Local Aerie Has Wired Cities Where the Dixie Carnival Company Has Been With Good Results.

The committee in charge of the Eagles' carnival, which opens in this city on next Monday, has wired several cities at which the Dixie Carnival Company has presented its attractions, and in every instance has received the assurance that the company is first-class in every respect and that its attractions are clean and honest and deserve the patronage of the public.

The local committee has decided to hold a voting contest through the local press to decide on a king for the carnival, and coupons will be run in the papers continuously until next Thursday, when the result of the vote will be announced.

The only restriction on the voting is that the candidates voted upon must be members of the local aerie of Eagles, this being a sufficient guarantee that the office and functions of king will be gracefully discharged.

Runaway Accident.

A party of four—Pete Howard, Fred Kees, Joe Nolf and Shep Cameron, underwent an experience last night about midnight, which none care to ever have repeated. They were returning from the reservation celebration in a two-seated rig, when a wheel ran into a washout, the rig upset, the horses ran away, and the entire top of the vehicle was torn off. The occupants were thrown out in the utter darkness without anyone receiving the slightest injury, although the horses broke into a run as soon as the buggy upset. The team ran about a quarter of a mile and tangled up in the harness without being injured in the least, nor was the buggy hurt beyond the top being torn off.

Professor Haw has a family and they will occupy the new house before fall.

The mystery of the rain tree of the Canaries is a cloud that hovers about it constantly; this is condensed to water, which saturates the leaves and, falling from them in constant drops, keep the cisterns which are an excavation beneath them always full of water.
