

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle

by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

RUSSIANS IN FIELD

NOT NEARLY EQUAL TO THE ENEMY IN NUMBER.

The Russians Are at a Great and Undeniable Disadvantage. Being Out-numbered at Present and Until Many Months Later—Port Arthur Has the Largest Number of Troops at Any Given Point, Leaving Kuropatkin to Hustle to Defend Himself.

London, July 9.—According to the latest estimate of the available fighting strength at General Kuropatkin's command it is improbable, after allowing for losses already sustained, casualties and all, that the Russian commander in chief can dispose of more than 94,000 bayonets and sabres, with 263 field guns. His force can hardly, on a liberal calculation, exceed 100,000 infantry, 3000 engineers, 10,000 Cossacks and 313 field guns.

With this number General Kuropatkin has to retard the Japanese advance and defend the long line from Niu Chwang to Siamatse, on the road to Mukden from the Yalu river, in order to keep his line of communications open along the trans-Manchurian railway to Harbin, 600 miles from the sea.

This army forms the main group of the Russian forces. It consists of 63 battalions of the East Siberian Rifles, of the Seventh, Second, Third, Fifth, Sixth and Ninth divisions, 16 battalions of the Tenth and Seventeenth army corps and 48 battalions of Siberian infantry, or a total of 127 battalions, with 41 batteries of field and two of machine guns.

The second group is that of General Stoessel, entrusted with the defense of Port Arthur, consisting of the Fourth division, three infantry regiments and the Seventh division, the total making probably about 28,000 of the land army, allowing for sick and a loss of 2000 at Kin Chow. With 10,000 sailors his combative strength should be 38,000 men, with some 50 field guns and 400 siege guns, besides naval ordnance.

The third and last group of the Russian forces in the field is that of the troops assigned to Vladivostok, consisting of the Eighth division, and fortress troops, and a number of Cossacks raiding in Northern Corea. These are under the command of General Linevitch, and in number probably do not exceed 12,000.

The Russian staff has arranged for the despatch of 162,000 men and 83,000 tons of stores during the six months from May to October, a monthly supply of 27,000 men and 13,883 tons of stores. With the most favorable circumstances and the unhampered use of the trans-Siberian railway, it seems improbable that General Kuropatkin within the next few weeks can oppose anything like equal numbers of the Japanese armies attacking him.

THE LAND OF "PRETTY SOON."

I know of a land where the streets are paved
With the things we meant to achieve;
It is walled with the money we meant to have saved,
And the pleasures for which we grieved.

The kind words unspoken, the promises broken,
And many a coveted boon
Are stowed away there in that land somewhere—
The land of "Pretty Soon."

There are uncut jewels of possible fame
Lying about in the dust,
And many a noble and lofty aim
Covered with mould and rust.

And, oh, this place while it seems so near,
Is further away than the moon,
Though our purpose is fair, we never get there—
The land of "Pretty Soon."

It is further at noon that it is at dawn,
Further at night than noon;
O, let us beware of that land down there—
The land of "Pretty Soon."
