SUIT FOR DIVORCE.

Plaintiff Alleges Cruel and Inhuman Treatment.

Mary McIntyre has brought suit against Frank McIntyre for an absolute divorce on the grounds of cruel and inhuman treatment.

The complaint alleges that the parties were married December 4, 1893, in Athena. There are two children, Maude, aged 9, and Roy, aged 7.

On May 15, so the paper says, the defendant being angry, kicked the door down leading into the room where the plaintiff was sitting, seizing a large butcher knife and threatened to kill her. He abused her and threw the knife at her with such force that it went through the panel of a door just back of where she was sitting.

Shortly after that he forced her to go to a dance with him and while on the road threatened to kill her. The plaintiff is afraid that the defendant will, at some time when he is drunk, carry out his threats, and therefore asks for an absolute divorce, together with the care and custody of her children, and the costs and disbursements of the action. James A. Fee is attorney for the plaintiff.

WILL NOT PAY SIX PER CENT.

State Land Board Refuses to Handle Pendleton Bonds.

The school board has received notice from the state land board that the board will not take up the school bonds from this district under a 6 per cent interest rate, and the board here is correspondingly happy.

According to the school law the district issuing bonds must give the land board the preferential right to buy any or all bonds issued at a rate of interest not to be less than 5 per cent. When the bonds were passed here it was the wish of the board to have them draw 4 1/2 per cent on long time issue. The bonds were offered to the land board with the low interest in the hopes of having the offer

refused, which was done today. The county treasurer will now advertise for the sale of the issue.

PLEASED WITH SALES.

A. H. Sunderman, of Echo, Believes the Wool Pool Has Saved Money for the County.

A. H. Sunderman, the prominent woolgrower from Echo, was in the city yesterday, and in speaking of the result of the wool sales in this city, said he was perfectly satisfied with the result.

He believes that the pool of the wool and the combination of the growers saved many hundreds of dollars to the sheepmen of this county and that the aim of the organization should be to strengthen the sales day, which occurs on June 10. His clip was very good and the prices are satisfactory.

He feels highly elated to think that the same quality of wool sold higher at the public sale than it did a few weeks before at private sale.

Jess Lieuallen, of Weston, returned this morning from Heppner, where he has been engaged in sheep shearing for the past month. Shearing is now over in that district and the clip is in the warehouses. The Heppner sheep were in an excellent condition for shearing this year, and the clip was very heavy and clear of sand. The surplus sheep in the country will be sold and shipped out if possible as the summer range area is limited.

PLANTING BROOK TROUT.

Forty-five Thousand Placed in Umatilla River Today.

A. W. Nye has returned from Bingham, where he went yesterday to accompany a shipment of brook trout sent from the government hatchery at Clackamas. H. J. Stillman received word in the evening that a shipment of 45,000 had been sent from the hatchery for the Umatilla river, and Mr. Nye went with the government hatcherymen who were with the fish on the early train, to Bingham, and they were planted in the river between Bingham and Gilboa.

Requests have been put in by the sportsmen for consignments for Birch creek and the Walla Walla river, but as yet no notification has been received that the request will be granted. The supply at the hatchery has run short this year, and not all of the places wanting a fresh supply will be able to get them.

DATE OF THE ELECTION.

"It is Better Not to Know So Much, Than to Know So Much That Ain't So."

If the republican and democratic candidates for county offices and two or three of the small papers printed in Pendleton and in some of the other small towns of this county will take a look at their almanac they will see the first Tuesday after the first Monday in June falls on the 7th of the month. By doing so they will avoid the suspicion of being careless when they speak of the "election that is to occur on the 6th of June next," instead of the 7th.—Pilot Rock Record.

Since coming to town today Editor McManus has taken a look at the Oregon law, with the help of his attorney, and has come to the conclusion that the carelessness is on the other side. He had been smoking the presidential pipe for the November election.

and Irene McCarthy, Tracey Beam, Peter Bacon, Gale and Glen Sturdivant.

Alumni Reception.

It was indeed a happy throng of high school graduates that assembled on Friday evening at the Parish House to renew old school ties and at the same time tender a reception to the graduating class of 1904, who will become new accessions to the alumni. George Hartman, Jr., president, made a pleasing address to the graduates, which was responded to in a very capable manner by Dell McCarty, president of the class. Interesting talks were made by Thomas G. Hailey and Lee Teutsch.

The remainder of the evening was merrily spent in a social way until a late hour, when the honored guests departed, being wished bon voyage on the sea of life.
