CONSERVATIVES CONTROL IN ST. LOUIS CONVENTION.

(Continued from page 1.)

morning to the great disappointment of the audience, but it could not be avoided. Both the credentials and resolutions committee were overloaded with work. The crowd was in fine fettle, clearly keyed with expectation of the struggle of party giants on the floor, and prepared to cheer on party gladiators.
The flurry over the report of the rules committee afforded an excellent opportunity for pent-up enthusiasm. It brought Grady, the Tammany star, to the front, and introduced a tip-top convention orator in the person of South of Arkansas. He can be proud of his reception, even if he was beaten in the Porto Rico contest.
Bryan a Favorite.
Bryan's entrance to the hall at 1:30 caused tremendous and prolonged applause. The reception being tendered him is something remarkable, and the applause grows greater every moment. Delegates and visitors join and everybody is on their feet.
The standards of several states are gathering about Bryan. The excitement is intense, equaling that at his nomination at Chicago.
At 1:40 there is no let up in the enthusiasm for Bryan, which knows no bounds.
The Georgia delegation is waving a Parker banner, the only one displayed in the convention.
Bryan Reads Minority Report.
At 1:52 Williams is calling the convention to order with a megaphone. The Bryan demonstration continued 22 minutes. At 1:57 Bryan advanced to the platform and the cheering was resumed. Mounting the rostrum the noise became deafening.
Bryan's appearance is in connection with the report of the credentials committee, which is called for. Bryan read his minority report on the contested cases from Illinois. Immediately silence followed when Bryan started to read.
The minority report charges that the state committee of Illinois, John P. Hopkins, chairman, found itself in the minority in the state convention and liberally planned to override the democratic vote of the state by fraud and intimidation of which the contest brought complete proof. Hopkins offered no rebuttal. The report recommends that the Hopkins men be unseated.
Majority Credentials Report.
It in brief supports the act of the national committee in every respect, and announces respective cases could be considered in a general way.
State Senator Grady, of New York, moved a separate vote on the proposition to give the Philippines six votes, he declaring against such recognition on the grounds that the Philippines are not a part of the United States. The Philippine delegates will be allowed to keep their seats, but given no votes.
In view of the large increase of population of the Indian Territory and Oklahoma, the report recommended that each territory be given six votes each in the next national convention.
The majority part of the report was then adopted except that relating to Illinois and the District of Columbia.

Burdick is described as being about five feet eight or nine inches in height and weighing about 175 pounds, with brown eyes, in which the white shows plainly, brown hair and a light mustache. He has a slight stoop in the shoulders and walks with a long stride and habitually wears a wild, restless look in the eyes. He has a gunshot scar on the head.

All the boxes in the rear are to be torn out, the kitchen located in the basement and illuminated signs placed at the front and side entrances.
The new proprietor takes charge under auspicious circumstances. He is well and favorably known as a business man in Seattle, Tacoma and Portland. Under his management the cafe will in no wise be connected with an adjacent theater.
