FELL FORTY FEET

BRIDGE CARPENTER MET WITH ACCIDENT.

Was Working on New High Bridge Two Miles West of Meacham—Thigh Broken, Skull Crushed and Other More Serious Injuries—Unfortunate Man Was Only Lately From Sweden, and Generally Unlucky.

Albert Swanson, a bridge carpenter working for the O. R. & N., fell from the new high bridge, No. 155, two miles west of Meacham, yesterday afternoon, and is now at the hospital at the point of death as the result of his injuries.

The man was working on the top of the bridge, and in walking around missed his footing, or stepped on a loose plank in the scaffolding and was hurled to the ground, a distance of 40 feet, striking the timbers of the bridge in his fall and bounding from brace to brace until he struck the earth.

The unconscious man was picked up by his fellow workmen and carried for to the best of their ability until the midnight train came along, when he was placed upon it and brought to the hospital, where his injuries were attended to this morning.

Swanson's right thigh was broken, his skull was fractured badly at the base, and his teeth were knocked out by his chin striking the timbers in his fall. He also received other serious injuries, from the effects of which it is thought that he will die.

Swanson is a newcomer in this country, having come from Sweden but a short time ago. He was a good workman, but seemed to be unlucky from the start. He has been working for the bridge department about a month, and in that time has had three accidents of a more or less serious nature, having hurt himself in various ways while at work.

SEWERAGE FOR SCHOOLS.

Engineer J. W. Kimbrell Says Fall is Ample From Old Poor Farm.

Pendleton, Or., June 15.—(To the Editor.)—As there appears to be a misunderstanding as to sewerage from old county poor farm, blocks 85 and 86, reservation addition, I will say that the difference in elevation from the surface of the ground, center of blocks 85 and 86 and the main sewer north of the baseball ground, is 12 feet in a distance of 1600 feet.

A basement floor eight feet deep gives five feet fall, or four inches to 100 feet, but add three feet for elevation of building above present surface of ground will give eight feet fall, or six inches fall to 100 feet.

I stated on last Saturday to the school board, after making survey, that there was ample fall, and in answer to the question, what fall is practicable, will say that three inches fall is sometimes used with success.

Dr. C. J. Smith and E. J. Somerville have been using a sewer several years that is a fraction less than three inches to the 100 feet. J. P. Megernach and neighbors, in lots 5 and 6, block F, have a sewer with a grade of three inches to the 100 feet.

Very respectfully,
JOHN W. KIMBRELL,
C. E. and S.

IMMEDIATE APPRAISEMENT.

Administrator Neglects Making Legal Returns.

Laura Terney, the widow of Robert Terney, has filed a petition asking that the estate of the deceased be appraised and brought before the court for probate. The son of the deceased had been appointed administrator of the estate, and the board of appraisers had been appointed, but no report had ever been made, and the petitioner, having an interest in the estate, asked that an order be made by the court directing the immediate appraisement. The petition was granted and the administrator ordered to have the appraisement made at once.

JOHN DOE AGAIN.

Deadbeat His Supper and Fetched Up in Jail.

William Hope, who has been the guest of the city for the past three days, has decided that he likes the fare and has come home to roost for an indefinite period.

Hope, who gave his name before as William Hoch, was arrested three days ago for being drunk, and was sentenced to serve three days in jail. This morning he was turned loose

with the understanding that he leave town inside of an hour. Instead of doing this he got drunk once more, and having accumulated a jag started out to accumulate some of this world's goods.

He first went to Sullivan & Bond's store on Main street, where he took a half dozen shirts on display in front of the store. He was discovered and the things taken from him. He then went to the St. Joe store on Court street, where he took a pair of shoes and was nabbed by the marshal. On the way to the store he attempted to run away with a bicycle standing on the curb, but was chased away from it. He was locked up by the marshal and will be held until tomorrow, when he will be charged with larceny.
