WILL BE A HOT TIME.
Every indication of fine baseball tomorrow.

The interest in the baseball games to be held in this place tomorrow afternoon is increasing, now that the line-up of the two teams has been determined upon.

Yesterday Manager Cameron, of the Wonders, received the personnel of the La Salle college team, which shows it to be a strong aggregation, as there are some of the best known ball players in Walla Walla numbered among the nine.

The local team is in the best of condition, and has been working to make good when the time comes tomorrow. All of the men who have been away have returned for the fray, and are in good trim and ready for the contest.

The line-up in the batting order is as follows:
LaSalle—Lankard, c; Aubin, Parks, p; T. Casey, ss; Miller, 1b; McAllison, 2b; Bower, 3b; Quinn, lf; Collins, cf; J. Casey, rf.

Wonders—Knapp, c; King, p; Strand, ss; Froome, 1b; Alexander, 2b; Hartman, 3b; Matthews, lf; Jones, cf; Drake, rf.

Dairy Will Pay.

The day of the creamery and of the dairy cow is on the way and it will mean prosperity to the community where it is adopted. It seems ridiculous to import our butter and eggs from Iowa as we do now. The Hazelwood creamery at Milton receives 3,500 pounds of milk a day and 200 pounds of cream; 63 patrons are sending milk and 25 sending cream. The cream is shipped to Spokane. In time they hope to make butter here at this plant. To one who does not believe that dairying means prosperity I would refer him to Tillamook county, Oregon.—Fred Lockley, in Pacific Homestead.

Beware of Ointments for Catarrh That Contain Mercury.
Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure to get the genuine. It is taken internally and is made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists, price 75c per bottle. Take Hall's Family Pills for constipation.

Prof. McMullen Goes to Butte.
Prof. Charles McMullen, who has met with flattering success while in charge of the commercial department at the State Normal school for the past two years, was not an applicant for re-election. He has accepted a position at the head of the commercial department of the Butte, Mont., high school. There are 500 pupils in the high school and Prof. McMullen will have 200 in his department, making his task quite a responsible one. The position pays a salary of \$125 a month for 10 months.—Weston Leader.

NEW TRAIN DISPATCHER.

P. E. Loughlin, Accepts a Position in Dispatcher's Office at La Grande.

P. E. Loughlin, formerly O. R. & N. agent at Union, has accepted a position as dispatcher in the office of the O. R. & N. chief train dispatcher, Thomas Walsh, at La Grande, in place of R. F. Coll, resigned.

Mr. Loughlin will take the "third trick," as it is known, or the eight-hour shift from midnight till 8 a. m.

The work in the chief dispatcher's office is divided into three shifts or "tricks," of eight hours each, the first being the day shift from 8 a. m. until 4 p. m., the second from 4 p. m. until midnight, and the third, or "dog watch," as a seaman would call it, lasts from midnight until 8 in the morning.

The dispatcher handles every train on his division, gives orders to each, makes meeting points where trains are late or are running off their schedule time, and has complete control of the movement of every train and engine on his division. The mountain division extends from Umatilla to Huntington, including the Elgin branch, a total of 234 miles.

There are four regular freight trains, four regular passenger trains, and four helper engines on the main line and two branch trains per day to take care of, beside a large number of extra trains, making the position one of the greatest importance in the entire system.

On the good judgment of the dispatcher and the efficiency with which he controls the movement of the trains on the road, depends the prompt movement of freight and the regularity of passenger trains while in his jurisdiction.

The chief dispatcher on the mountain division is Thomas Walsh, who is responsible for the movement of all trains, and under him are the three "trick" dispatchers, Ed Walsh, first, A. Buckley, second, and P. E. Loughlin, third "trick."

Native Oregon Cherries.

The Black Republican, Bing and Lambert cherries and the Clark Seedling and Magoon strawberries, all originated within 10 miles of Portland. The commercial value of these varieties of cherries and strawberries to the Pacific coast can be conservatively stated at a very large sum. Hood River would hardly have built up its great strawberry shipping business with any other strawberry than the Clark Seedling. The Black Republican has for many years been the great shipping dark cherry of the Pacific coast and the Bing and the Lambert are the coming cherries for commercial orchardists.

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundance.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
