GRANGERS WILL MAKE EXHIBIT

OREGON WILL BE ADVERTISED
 AT NATIONAL MEETING.

Local Granges Are Urged to Collect Statistics and Exhibits for Meeting of National Order in Portland Next November—Three Local Granges in Umatilla County and Committees Will Be Appointed to Have Charge of Exhibits and Advertising Matter.

The Oregon State Grange has issued the following circular letter to local granges throughout Oregon and Washington, with reference to collecting statistics and exhibits for the coming meeting of the National Grange, which will be held in Portland next November.

As there are three local granges in Umatilla county, the East Oregonian takes pleasure in placing the circular before the public in hopes that Umatilla county may be well represented. To the Members of the Grange in Oregon and Washington.

The National Grange will meet in Portland, Ore., in November, 1904, and it is desired that we show to our visitors a complete exhibit of the resources of the Northwest in the shape of grasses, grains, fruits, vegetables, minerals, forestry and fisheries.

In order to make this matter a success, it will be necessary for every member to do his or her utmost.

We suggest that each subordinate grange appoint a committee of three to take hold of the work. Exhibits must be grouped by counties, and each sample marked with the name and address of the producer. Samples of grasses and grains, when cut, should be tied in small bunches, and hung with heads down in the shade, to preserve the color.

It is necessary, and we urge that the committees get to work at once, as samples of grasses and berries are now ready and must be gathered. It will be necessary to put up in jars all perishable fruits, such as Bartlett pears, plums, peaches, cherries and berries.

In the woman's department, we suggest that they confine their exhibit to work in the culinary line.

Premiums will be given on all lines of exhibits.

And now, patrons: The honor of the granges in Oregon and Washington is at stake in this matter, and we urge that each member get to work and not wait for committees. Let us make a success of this exhibition of our resources, and show our visitors from the East just what Oregon and Washington can do.

SOUTH AMERICAN TRADE.

Report of U. S. Vice-Consul at Hand-
 ley

According to the report of United States Vice-Consul Handley, at Trinidad, one of the most notable features of our trade with South America is its comparative fixity.

During the last 30 years there has been an increase of only 5 per cent in our trade there, and the sales of 1890 were about the same as those of 1902. Compared with the trade of 1873, our 1902 trade with the world outside of South America has more than doubled. To the 40,000,000 people in South America our yearly sales amount to less than \$40,000,000. To Mexico, with her 13,500,000 people, we sell a little more than to all South America. We sold the Canadians last year a little less than \$24 per capita, and to the Cubans, without any reciprocity, about \$15 per capita.

The total imports of all the South American countries approximate \$250,000,000. Our share is a fraction more than 10 per cent of their business. We buy from them three times as much as we sell to them. We pay them about \$120,000,000 a year for their products, and they use the difference of \$80,000,000 in purchasing from our foreign competitors the goods with which we ought to balance our accounts with them. In other words, we supply them with funds which enable them to buy from other people things which we grow and manufacture. From 1873 to 1902 our trade with Asia rose from \$19,000,000 to \$64,000,000; with Oceania, from \$4,677,000 to \$34,350,000; with Africa it increased from \$3,500,000 to \$33,500,000, and with our neighbors on the North American continent it has grown from \$82,000,000 to \$204,000,000. During those 30 years our vast

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair,
 No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

KNIGHTS OF PYTHIAS

SUPREME LODGE WILL
 MEET IN LOUISVILLE.

Expected to Be in Session at Least Ten Days—Ninety Bands Have Promised to Attend and Compete for Prizes—Twenty Thousand Members of the Uniformed Rank Will March in the Parade on Second Day—Lodge Convenes August 15.

Louisville, Ky., July 13.—Louisville is completing elaborate arrangements for the reception and entertainment of the thousands of visitors who will be here next month for the meeting of the supreme lodge of the Knights of Pythias. The meeting will open August 15, and will last at least 10 days. As a rule the uniformed rank plays an important part in these conventions. This year an effort is on foot to make the demonstration exceed that of any previous session.

Cash prizes and banners will be offered to the companies leading in number of men in line and in distance traveled to attend. The music committee will offer prizes to the bands, and there will be competitions for drum corps also. Santa Ana Company of California, will bring its band of 25 pieces to try conclusions with the crack bands from other parts of the country. So far the music committee has received advices that 90 bands will be in the city during the convention week.

Reports received at the headquarters of the encampment committees indicate that at least 20,000 members of the uniformed rank will participate in the parade, which will be held the second day of the gathering. This demonstration will be in charge of Major General James R. Carnahan of Ft. Wayne, Ind.

Supreme Chancellor Tracy R. Bangs of North Dakota, will preside over the deliberations of the supreme lodge. Charles E. Shively of Indiana, the present vice-chancellor of the order, will be elected to succeed Supreme Chancellor Bangs. For the office of supreme vice-chancellor there are a number of candidates and the contest for the honor promises to be spirited. The aspirants include Judge Charles S. Barnes of Illinois, George M. Hanson of Maine, Judge Richardson of Virginia, H. P. Brown of Texas, Judge Church of California, and Dr. D. S. Woodworth of Massachusetts.

Deafness Cannot Be Cured.

By local applications as they can not reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circular free.

JUNEAU FLOURISHING.

Treadwell Mining Company Making
 Extensive Improvements.

The citizens of Juneau, Alaska, are greatly elated over the latest move on the part of the Treadwell Gold Mining Company, which operates the largest gold mine in Alaska, says the Seattle Star. The company is now extending their operations from Treadwell across the channel to the Silver Bow basin, which lies back of Juneau. The company is now opening up a new mine in the basin, after which a 500-stamp mill will be put in. This means that hundreds of additional men will have to be employed, which will be a great benefit to the city of Juneau.
