MUST HAVE MERIT

CHANGE IN METHOD OF SELECTING INDIAN AGENTS.

Roosevelt Will Promote Superintendents From Ranks of Civil Service Hereafter—Change in Policy Hoped to Give More General Satisfaction and Better Results on Reservations.

The announcement at the White House that President Roosevelt had decided to adopt the policy of filling vacancies in the position of agent in charge of Indian reservations by the appointment of bonded superintendents, means a further reduction in the patronage at the disposal of Western senators and representatives.

Reservation agents are not in the civil service, while bonded superintendents are, and as the policy of the president will result in no change in the salary or the duties of the official in charge of the reservation, the appointment of the bonded superintendents will merely mean the extension of the merit system to a class of federal positions which heretofore have been disposed of by politicians.

The president decided to substitute the bonded superintendents for the agents upon the recommendation of Commissioner Jones of the Indian bureau, who has long been an advocate of the merit system in the selection of reservation officials.

He has succeeded in having a large number of agents displaced by the appointment of bonded superintendents and it was said at the Indian bureau that there now remain only about 20 agents in the Indian service.

In adopting the policy of Commissioner Jones, Mr. Roosevelt is reported to have been influenced by the alleged scandals on some of the Indian reservations in which the reservation agents were implicated. The most recent case of this kind is that of O. A. Mitscher, in charge of the Osage reservation in Oklahoma.

Officials in the Indian bureau say that the efficiency of the service on reservations would be greatly increased by the appointment of bonded superintendents, as those officials would be selected from applicants of known ability.

As an illustration of the manner of selecting the bonded superintendents, the case of Superintendent Frank A. Thackeray, in charge of the Sac and Fox reservation in Oklahoma, was cited. Mr. Thackeray, who is one of the most capable superintendents in the Indian service entered that service as an assistant farmer, and he has filled successively the positions of farmer, teacher, disciplinarian, superintendent of training school and reservation superintendent.

FINNS IN UMATILLA.

Settlement of Thrifty People—Hard Luck Story of Their European Home.

The following brief interview with a prominent Finn residing near the city, was written for the Pacific Homestead, by Fred Lockley of this city:

Not more than a score of miles from Pendleton, Umatilla county, Or., is a colony of prosperous Finns. One of them, in speaking of his home in Finland, said: "There we raise a little grain when we can, but it is too dear to eat so we sell it to pay our taxes and buy a few coarse clothes."

"Many of the people there cut up the straw and scrape the inner bark of the spruce. They mix these two and soak them. The spruce bark forms a sort of mucilaginous substance and holds the straw together. We bake this into cakes and this is often all we have for months at a time in winter. Sometimes we can catch some fish and that helps us out."

"I am sending all the money I can spare back to Finland to bring my relatives out here. The people here do not know how fortunate they are. But we know; we who had to scatter charcoal on the snow so the snow would melt earlier and give us a longer season."

"We know who have seen our wives and children eat chopped straw because we could not buy bread."

Worst of All Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newson, Decatur, Ala. "For three years," she writes, "I endured insufferable pain from indigestion, stomach and bowel troubles. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and now I'm completely recovered." For Liver, Kidney, Stomach and Bowel troubles Electric Bitters is the only medicine. Only 50c. It's guaranteed by Tallman & Co., druggists.

END OF THE WORLD.

Adventist Minister of Walla Walla, Makes Bold Prophecy.

Elder Ford, an Adventist minister, who was at one time a resident of Walla Walla, has caused a great stir by proclaiming that the time for the end of the world is fast growing near. At Spokane a short time ago he said: "The end of the world is at hand. It has commenced and will end with the battle of Armageddon, which will be fought near Jerusalem, with the head of the Russian government on one side and with the combined strength of the world on the other side. Christ will appear in the clouds as the Savior of the world and will rescue the righteous from everlasting damnation. Those who witnessed the great shower of stars in 1833 will live to see the event. The darkening of the sun and moon in

1780 are other forerunners of the end of the world.

"The great talk of peace among the nations of the world is only a forerunner to the greatest battle in the world's history. Russia will not only conquer the East, but will advance on Turkey and drive the sultan from his throne. Then the other nations will be driven toward Jerusalem, and the nations of the earth will fight over the spoils of Turkey. The battle will be a hand to hand affair, and there is no possibility but what the majority of them will be exterminated."

"The war no win progress between Russia and Japan, is the beginning of the end. All nations, notwithstanding their talk of peace, are preparing for the great battle. Scientists and the wise men of the world recognize that the end of the world is near at hand."

Dogs That Know the Road's Rules.

On the trail through the Bonanza valley, in the Klondike, dogs are used as pack animals, and dog teams are commonly met with by the traveler. The dogs make better time than donkeys. They carry little canvas bags across their backs filled with freight. Dogs used for packing are much larger, as a rule, than sled dogs.

A miner will invariably step aside when he meets a dog on the trail. If the man is going up, the dog will take the shilling. The dogs appear to understand the laws of the trail as well as the men do, and the miners respect the rights of the dogs just as the Turks respect the sacred dogs of Constantinople.
