## PROBLEM OF SITES

SEMI-FINAL DECISIONS REACHED BY THE BOARD.

North Side Site Practically Settled, But There is Dissatisfaction and Argument Over the Choice of the Board in the West End—A Mass Meeting May Be Called for Public Discussion—East End Location Hangs Fire.

The school board met last Saturday night and came to a semi-final decision on the school site question. It was decided to buy 10 lots in block 16 of Raley's addition, north side, the price to be paid being \$1000. The property belongs to James A. Howard, of Sumpter, and is in the hands of W. F. Matlock.

The board also considered the Matlock property to be the best in the west end, and have decided to buy it. This place is situated between Court and Alta streets, just to the east of the baseball grounds, and was held at \$2000 by Mr. Matlock. It was stated, however, by Mr. Matlock, that in the event of the board taking both the Raley addition site on the north side, and his lots, he would cut \$200 from the price of the west end location, making both the properties cost the district \$2800. This was considered to be a good proposition, and the deal was practically settled.

### West End Not Settled.

There has been some dissension in the extreme west end over the decision of the board in locating a school on the Matlock property, it being claimed that the location is not the best to be had; that it is unsanitary and on a garbage pile, and that it is not the most central to be found. A meeting was accordingly called for the latter part of last week, when a committee was instructed to inform the board that it was the wish of the majority of the residents of the west end that the school be located on the poor farm property, regardless of cost or circumstances.

When it was heard that the board had decided upon the other site, the managers of the protest sent a forerunner to the board with the announcement that they wanted a hearing, and even threatened to begin injunction proceedings should the board buy the property and attempt to build on it.

The board is willing and anxious to listen to all residents of any part of the city in regard to making selections for school sites and will meet with these dissenters if they will call a meeting that is representative of the residents of the district interested in the question. It is probable that this will be done, and that at an early date the people of the west end will call a mass meeting at which the various locations will be discussed and some harmonious agreement be reached. If this is not done, however, it is practically certain that the Matlock property will be chosen, as it is favored by the board as being in every way more desirable, both as to location and cost, and facility of building.

### East End Hangs Fire.

The board will meet again in a short time, when the matter of the east end building will be in all probability taken up and settled. The board is now waiting to come to some definite agreement with Mr. Byers concerning the grading and filling of the grove, upon which the deal for the property will be closed.

### ILLINOIS FOR HEARST.

Democratic State Convention Will Endorse Him.

Springfield, Ill., June 13.—Indications point to W. R. Hearst controlling the democratic state convention here tomorrow, and a delegation instructed for him is likely to be chosen. Despite the strenuous efforts begun early in the campaign by Mayor Harrison of Chicago and his followers to have the convention declare for Congressman Williams for the presidential nomination, the Hearst movement has continued to gather force and if all the delegates instructed can be kept in line there is little doubt of the victory of the New York congressman.

In addition to choosing the delegates to St. Louis tomorrow's convention will name a full state ticket to be voted for at the November election. There are a handful of aspirants for nearly every office and the final make-up of the ticket cannot be forecasted with any degree of certainty. Among those whose names are mentioned in connection with the gubernatorial nomination are Judge Owen P. Thompson of Jacksonville, Mayor W. C. Crolius of Joliet, Senator L. B. Stringer of Lincoln, Elmore Hurst of Rock Island, and William Prentiss of Chicago.

### UNITED MINEWORKERS.

Alabama Men Met to Discuss New Wage Scale.

Birmingham, Ala., June 13.—The Alabama district organization of the United Mineworkers of America, convened in annual session in this city today. There was a full attendance of delegates present when the gathering was called to order at 10 o'clock this morning in Knights of Columbus hall by President Flynn.

Routine business occupied the morning. The principal work of the convention is to formulate a wage scale to be submitted to the joint conference with the mine operators next week. It is anticipated that an amicable agreement will be reached without much difficulty.

The population of Greece is said to be increasing faster than that of any other country in Europe at present.

### Special Excursion to the World's Fair

The Denver & Rio Grande, in connection with the Missouri Pacific, will run a series of personally conducted excursions to the World's fair during June. These excursions will run through to St. Louis without change of cars, making short stops at principal points en route. The first of these excursions will leave Portland June 7th, and the second June 17th. The rate from Pendleton will be \$60.00 to St. Louis and return. Excursionists going via the Denver & Rio Grande have the privilege of returning via a different route. This is the most pleasant way, as well as the most delightful one, to cross the continent. The stops arranged give an opportunity of visiting the various points of interests in and about Salt Lake City, Denver and Kansas City. If you wish to accompany one of these excursions write at once to W. C. McBride, 124 Third street, Portland, for sleeping car reservations.

### ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality; causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. F. W. Schmidt, special agent.
