GENERAL ASSEMBLY

ONE HUNDRED SIXTEENTH ANNUAL AT BUFFALO, N. Y.

Fourteen Hundred Representatives of Many Million Communicants—May Consolidate With Cumberland Presbyterians—Race Question is Again to the Front—Scheme to Raise \$20,000,000 for Endowment of Colleges.

Buffalo, N. Y., May 19.—The Lafayette Avenue Presbyterian church, spacious though it is, was scarcely able to accommodate the crowds who sought admittance this morning at the opening of the 116th annual session of the Presbyterian general assembly. The gathering was called to order at 11 o'clock by the retiring moderator, the Rev. Robert F. Coyle, D. D., of Denver. Two hours previous to the formal opening the chapel was thrown open to receive the credentials of the commissioners, numbering nearly 700, and an equal number of alternates, and from that hour until the assembly convened the Rev. Dr. William H. Roberts, the stated clerk, was kept busy distributing badges and assigning the delegates to their places.

The session begun today will continue for 16 days or longer. As constituting the highest court in the church, the assembly will be a matter of widespread interest and many matters of importance will be brought before it for discussion and settlement. There are no heresy trials, and no revision of the confession of faith is expected, but many questions of doctrine and discipline which are constantly coming up in all sections of the country, and which have been brought to the assembly for adjudication, will inject plenty of doctrinal discussion into the sessions.

Foremost among the questions to receive attention is the proposed consolidation of the Presbyterian and Cumberland Presbyterian churches. Doctrinal differences have separated these churches for years past, but of late they have been drawing closer together and now there seems to be little difficulty in the way of bringing about a consolidation. A joint committee has arranged a plan of consolidation, which must now be ratified by the two denominations. It is expected that this will be done, though there will be opposition to the step, both at the assembly here, and at the assembly of the Cumberland Presbyterians, which meets today at Dallas.

Another question of far-reaching importance touches the color line in the Presbyterian church. For some years past overtures have come to the general assembly, asking the privilege of establishing separate presbyteries for white and colored ministers in the same territory. Such a proposition has always been defeated and it is expected the committee in charge of the question, and which has been deliberating on it for the past year, will again report against it.

Another important committee which is to report at the present session is that which is known as the \$20,000,000 committee on the endowment of colleges, especially in the West. This committee will submit a plan for raising the needed money and this report will doubtless provoke much discussion.

SIGHT PRESERVERS.

The little lenses of glasses joined by their frame of gold or nickel are wonderfully potent for good or evil. Properly fitted, they build up the eyes and preserve the sight—improperly fitted, they tear down and destroy.

Reading a few lines of print with a pair of glasses is no test. The sight must be tried by modern and scientific methods.

We have every facility for making tests and can supply any kind of glasses required at moderate cost.

POPULAR OCEAN BEACH.

Many From the Interior Planning to Spend Their Vacation at the Sea Shore.

Hundreds from Eastern Oregon and Washington spent their vacation at North (Long) Beach, Washington, last summer, and it is safe to say that this popular resort of the North Pacific coast will be visited by many more this year than ever within its history. The change from a high and dry interior altitude to the sea level is most beneficial.

The trip on the Willamette and Columbia rivers out of Portland, is one long to be remembered, the usual heat of a summer afternoon being tempered by a gentle breeze freighted with the aroma of pine trees and seasoned with the salt sea air. The scenery includes much that is beautiful. Leaving Portland on one of the Oregon Railroad & Navigation Company's palatial river steamers, (the T. J. Potter being queen of river flyers) the excursionists are carried through its harbor, where fly the flags of many nations.

The 12 miles on the Willamette river are quickly made, and, after saluting the government lighthouse, marking the junction of the two rivers, the boat swings into the Columbia for the trip down stream.

The morning is clear (generally so from June until September), and a magnificent and inspiring sight meets the eye as the sweep around the bend is made—five snow-capped peaks, Mount Hood, Mount Adams, Mount Saint Helen, Mount Rainier and Mount Jefferson, looming into view—a sight worth traveling thousands of miles to see.

On down the picturesque river, past villages, sawmills, fishing fleets, salmon canneries, perpendicular basaltic bluffs, and pretty side-hill farms, the boat pursues its way. The majestic sweep of the river is awe inspiring. Gradually the shores grow farther apart, and, scarcely realizing that the five hours have been consumed in making the trip, the boat steams alongside the wharf at Astoria.

One hour from Astoria, through the famous fishing waters of the Columbia, past scores of salmon traps and nets and as many white-winged fish boats, lands the passengers at Ilwaco, on Baker's Bay, where connection for beach points is made with trains of the Ilwaco Railway & Navigation Company, whose cars stand on the wharf awaiting the steamer. North Beach, where the surf bathing is unexcelled at low tide, is from 200 to 400 feet wide, 23 miles long and so compact that a carriage or wagon scarcely leaves a trace upon it.

Scattered along the beach are hundreds of cottages and hotels in which summer life is an unceasing round of pleasure from the opening until the closing of the season. The much dreaded "Resort Mosquito" is unknown and no venomous snakes or insects are found.

The thermometer rarely gets above 80 degrees in July or August, but light overcoats, fires morning and evening and blankets at night are comfortable during the season.

Rates for accommodations at North Beach points are reasonable and vary to suit the visitor. At European hotels and lodging houses rooms range from 25 cents to \$1 a day; at restaurants, meals run from 25 to 50 cents; and at the American plan hotels, the charges range from \$1 a day to \$2 and upward.

Dozens of delightful side trips may be taken from the beach into a country of wild and picturesque beauty, quiet and secluded among hills and forest, with hunting and fishing in native haunts; to the United States life saving stations and lighthouses, cranberry farms, oyster beds, salmon fishing grounds and canneries.

For particulars about the trip to North Beach, ask the nearest O. R. & N. agent, or send two cents in stamps to A. L. Craig, general passenger agent, Portland, for "Restful Recreation Resorts," which tells all about the Columbia river summering places.

A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. E. Van Metre, of Shepherdstown, W. Va., says: "I had a severe case of Bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for Croup, Whooping Cough, Grip, Pneumonia and Consumption. Try it. It's guaranteed by Tallman & Co., druggists. Trial bottles free. Regular sizes 50c, \$1.

Notice to Contractors.

Sealed proposals will be received at the office of the undersigned until Tuesday, 3 p. m., May 24, for the erection and completion of a second story on the Peoples Warehouse for J. R. Dickson, according to plans and specifications prepared by C. E. Troutman, architect. The right is reserved to reject any and all bids. Plans and specifications can be seen at the architect's office, room 12, Judd building, Pendleton, Or. (Signed) C. E. TROUTMAN, Architect.

Tallman & Co.

do not hesitate to recommend Kodol Dyspepsia Cure to their friends and customers. Indigestion causes more ill health than anything else. It deranges the stomach, and brings on all manner of diseases. Kodol Dyspepsia Cure digests what you eat, cures indigestion, dyspepsia and all stomach disorders. Kodol is not only a perfect digestant but a tissue building tonic as well. Renewed health, perfect strength and increased vitality follows its use.
