

The "Force" of Herpicide.

NOTHING SUCCEEDS LIKE SUCCESS.

Why is Newbro's Herpicide a success? Because it has the "Force" or capacity to produce an effect. What is the effect? The destruction of the invisible, vine-like, microbic growth that lodges in the sebaceous glands of the hair follicles, where its growth and development causes dandruff, itching scalp, falling hair, and later, incurable baldness.

Is Herpicide pleasant to use? Clear as crystal Newbro's Herpicide is the daintiest, most delightful and refreshing application ever prepared for the scalp. It contains no oil, grease, sediment or dye matter. Careful people who now consider it a duty to use a scalp prophylactic, to insure cleanliness and freedom from dandruff contagion, prefer Newbro's Herpicide on account of its extreme purity, exquisite fragrance and refreshing quality. Ladies, in particular, become enthusiastic over it, because it keeps the hair light and fluffy and gives it a silken gloss.

STOPS ITCHING INSTANTLY.

"Destroy the Cause--You Remove the Effect"

THE FIRST HAIR SAVER.

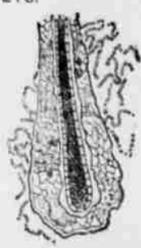

Newbro's Herpicide is the first "Hair Saver." It was not made until the microbic and contagious nature of dandruff was discovered. Before this discovery, approaching baldness was considered inevitable, and after it came the scalp was treated with tincture of cantharides (made from dried blistering bugs) and other irritants to make the hair "grow." Every dermatologist now recognizes the fallacy of this treatment. Save your hair while you have hair to save. Kill the dandruff germ with Newbro's Herpicide and give nature a chance; marvelous results will follow. Try it.

MATERIALLY BENEFITED BY ITS USE.

"I have noticed a very material benefit from the use of Herpicide and believe it will effect an entire cure." (Signed) C. S. MUDGE. Baker City, Ore.

MARVELOUS RESULTS.

"I used a couple of bottles of Newbro's Herpicide with marvelous results. Dandruff disappeared and my hair stopped falling out." (Signed) CLAUDE WATKINS. Portland, Ore.

An Unhealthy Hair.

NEW YORK FASHIONS

New York, May 28.—Unlined blouses are worn a great deal with dressy skirt and coat costumes nowadays, and there is none more popular and becoming than the blouse of batiste, trimmed with batiste embroidery or with a combination of embroidery and lace. Some exquisite specimens have been shown recently and they seem to be even more popular than lace blouses or those of fine lawn embroidery with lace trimmings.

There is nothing prettier and daintier in the line of negligee than the garments after Japanese pattern, which are displayed in the shops at this time. The main features of the Japanese style are retained, but they are modified to adapt them to our conditions and the requirements of American methods of wearing these garments.

It is difficult to imagine anything more artistic and delightful than these kimono robes, sacks and wrappers, which are equally beautiful in color, design and workmanship. In most cases soft crepe is the material of which they are made and on the crepe beautiful designs of flowers, birds or butterflies are embroidered by skillful hands. The combinations of colors are charming and characteristically Japanese.

Most of these summer negligees are cut rather low, but the necks are either round, pointed or square. There seems to be no rule in regard to that point. The square necks seem to be particularly popular, probably because they are more becoming to various forms and shapes of necks. Voile and Taffeta in Favor.

Soft finished taffeta is also used quite extensively for summer negligees, although it lacks the clinging softness and pliability which makes the softer crepes such delightful material for negligee purposes. Some of these taffeta negligees are in the form of outer robes, which are worn with a girdled underrobe of soft and sheer material. These robes are quite handsome and picturesque, though less convenient than those made in one piece.

For dressy afternoon frocks voile and taffeta are probably the most favored materials. Next in order come the crepes, Bollennes, chiffons, batistes, mousselines and fine cloths. They all have their special missions and are shown in the shops in a bewildering variety of styles and colors. For dainty summer wear there are also many other favored materials, like white and natural colored pongee, a score of weaves in linens and other materials.

Women with an eye to economy will be glad to read the following suggestion by a writer on fashion matters: A pair of lace medallions, left over from last year's summer frock can be put to excellent use in trimming stockings to match the gown. For instance, with a pongee gown piped with brown and trimmed with lace medallions, a plain pair of tan lisle stockings can be made very smart by the use of lace medallions, one just above each instep. They are first applied on the stocking with silk thread in very fine stitches, then the lisle beneath is carefully cut away and the edges of the stocking secured with button hole stitches placed closely and finely to the wrong side of the medallion. Worn with brown Suede shoes they give a dainty finishing touch to the costume.

The Pompadour Must Go.

The execrable monstrosity of the big pompadour is, fortunately, going out of style and women are gradually returning to a saner and less ugly style of dressing the hair. Now comes the time when the women who were foolish enough to follow that abominable fashion, will have occasion to regret their foolishness. Complaints are beginning to come from all sides and more are sure to come, as the pompadour becomes a nightmare of the past. At present fashion decrees that the hair shall be parted in the middle and gently waved on either side.

That is just where the trouble begins for those who have been wearing

pompadors during the past year. Nearly all of them find, that their hair, just where it should be full, shows more or less outspoken signs of baldness. This state of affairs, against which women had been warned a great many times during the past year is entirely due to the pompadour. The wearing of "rats" caused an overheating of the scalp and, in consequence thereof, a drying out of the glands and falling out of the hair. The punishment for foolishly sinning against nature, is fully deserved and rather mild at that, inasmuch as in most cases it will not be lasting.

By systematic massage and the use of proper tonics a new growth of hair can be caused in most cases, but it will require several months of patience, before the normal conditions of the scalp and hair are restored. In the meantime the victims of their folly will be compelled to cover the bald spots with light tulle bows or some other dainty ornaments.

—ESTELLE CLAIRMONT.

"SHAKES" THE BARON.

Another American Girl Tires of a Dirty Noble Husband.

Cleveland, O., May 28.—Another international marriage has turned out unhappily and another beautiful American girl, who wedded a title is now in the divorce court seeking release from the ties that have changed from love to hate.

Three years ago Charlotta Hart of Cleveland, accompanied by her parents, went abroad. In Vienna she met Baron Jules Takacs de Kis-Joka, a Hungarian nobleman. He fell in love with the beautiful American girl, Papa and Mamma Hart, sensible Americans, objected to the affair and spirited the girl away. Baron Jules, etc., in his hot-blooded Hungarian style, followed and after a pursuit extending over half of Europe, won his suit.

It was at Naples that Miss Hart eluded her parents and the pair were married. A few weeks ago the baroness arrived here and filed suit for divorce. She also asked to be declared a bankrupt. In her petition she declared her husband had compelled her to sign notes for \$40,000 to pay for money he had borrowed to court her and buy her presents. She alleged that the transaction was illegal and she wanted to be released from the liability.

Baron Jules, etc., followed his beautiful wife here. He replied to the suit and his attorneys argued that Mrs. Jules by her marriage forfeited her American citizenship and became a subject of Hungary.

Baron Jules is a good looking chap. He lives at an expensive hotel, says he loves his wife, that she loves him and that her parents alone keep them apart.

Pending the trial of the case the baron has become a baseball fan and is enjoying himself hugely.

Ladies and Children: Who cannot stand the shocking strain of laxative syrup and cathartic pills are especially fond of Little Early Risers. All persons who find it necessary to take a liver medicine should try these easy pills, and compare the agreeably pleasant and strengthening effect with the nauseating and weakening conditions following the use of other remedies. Little Early Risers cure biliousness, constipation, sick headache, jaundice, malaria and liver troubles. Sold by Tallman & Co.

HOLY ROLLERS' CREED.

Girl in Boys' and Girls' Aid Society Home Explains Her Religion.

"All things will be restored. The world will be again like it was before man fell. This can be brought about only by the way we live here."

Such was the explanation of the "Holy Roller" religion by Urania Florence Sealey, who is now in the safe keeping of the Boys' and Girls' Aid Society, where she was brought from the Holy Roller camp by Sheriff Huston, says the Evening Telegram. Since Frank Hurt's family has been sent to the asylum, and this innocent 17-year-old girl has been brought to Portland, the roller camp is a thing of the past, as the last member is now gone. Miss Sealey said there were 17 members, all but three being women.

Probably more light on this peculiar religion than has hitherto been known to the public was brought out when she answered the query:

"Why do you believe you should not wear shoes, hats and other garments?" "Adam and Eve were put into the world without clothing. It was the girl's answer. It showed that she was still determined to defend the religion she had been wildly following for the past few months.

"That is the way we should live. When Adam fell the world was cursed and now there is death. There would have been no death if Adam had not sinned. All things will be restored, and we can bring the world back to that condition by living like the Lord wants us to.

"We did those things at the command of the Lord. We received messages direct from him. Sometimes we would all receive them together.

A Startling Test.

To save a life, Dr. T. G. Merritt, of No. Mehoopany, Pa., made a startling test, resulting in a wonderful cure. He writes, "a patient was attacked with violent hemorrhages, caused by ulcerations of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for Dyspepsia, Indigestion, Constipation and Kidney troubles. Try them. Only 50c at Tallman & Co.'s.
