DOES LOCAL OPTION HURT?

Press Committee Answers Liquor Dealers' Circular.

The Local Option press committee has issued the following reply to the circular of the Liquor Dealers' Association:

"How ingeniously the liquor dealers and all their paid allies continue to evade the real issue before the peo. ple. They dare not meet the question squarely

"But they cannot deceive the people by their subterfuges. We can always trust the intelligence of the average American. The liquor dealers make us think of the country youth who, on his first visit to the city was frightened and ran away from a stuffed bear. Their prohibition at this time is a stuffed bear.

"It seems to us contemptible for men of the pretensions of the liquor dealers to attempt to prejudice the people" against a principle so dear to every American citizen—the right of the majority to rule.

"Professing faith in personal liberty as an inherent right, and at the same time exhort the people to tram-ple it under their feet. Who says that a vote for local option means 50 per cent increase in taxes, and 33 per cent decrease in property values? Such an assertion would be amusing ous. Facts are stubborn things and they prove the contrary as shown in yesterday's article.

D. A. MAY, CONTRACTOR AND BUILDer. Estimates furnished on all kinds of masony, cement walks, stone walls, etc. Leave orders at East Oregonian of fice.

"The United States census shows that the adoption of local option stimulates the growth of a state or city and promotes prosperity. From 1890 to 1900 Kansas increased population ten times as fast as Nebraska under high license; and North Dakota under prohibition, more than four times as fast as South Dakota.

"In 1887 Atlanta, Georgia, adopted local option and during the year following enjoyed the greatest prosperity in its history. Stores vacated by saloons were promptly taken up by other lines of trade; many new business blocks and factories were erected and trade in every branch increased greatly. But we again remind the voter that if local option carries—as it will of course, for Americans believe in majority rule—it will not necessarily mean prohibition, or the

closing of saloons.
"Before that can take place, local option must carry, and then 10 per cent of the voters must petition for the Advice of This Pendleton a special election, after that the ple will have the privilege of voting for or against the saloons. Is it les people are entirely free American to fight against giving the charge the does not take majority an opportunity to choose to derange the kidneys. A litwhat they want?
