FARMERS' RAILROAD

LANDOWNERS WILL BUILD IN THE PROSSER BEET BELT.

Local Capitalists of Franklin County Backed by the Northern Pacific, Have Organized the Sunnyside Railway Company With \$500,000 Capital—Beet Factory at Prosser Assured—New Road Designed to Haul Beets to the Factory—M. L. Causey, of La Grande, Promoting the Factory.

Many Umatilla county people who are interested in Franklin county, Washington, real estate, will be interested in knowing that a farmers' railroad, extending 35 miles from Toppinsh to Prosser, through the richest section of the Prosser beet and wheat land, has been organized with a capital stock of \$500,000, backed by the Northern Pacific.

The incorporators of the new company are Walter N. Granger, general manager of the Washington Irrigation Company, and George P. Eaton, of Zillah; Morris Sisk, of Liberty; S. J. Harrison, C. E. Woods and Norman Woodin, of Sunnyside; H. F. Gloyd and F. L. Pitman, of Prosser, and A. B. Flint, of Outlook. The new organization is called the Sunnyside Railway Company and is formed as a result of the sugar beet agitation in that district.

The beet sugar factory being promoted at Prosser by M. L. Causey, of La Grande, is now a certainty and this road is designed to carry the beets from the principal beet belt in the Sunnyside district to the factory.

The road will be built by the farmers of the district, each man taking stock being required to subscribe an amount equal to \$5 per acre on his land. The Northern Pacific Railroad Company has guaranteed to float bonds sufficient to furnish the track, bridges and equipment, which assures the early construction of the road.

The Northern Pacific will also furnish terminal facilities and the rolling stock will be kept in repair by that company.

One remarkable feature of the enterprise is that a large settlement of Dunkards headed by Rev. D. J. Harrison, is taking an active interest in promoting the culture of sugar beets and is also foremost in pushing the new railroad. The colony of Dunkards near Sunnyside is one of the largest in the West and they are highly industrious, progressive and enterprising people.

The land in the Sunnyside district is rich, sandy soil, resembling the Echo soil and is especially adapted to sugar beet culture and the assurance of the factory at Prosser will increase land values 25 per cent.

M. L. Causey, of La Grande, who is promoting the Prosser factory, is the man who brought the sugar factory to La Grande and to his energy and patience is due the increase in farming land values in that value from \$30 to \$50 per acre in the past four years.

FINNISH PATRIOT-MARTYR.

Member of the Patriotic Society Kills Russian Governor Then Suicides.

Helsingfors, Finland, June 18.—Gen. Brobrikoff, governor general of Finland, was shot and fatally wounded at the entrance of the Finnish senate, this morning, by a son of Senator Schuman, who immediately suicided. Schuman was a member of the Finnish patriotic party. General Brobrikoff was taken to St. Petersburg in a dying condition.

Gen. Brobrikoff is responsible for the cruel oppression of the whole Finnish people ever since he has been governor general of the country. It was through his efforts that Finland was robbed of her army. Brobrikoff for a number of years had been gradually increasing the rigor of the military requirements of the Finns, and his last coup was to take from that people their individual military power.

The Finnish soldiery, since the imperial ukase went forth to disband the army, has been drafted into the Russian army and the command of all troops in the land has been given to Russian officers.

The increase of taxation, the substitution of the Russian tongue as the court language, the substitution of Russian courses of study in all the schools, and other severe forms of Russian intolerance and discipline were laid at Brobrikoff's feet by the Finns.

A number of unsuccessful attempts have been made on his life previous to this last and successful attempt.

REGISTER MORE VOTERS.

Direct Primary Law Requires Books Be Opened for November Election.

By a provision in the direct primary law enacted last week at the polls, registration of voters will be resumed this autumn for the November elections.

Heretofore the registration law has been deficient in that respect, for it has required electors to register prior to May 15 in order to vote in November for president, or to vote on the affidavit of six freeholders.

County clerks throughout the state are now required to reopen the registration books "between September 20, 1904, and 5 o'clock p. m. of October 20, 1904, and between the same dates in each and every year thereafter in which there shall be an election of presidential electors."

In November the first elections for prohibition will be held under the local option law on the same day as the election for president, namely, November 8.

In Japanese the word "Mikasa" indicates a warship and "Maru" a shop of commerce.

AN EDITOR 65 YEARS.

William Osman Has Run Ottawa Free Trader Since 1839.

Ottawa, Ill., June 18.—Among its other distinctions this town lays claim to being the home of the dean of the American newspaper profession in the person of William Osman, editor of the Ottawa Free Trader, who tomorrow will celebrate his 65th birthday. Mr. Osman has been editing the Free Trader almost continuously for 65 years. Even now he goes to the office daily, writes a column or more of editorials, reads his own proof, looks over the exchanges, and does his full share of work as editor of the paper.

During the 65 years which Osman has spent on the editorial tripod he has had two or three vacations, though always retaining his interest in the paper. He served for a year as a private in the Mexican war and took part in the battle of Buena Vista. From 1852 to 1857 he served as crossing clerk of the house of representatives at Springfield, and during that time became intimately acquainted with Abraham Lincoln, John A. Logan and other characters who have been famous in the history of the state and nation. For six months in 1864 he held a clerkship in the interior department at Washington, and has twice been postmaster of Ottawa, once under President Buchanan and again under President Cleveland.

Startling Evidence.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption Coughs and Colds to be unequalled. A recent expression from T. J. McFarland, Rentonville, Va., serves as example. He writes: "I had bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery and a few bottles wholly cured me." Equally effective in curing all lung and throat troubles, consumption, pneumonia and grip. Guaranteed by Tallman & Co., druggists. Trial bottle free, regular sizes 50c and \$1.

Bound for Tanana.

Seattle, June 18.—Gold seekers are still flocking to the Tanana. On the steamship City of Seattle, which sailed for the North this morning, there were 125 passengers, the majority of whom were bound for the new gold fields. As a cargo the City of Seattle had a large consignment of fresh fruit for the interior and coast cities.

The ice consumed in Great Britain comes almost exclusively from Norway.
