## THE MINERS' SIDE

### SECRETARY HAYWOOD TELLS OF COLORADO WAR.

#### Millionaire Mine-Owners Have Hired Thugs to Commit Crimes to Be Laid at the Door of the Unions—Bloodhounds Traced a Hired Detective From the Victor Explosion to His Own Home, But General Bell Promptly Called the Dogs Off—Situation is Appalling.

Recognizing the unfairness and bias of the censored Associated Press news being sent out of Colorado through the millionaire mineowners, W. D. Haywood, secretary of the Western Federation of Miners, has been requested to write the true story of the strike and the causes leading up to it.

The following impartial letter from Mr. Haywood appeared in the Denver Post of Last Saturday:

The cause of the strike of the Western Federation of Miners in Colorado is one of long standing and involves the failure on the part of the mine managers in various parts of the state to live up to their own written agreements.

As far back as 1884, as a result of the strike at that time, the mineowners agreed that eight hours should constitute a day's work, that the minimum daily wage should be \$3 and that there should be no discrimination against union men in the hiring and discharge of labor.

At the outset of the present trouble Manager MacNeill of the Standard mill at Colorado City peremptorily discharged 45 men, members of the Western Federation of Miners, for no other reason than that they had become union men. All of these were old employes of from two to six years standing. Millmen are affiliated with the Western Federation of Miners and are entitled to all of the protection that goes with such membership.

Today the only questions involved are the enforcement of the 8-hour day, the right of men to organize in the unions and to prevent discrimination against union men of all kinds.

The responsibility for the lawlessness connected with the contest rests entirely on the shoulders of the mine operators, the Citizens' Alliance and their allies, backed up by the ready power of the state government.

The responsibility has been placed on these persons and organizations by District Judge Theron Stevens, who denounced the military usurpation in Telluride in strong language from the bench; by District Judge J. Walter Dixon, republican, who openly condemns Gov. Peabody and severely criticises his acts involving the deportation of men from the state without trial or other chance of hearing; by ex-Governor Charles S. Thomas, who plainly points to the Mineowners' Association and Citizens' Alliance as being responsible for the many outrages committed on the persons of helpless and innocent miners; by the recent democratic state convention, which denounced in unsearching terms the line of policy pursued.

#### Crimes Upon Citizenship.

The events of the present week in the Cripple Creek district justify every accusation contained above. The following crimes upon citizenship have followed swiftly upon one another:

The resignation of Sheriff Robertson of Teller county, forced by a mob at the point of the pistol and the coil of the rope; the enforced resignation of Coroner Doran of Teller county, of the city marshal of Victor, of various aldermen and justices in the district, the entire official directory of the city of Goldfield, assault upon and demolition of the Union hall in Victor, forcible entrance into the four union co-operative stores and destruction of the contents, destruction of the Victor Daily Record by an armed mob, invasion of Dunsmuir outside the military lines, by an armed force under military command; arrest of men at their work and incarceration within the military lines.

Hundreds of men confined in unsanitary bullpens; forcible shut down of the great Portland mine, employing union men, by order of the military commandant on the plea of military necessity, and subsequent deportation of men therein employed.

Concerning the explosion which wrecked the depot at Independence and killed 16 unfortunate non-union miners, it need only be said that the self-confessed trainwrecker, McKinney, in the employ of the Mineowners' Association, had a few days previously been released from custody at the behest of the attorney for the association, and that this same McKinney was observed going down Potts canyon in the immediate vicinity of the wreckage only a short time after the disaster, and that the bloodhound used to follow the trail of the criminal went directly to a house occupied by a detective in the employ of the Mineowners' Association and was promptly called off.

McKinney stated under cross-examination during the trial of the union miners who were accused of the attempted train wrecking that he and other detectives did, that for a money consideration he would pull spikes and wreck a train.

#### The Photographs.

Photographs of marked miners referred to by General Bell who he claims were marked for death, must be regarded as an invention of his own brain. The photographs in question are those of strike breakers and were kept for the purpose of publishing a scab list with the pictures of the men accompanying their description, so that members of organized labor all over the country would become thoroughly acquainted with these men who have committed treason.

These pictures are nothing more than those having charge of the

strike in the district have publicly used for many months.

Charges that miners are not allowed to vote on questions of strike are utterly absurd. As a matter of fact, according to the constitution of the Western Federation of Miners, it is absolutely impossible for the executive board to call a strike of its own volition.

The present strike is a result of a direct vote of the members of the various unions in the district which left the matter entirely in the hands of properly delegated authority for adjudication and settlement.

The twelfth annual convention recently held in Denver, appointed a special investigating committee, consisting of Malcolm Crilla of Butte, Mont.; H. B. Seaman of Roseland, B. C., and R. E. Allen of Dillon, Wyo., which committee made a personal investigation by a visit to the Cripple Creek district only last week, and reported to the convention that the constitution of the Western Federation of Miners had been observed in its minutest detail during the entire prosecution of the contest.

Absolutely no deaths have occurred during the contest for which the Western Federation of Miners can or ought to be held responsible.

Some 15 men were killed in the Stratton Independence mine through the incompetence of the men employed and the culpable negligence of the management. These men were unfamiliar with the work, and were such as this mine and other mines in the district have been compelled to employ at the behest of the mineowners' employment agency.

We are unfortunately forced to abide by the acts of an unbridled military despotism that is driving our members from pillar to post. Their fortitude under the circumstances is the marvel of the age and shows that the Western Federation of Miners is composed of the highest type of American citizenship.

Our attitude is fully expressed by the following telegram:

"Hon. Theodore Roosevelt, President United States, Washington, D. C.:

"A duty involves upon you as president of the United States to investigate the terrible crimes that are being perpetrated in Colorado in the name of law and order. We will render every possible assistance to the proper authorities in such investigation, to the end that the people of the country may realize the outrages that are being inflicted upon innocent persons by those in temporary official power.

"W. D. HAYWOOD, Secretary."

#### WINEGROWERS' CONVENTION.

#### American Dealers Will Try to Effect Reforms.

Buffalo, N. Y., June 14.—The first regular convention of the newly organized American Winegrowers' Association was called to order at the Iroquois hotel today. The meeting will continue for two or three days. Practically the full strength of the American wine trade east of the Rocky mountains is represented, and a delegation is also present from California.

One of the principal objects of the meeting is to interest the California growers in the movement for raising the standard of American wines. The association, believing that America can produce as good wines as any other country in the world, has taken a firm stand against the adulteration of American wines and against their sale under foreign labels.

#### NATURE SPARES

#### The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. F. W. Schmidt, special agent.
