of the company are in good condition and it is one of the most effective ward companies anywhere in the West.

Surveying Pasco Project.

R. Gantenbein, of Pasco, who was in the city yesterday, reports that a corps of 30 government surveyors is at Pasco, outfitting and preparing for the final preliminary survey on the Palouse river irrigation project.—Walla Walla Union.

Will Finish Dipping.

John Sheridan, of Echo, is in town today, making final arrangements for dipping his 3,000 head of sheep. He intends to do a good thorough job of it, and will use one-half pound of sulphur at each dipping for each animal.

For County Physician.

Dr. W. G. Cole appeared before the county court yesterday with an application to renew his contract as county physician. The application was indorsed by Mr. Gilliland, but has not yet been indorsed by Messrs. Hartman and Walker.

Will Visit East.

Frederick Nolf starts East this evening and will be gone several weeks, visiting his old home in Nebraska, and the largest general markets in the book, stationery and notions lines.

Visited the Schools.

The school board visited the rooms in the high school building this afternoon in a regular tour of inspection. Everything was found to be in first-class condition and the classes all preparing for the close of the term.

Buys Royal Restaurant.

W. Sams, the Japanese, has sold the Royal restaurant to M. Gratz, who takes possession tomorrow and will run it in person.

THE WHOLESOME CRESCENT

Egg and Phosphate

BETTER THAN THE OLD-TIME CREAM OF TARTAR POWDERS.

JUDDS WIN SUIT.

Pendleton Scouring Mill People Get Damages in Connecticut.

The Commercial Bulletin of Boston contains the following account of a damage suit won by Judd & Root, of Hartford, principal owners of the Pendleton scouring mills:

"Wool damaged by fire in a Galveston, Texas, warehouse will probably cost the New York & Texas Steamship Company, \$30,332. A jury in the United States circuit court last week returned a verdict for that amount in favor of Judd & Root, of Hartford, Conn.

The steamship company had been engaged to transport \$28,000 worth of wool from Galveston to Hartford, in July, 1896. The wool was destroyed by fire while stored in a Galveston warehouse, where it had been placed by the steamship company, which denied its liability, on the ground that the wool was not destroyed through the company's negligence.

The case was tried three times. Before Judge Dallas, on March 5, 1897, the jury disagreed. When tried before Judge McPrehn, April 9, 1901, he instructed the jury to find for the steamship company, but the circuit court of appeals reversed this decision and ordered a new trial.

A Son Born.

A son was born to Mr. and Mrs. A. M. Snyder, formerly of this city, but now of Portland, at their home at 446 Sixth street, Monday, May 9.

ALL WOMEN

Who wish to retain or regain their health must see to it that functional regularity is established. This is an all-important question and the wise woman will resort to Hostetter's Stomach Bitters at the first symptom of any derangement, because she knows it always gives prompt relief. Pains in the Back, Bloating, Vomiting, Headache, Indigestion, Dyspepsia, Fainting Spells and Sleeplessness are all danger signals which require the Bitters. Try one bottle.
