PANTHEON OPENING.

New Vaudeville Theater Was Packed to the Doors and Turned Over a Hundred Away.

The opening performance of the Pantheon theater was greeted with a packed house last night, the seating capacity being crowded and many standing in the rear of the building to witness the performance.

After the house was filled, over a hundred were turned away from the door.

The theater was rushed to completion to be ready for the opening which had been advertised for last night and many of the details were not in readiness. The beautiful, large vitascope, which will be one of the main features of the summer's program arrived late and could not possibly be used last night. Mr. Thompson and assistants worked faithfully yesterday to get it in readiness, but finally abandoned the task and will present it tonight.

The vaudeville performance was far ahead of anything in that line presented here and is the very best on the Orpheum circuit.

A large number of women and

children were present last night and the management will make it a specialty to present a clean, wholesome, laughable show, which will attract families during the summer.

John P. Brace, in his colored comedy acts, is the very best monologist ever seen in this city, and the sketches by Mann and Frank and the single turn by Cad Frank are laughable and new. There is a refreshing air about the entire program and no one need fear offense in anything said or done.

Mr. Thompson will aim to increase the attractions and make this a pleasant place for an hour's mirth for the families of Pendleton.

The program will be changed entire on each Monday night.

Large electric fans are to be placed in the building at once and perfect ventilation will be provided to make the theater comfortable on the hottest evening.

SEEKING STOCK RANCH.

Texas Man Speaks Favorably of Camas Prairie.

John M. Bentley returned last night from a trip to Ukliah and Camas prairie. He was accompanied by a stockman from Texas who is in search of a stock ranch in Umatilla county.

In speaking of Camas prairie, the stockman said: "It is an ideal stock country, plenty of good grass and water. In my home in Texas we have to contend with something you are comparatively free from here and that is ticks and insect pests.

"They worry the cattle so that they do not put on flesh as they otherwise would. I certainly think I will get me a place here as the outlook seems very favorable."

GOOD PROSPECTS.

Camas Prairie Farmers and Stockmen Are Much Pleased.

E. B. Gambee, one of the prominent stockmen of the Camas Prairie country, is in town today. He is very much pleased with the prospect for a good year in his part of the county, and predicts that the farmers and stockmen will have a better season than for years past. The grain is growing rapidly, and the yield will be large, the hay harvest promises to be heavy and the stock are in good condition.

SIMCOE RESERVE

SITE OF GOVERNMENT IRRIGATION SCHEME.

Ditch From the Yakima River Will Cover Sixty-Four Thousand Acres. All Reversion and Indian Property —Is Very Productive Land and Will Be Leased for Five Years—Lessees Must Dig Their Own Laterals.

Major Lee Moorhouse returned this morning for a visit of several days at the Fort Simcoe reservation near North Yakima, where he has been the guest of the agent and of the Indians.

During his stay there Mr. Moorhouse took some very interesting pictures of the old block house where the original fort stood, of the various other sights of the reservation, and of the great irrigation ditch which has just been completed leading from the Yakima river a short distance above North Yakima to the near vicinity of Fort Simcoe.

This ditch, which was opened May 1, is one of the big undertakings of the state of Washington, and is capable of carrying a body of water 30 feet wide and seven feet deep at its highest. It now covers 30,000 acres of rich land, and when the plans are completed and all of the land contiguous is put under water, more than 64,000 acres will be watered from it.

The land made productive by the new irrigation ditch is a rich sandy loam resembling the land of the Echo country to a great degree, and is now covered with sagebrush. It is the property of the Yakima Indians, and the ditch has been built for them by the government. The land is capable of raising heavy crops of both alfalfa and hops, the two staples of that section. The whole section will yield four tons of alfalfa to the acre with judicious use of the water. Besides this, fruit of all kinds will thrive, and orchards are springing up on every hand.

The government has cut the land up into small tracts which are rented for a period of five years. For the first year the renter pays 50 cents an acre, for the second \$1, and for the rest of the five years \$1.50 for each acre under his care. He is also required to build a three-room cottage and set out a small orchard during the five years in which he lives on the land. On every side at the present time, the smoke of the sagebrush can be seen where the renters are clearing the land for the crops. It is estimated that there are over 100 families already settled on the land, and new holdings are being taken each week.

Each renter is also required to build his lateral ditches from the main government ditch which leads the water from the river to the land. The new settlement is thriving, and in a short time will be one of the most productive parts of the state of Washington.

T. W. F. SUTTLE MURDERED.

Former Pendleton Man Found Dead in an O. R. & N. Freight Car Near Weatherby.

Thomas W. F. Suttle, said to have been a former resident of this city was found dead in an O. R. & N. box car near Weatherby station yesterday morning, everything pointing to murder.

His head was beaten badly, a hole having been made in his forehead, just above the nose and between the eyes. He was wrapped in a buggy robe, lying on his face, and his money, watch and revolver gone. Two ugly clubs were lying beside him in the car and there were bruises on his shoulder and leg as if he had been struck with a club or had fallen and severely bruised the flesh.

Brakeman Partington, in coming over his train, discovered the man in the car, where he had evidently been placed before the train left Huntington.

Suttle was a cook and had recently been employed in Baker City, but left that place last Thursday in a buggy with a sheepman, intending to herd sheep somewhere on Burnt river. He had a silver watch, \$12 in silver and a revolver on his person when last seen. These articles being missing leads to the suspicion of foul play.

In speaking of Suttle, the Baker City Herald of last night says:

"Fred Johnson of the county assessor's office, knew him well. He had known Suttle by sight for the past 12 years. He first knew Suttle in Pendleton a number of years ago. Although Suttle for a number of years has been a Christian and ardent worker in the Salvation Army at the time that Johnson first knew him he was a booze fighter and scrapper.

"He was noted in Pendleton as a fighter. He was once locked up in a room with a railroad man in Pendleton by the name of George Clark, another fighter and they engaged in a fight which lasted over two hours. The men were bloody as hogs and perfectly exhausted when rescued by the officers."

EXIT FIRECRACKERS.

Measure Designed to Protect Property and Personal Safety.

Councilman Dickson is about to wage a little war on the firecracker man. Last year while the small boy was celebrating the Fourth of July, he fired a skyrocket through the show window of the Nolf store, besides scaring a few horses, causing a few runaways and endangering the lives and limbs of many.

Mr. Dickson will protest against this, and is now working in conjunction with the city attorney, in the drafting of an ordinance to be presented to the council at an early date prohibiting the firing of giant crack-

ers, Chinese bombs, cannon crackers, skyrocket and other fireworks of similar device at any place inside the city limits.

The ordinance will be drawn up and presented at one of the meetings in time to be put in force before the Fourth of July, and it will be rigorously enforced by the council and the police.

OLDS-CLAUCHEK.

Popular Teacher and Well Known Physician Married.

Miss Emma Olds and Dr. H. W. Clauchek were married this morning at 8 o'clock at the residence of S. A. Newberry, Rev. William Bleakney, the president of Pendleton Academy, performing the ceremony.

The bride has been for the past year one of the teachers at the Academy, and during her residence in this place has made a host of friends among the pupils and patrons of the school. The groom is one of the leading physicians of Elgin, where he has been located for several years and has built up a fine practice.

Mr. and Mrs. Clauchek left this morning for the valley, where they will visit the parents of the bride for a short time, when they will return to Elgin to make their future home.

TO GRAND ENCAMPMENT.

Old Soldiers Will Attend Hood River and La Grande Camps.

J. S. Gurdane left this morning for Hood River, where he goes as a delegate to the grand encampment of the G. A. R. from Kit Carson post. This evening P. E. Collier, G. W. Rigby, J. B. Mumford and John L. Stockman, the remainder of the delegates, will leave.

As soon as the delegates return from Hood River plans will be made by the local post for attending the district encampment to be held at La Grande July 1 to 4 inclusive. It is expected that quite a number of members of the post will attend. There are now 50 members on the rolls of the local post.

Will Test Combined Harvester.

A test of one of the new combined harvesters at the Mays & Zeigler foundry, formerly the Rigby-Clove foundry, will be made in a few days. Three of the new machines are to be completed for this season's crop, one of the number going to Sherman county.

Expects Cheaper Wood.

John Henkel, a pioneer wood chopper of Kamela, is in the city today for supplies for his camp. More wood will be cut in the mountains this year than for several seasons, and the prospects for lower wood prices next winter are now very good.

Guest of Mrs. Teutsch.

Mrs. M. J. Hayden, of Vancouver, Wash., is in Pendleton the guest of Mrs. Lee Teutsch, her niece. Mrs. Hayden is the mother of Gay Hayden, and is related to several other Pendleton people. She will visit here for several weeks.

Regents' Meeting.

R. Alexander left this morning for Weston, where he will attend the meeting of the board of regents of the State Normal School to be held there tonight.

Zack is in town.
