Party lines have been swept away in some instances, but in others the party vote has been more in evidence. Yet with but one or two exceptions did the voters pay any attention to their party tickets throughout the ballot. It was a contest of the people on the man and not on party lines. The contest of the year and day was centered around the fight for the office of county judge and the republicans claim the victory by a scant majority of 21 votes. Up to noon at the democratic headquarters hope had not been lost altogether, though it was known that the precincts yet to be heard from were republican. It is generally conceded, however, that Bean has won out though his majority is so small as to be unsafe until the official count has come. It is hinted by the supporters of Judge Hartman that if some of the votes were looked up on the other side that the little shift upon which rests the hopes of the opposition would fade away and let the nominee go tumbling down to defeat. Till Taylor Elected. T. D. Taylor is so far ahead in the race for sheriff that there is but a faint memory in the minds of men that there was another candidate for the office at all. The result had not been checked up, but it is estimated that Taylor's majority will reach 1,000 votes or more. Taylor is certainly the next sheriff. Saling is Clerk. J. E. Cherry has been sent to the woods in the race for county clerk, and Frank Saling will take the chair left vacant by W. D. Chamberlain on the first of July. His majority is good and sure. Both of the men have made good races and the honor of the success does not cause any sting on the defeated candidate for he made a clean and honest fight for the place he has lost. Folsom Re-elected. William Folsom is re-elected to the office of county recorder by a good majority, though the race was much closer than was expected by those who claim to be wise and on the inside of the ring. Fowler retired beaten, but not discouraged. Somerville Wins. E. J. Somerville is at the head of the republican ticket with a ma-

TIMBER LAND TO BE OPENED

LARGE BODY IN BAKER COUNTY TO BE PLATTED. Includes Baisley, Maxwell and Highland Mines--Is a Well Known Mineral Tract and is Partially Covered With Heavy Pine Timber--Now Used as Summer Sheep Range.

Baker City, June 7.--Register W. E. Davis, of the La Grande United States land office, has announced that a large acreage of land previously unplatted in the land office, therefore not subject to entry, will be platted and opened to location. The land lies to the north of Sumpter several miles and is largely in the undefined section left unsurveyed at high altitudes of the mountains. A portion is in the immediate vicinity of Baisley, Elkhorn, Maxwell and Highland mines, 12 miles west of this city, while other portions lie further to the north. The official description of the land, as sent from the office of the register and the date when the plats will be filed are as follows: "Notice is hereby given that the approved plats of the surveys of sections 19, 20 and 31, west half section 20, west half section 29, and west half section 32, township 8 south, range 28 east, Willamette meridian; all of the unsurveyed portion of township 3 south, range 37 east, Willamette meridian; fractional sections 13, 14, 15, 16, 17 and 18, township 6 north, range 43 east, Willamette meridian; all of the unsurveyed portion of township 2 north, range 36 east, Willamette meridian; all of township 2 north, range 37; Willamette meridian; unsurveyed portion of township 2 north, range 59 east, all of township 3 north, range 49 east and township 3 north, range 50 east, Willamette meridian, have been received in this office. "The above plats of surveys will be filed in this office on Saturday, the 16th day of July, 1904, at 9 a. m. On and after that date this office will receive applications for the entry of lands in said townships. "Portions of this land are covered with a magnificent growth of pine timber and it also includes some of the best mineral land in the state. The highest peaks lying within the descriptions are covered with snow 10 months in the year, and are practically barren. The entire area is now used as summer range for Baker county sheep.

MOB LAW RULES TELLER COUNTY

Vigilance Committee Rounding Up All Union Men for Deportation.

MILITARY ASSISTS THE REIGN OF MOBOCRACY.

Declaration of Martial Law Expected at Once--Mine Owners and Citizens Alliance Formulating Plans for the Complete Suppression of Organized Labor--The Writ of Habeas Corpus Is Denied President Moyer, of the Western Federation.

Denver, June 7.--Delegates to the Western Federation convention and the officers of that organization in Denver are aghast at the terrible outrage at Independence, and open expressions of sympathy for the unfortunate non-unionists are heard on every side. The wholesale murder is vigorously condemned, and Secretary-Treasurer W. D. Haywood said that the man or men responsible for the crime should be given short shift. "We believe in fighting for everything we believe is right," said Mr. Haywood, "and fighting most vigorously; but no one has ever accused this organization of murder. I want it distinctly understood that the federation is opposed to anything like that which happened at Cripple Creek and I hope the guilty parties, if the explosion is the result of a conspiracy, will be punished to the full extent of the law. "Our advice from camp are meagre and none of us care to make an extended statement, as it is barely possible that the explosion was the result of an accident of some kind. We have already sent detectives to make an investigation for us."

Full Military Control.

Victor, Col., June 7.--At 9 this morning the district had almost resumed its normal condition of quietude. The suspension of City Marshal O'Connell and forcing of Sheriff Robert and Coroner Doran to resign placed the city under military control. Wholesale arrests of unionists and announcement by the authorities that no quarter will be shown any one evincing a disposition to make trouble, served to restore peace and bring order out of chaos. The authorities now have the situation in hand, and there are sufficient troops and deputies on the ground to maintain order. Sheriff Bell this morning announced that all citizens must go unarmed, disobedience of which means arrest by the military. Fifteen Killed. The full casualties thus far includes 15 killed, 14 wounded. John Calderwood, one of the most prominent union leaders in the camp is among the latter. The vigilance committee organized yesterday is still at work in the small towns of the district, arresting unionists and bringing them to Victor, where they are placed under a heavy military guard. These arrests will continue until every man of influence in union circles is a prisoner, when it is understood they will be placed aboard a special train and deported. Upon the return of Peabody tomorrow from St. Louis, it is believed martial law will be declared and kept in force indefinitely. Mineowners and the Citizens' Alliance are formulating new plans along this line.

Martial Law Before Night.

Denver, June 7.--Acting Governor Haggott this afternoon announced he would declare martial law in Teller county before night and order troops to that camp. The latest reports from Cripple Creek are that wholesale resignations have been demanded from public officers by the Mineowners' Association and City Marshal Graham has already retired. Others to go are Assistant

THE WOOD SUPPLY. About 4,000 Cords at Kamela and Perhaps More at Meacham Awaiting Buyers at the Right Price.

There is estimated to be 4,000 cords of wood in the timber tributary to Kamela, ready for a buyer. A large number of men have been employed in that vicinity during the past winter and the best timber for miles around the station has been thoroughly culled out. Yesterday an offer was made to Kamela woodmen of \$2.75 per cord for 1000 cords on board the cars, but the offer was refused, the owners holding for \$3.75 on board the cars. Not very much wood is being hauled into the stations at this time, as the roads are still in bad condition. A still greater amount has been cut at Meacham, which is not sold at this time.

NEW THEORY OF YOUNG'S DEATH

\$5,000 NOT ENOUGH FOR NAN PATTERSON.

Attempt Is Being Made to Secure Her Release by a Writ of Habeas Corpus--Theory of Attempted Suicide Resulting in Young Being Accidentally Killed.

New York, June 7.--Caesar Young was buried today in Kensico cemetery. Nan Patterson still languishes in jail, the coroner having refused her release for the \$5,000 bail previously fixed. Her counsel this morning appeared before Justice Clark of the supreme court, for a writ of habeas corpus, but on representation of the district attorney that he had not had time to prepare, an adjournment was taken until afternoon. Miss Patterson was brought into court garbed entirely in black, with a heavy veil. She had regained her composure. The new theory of Young's death is that the woman attempted suicide because Young was about to leave her and in a struggle for possession of the pistol, Young was killed.
