spur, such as was worn by the cow-boys of the early days. This spur is now in the possession of Tex Langi-ver, having been brought to Pendleton by "Bill" Lester, a sheepherder. The spur is very heavy, the rowell being three inches in diameter. It is rusted so that it has the appearance to have been worn by a wealthy cat-tleowner, who mysteriously disappeared many years ago, while riding from town to his camp with his cattle herders' wages. The man, who was very wealthy, was never heard of after he left the city, and though it was suspected that he had been mur-dered, no one could ever be connect-

"Trib" as a Cure.

Spokane, Wash, May 2, 1904. "TRIB" has done just what you said it would for me and I am well pleased; my general health is better and I have no desire for liquor or tobacco. It has been about one year since I took "TRIB." You may use my name at any time you like, and say to those that know me know that would not say I received a cure with "TRIB" unless it was true.

Niagara Falls, N. Y., June 8.-Un-der the auspices of the National Millers' Federation, organized in Chicago (wo years ago, nearly 1000 mill men Attached of Minnesota, Kansas, Missouri, Wisconsin, Illinois, Iowa, Ohio, Oklahoma and other states assembled in conference here today to discuss trans-portation facilities, storage and various other matters affecting the flour milling industry,

Foremost among the legislative measures which are being pushed by the millers is the Lovering bill pend to have been worn by a wealthy cat-to simplify the matter of American millers getting back in rebate the amount of duty they have to pay on foreign wheat when the cereal is manufactured into flour and exported. 18 Such a rebate is allowed now, but the millers complain that it is hedged about with so many obstacles that it is next to impossible for them to se-cure it. They say that if it were possible to have adopted a measure such as the Lovering bill, American millers

could grind nearly all the wheat grown in Canada and ship the flour to Europe

Needed Repairs. Scattle, June 8 .- Word has been

eccived from San Francisco to the floct that the monitor Wyoming TINT and the torpedo boat destroyers Perry and Paul Jones will soon leave that port for the Puget Sound navy yard at Bremerton, joining the Paci-fic squadron, waich has been ordered from Honolulu to the local yards.

This will mean still more work for the men at the navy-yard. The Wyoming and the Paul Jones have been stationed at Panama for the past few months and came north as soon as the canal negotiations were brought to an end by the United States government.

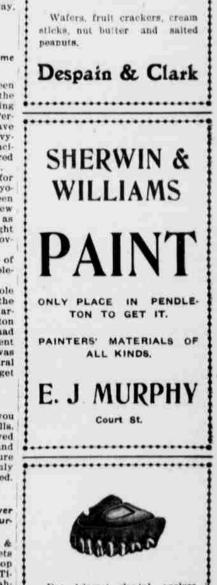

The Wyoming is in command of Captain Gottman and has a complement of 193 officers and men. The announcement that the whole

Pacific squadron, consisting of the flagship New York, the cruiser Mar-blehead, the gunboats Bennington and Concord and the collier Nero had been ordered by the navy department to leave Honolulu for Bremerton was today confirmed by Rear Admiral Barclay, commandant of the Puget Sound navy-yard.

THE REAL TEST

of Herpicide Is In Giving It a Thur-ough Trial.

ough Trial. There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vigors may look nice and smell nice, but the point is—do they eradicate Dan-druff and stop failing hair? No, they do not, but Harpicids does, because it goes to the root of the svil and kills the germ that attacks the papilla from whence the hair gets its life.
