LOST, STRAYED OR STOLEN

L. VAUGHN
From my place at Juniper on June 27, two mares: one a sorrel mare, weight about 1200 pounds, 5 years old, branded CH on left shoulder; she has crooked front feet.
The other is a 5-year-old bay mare, weighing 1100, branded R over a bar on left hip and T within a circle on right shoulder.
I will pay \$10 for information leading to the recovery of both horses, or \$5 for either of them. Address, A. LARSON, Juniper, Oregon.

DEMENTED WOMAN A MILLIONAIRE

MRS. FLAGLER, CRAZY,
WORTH FIFTY MILLIONS.

Widow of Henry M. Flagler Imagines She is Affianced to the Czar—Spends Her Days and Nights With Imaginary Royalty to Whom She is Greatly Attached—A Hopeless Case of Insanity.

St. Augustine, July 15.—Mrs. Ida Flagler, once the wife of Henry M. Flagler, the Standard Oil magnate and owner of a large part of the state of Florida, who had a special law passed by the Florida legislature making insanity a ground for divorce in order that she might be separated legally from Mrs. Flagler and enabled to marry his present wife, who was Miss Mary Kenan of Wilmington, N. C., is back in New York again.
In a magnificent home, 353 Riverside drive, surrounded by every luxury and with a view of the Hudson spread out before her eyes, the unfortunate demented woman who had been kept hidden from the knowledge of the public for two years, was discovered today. She is under the personal care of Dr. Carlos B. McDonald, the celebrated alienist.

The woman, who was once known as "The first lady in Florida," spends her days and nights with the phantom royalties which people her brain. It is well that she can be surrounded with all the evidences of lavish wealth, for she believes that she is Princess Ida Alice Van Shotten Teck, and the affianced bride of the czar of Russia.

Although she is a white haired woman 53 years old, she thinks she is still a girl and passes her long days in waiting for the fiance that never comes. She does not know that she has been divorced from her husband by a law made especially for the purpose. She does not know that she ever had a husband.

It is reported that the unfortunate woman in her distress has the active sympathy of Mrs. John H. Flagler, who has been personally interested in her care since the return to New York. Mrs. John H. Flagler, who captured the affections of her husband while singing in a New York church choir, is practically the mistress of \$50,000,000 and is able to do much to alleviate the sufferings of the woman who now childishly babbles of coming events and coming honors.

REPUBLICAN CAMPAIGN.

Congressional Committee Opened it in New York Today.

New York, July 15.—The republican congressional committee opened its headquarters today in the St. James building, Broadway, near Fifth avenue. From now until election day in November the headquarters will be the scene of strenuous activity. From here will be disseminated tons of campaign literature, including copies of the principal speeches delivered at the Chicago convention, to which will be added later President Roosevelt's speech of acceptance to be delivered at the formal notification the latter part of this month.

Another duty of the congressional committee will be the assignment of speakers for the campaign. No plans for this part of the work have been made as yet, but the matter will be taken up at an early date. It will be early fall, however, before the stump-speaking will commence in earnest. The various plans for the congressional end of the campaign will be formulated by the committee as a whole and the work of carrying them out will be entrusted to Congressman Babcock, chairman of the committee, Congressman Overstreet of Indiana, and William J. Browning, chief clerk of the house of representatives, these three being in charge of the headquarters in this city.

Night Was Her Terror.

"I would cough nearly all night long," writes Mrs. Charles Applegate of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 58 pounds." It's absolutely guaranteed to cure coughs, colds, la grippe, bronchitis and all throat and lung troubles. Price 50c and \$1.00. Trial bottles free at Tallman & Co.'s drug store.

FOR FAIRBANKS' SEAT.

Hot Fight Among Ambitious Indiana Politicians.

Indianapolis, Ind., July 15.—There are prospects for a pretty fight in Indiana before a decision is reached as to who shall fill the senatorial seat left vacant by Mr. Fairbanks in the

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality, causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
F. W. Schmidt, special agent.

event of national republican success at the polls next November. The Hoosier members of the republican host are not ready to admit the slightest possibility of defeat for the Roosevelt-Fairbanks ticket and are shaping their plans accordingly. Already in the field and being urged by their friends are four "receptive" candidates, with still another just dawning above the horizon.

Prominent among those mentioned for the toga are Governor Durbin, whose term as chief executive of the state expires in January next; Congressman James A. Hemenway, chairman of the house committee on appropriations and the right-hand man of Speaker Cannon; Congressman Charles B. Landis, and Congressman Crumpacker, who wants the southern representation cut down.

These three were immediately mentioned when it became apparent that the vice-presidential tide had set in the direction of Senator Fairbanks. The party leaders appear confident of having a good working republican majority in the next legislature. The new body will meet in January and will then choose a successor to Mr. Fairbanks.

In the event of a democratic success in the state, however, it is believed that the choice of that party for the senatorship would lie between John W. Kern of this city, and Benjamin F. Shively of South Bend.

STATE TICKET NOMINATED.

Washington Prohibitionists in the Field.

Everett, Wash., July 15.—The prohibitionists of this state have put in nomination the ticket named below, and confidently promise the liquor interests of this state the hottest run this year for their money they have ever had. The success of the temperance interests in Oregon in the fight for local option, and the quite successful efforts in this state to suppress at least the visible manifestation and more glaring iniquities of gambling, has greatly encouraged the purists in government in this state, and they have strengthened their lines and are making a vigorous and hopeful canvass for campaign funds.

The ticket nominated here today is as follows: A. H. Sherwood, of Everett, for governor; W. H. Shields, of Spokane, for lieutenant governor; James McDowell, of Olympia, for secretary of state; Guy Posson, of Seattle, for treasurer; C. C. Gridley, of Vancouver, for auditor; W. H. Leichty, of Palouse, for land commissioner, and A. B. L. Gellerman, of Tacoma, for superintendent of public instruction.

The platform calls for direct legislation, denounces the system of fining prohibited vines, and pledges "our estate, our lives, our sacred honor," to the final overthrow of the liquor traffic.

RIGID STEAMER INSPECTION.

New York Boats Are Thoroughly Overhauled by Government Inspectors.

New York, July 15.—There is every probability that the General Slocum disaster will cause a general shaking up in the New York office of the government steamboat inspector. When Secretary Cortelyou issued the order that a reinspection of all pleasure steamers in this district was to be made, it was not taken seriously by the local officials and they were in no hurry to comply with the order.

It seems, however, that the government did not intend that order for a mere joke or hoax, but intended to insist upon compliance with it. When the head of the department of commerce and labor found that the chief of the New York office paid no attention to the order and tried to avoid the task, he quietly instructed a number of inspectors in other districts and, quietly they came to New York and, without warning, descended upon some of the large pleasure steamers and made a thorough inspection.

The result of the investigation was quite satisfactory in a general way, although many defective life preservers, inefficient fire hose, etc., were found, and in some cases, an absence of precautions against fire.

ROWING EVENTS.

Regatta Will Be Held Near St. Louis in July.

New York, July 15.—Entries for the coming annual regatta of the National Association of Amateur Oarsmen closed today with Secretary Fred R. Fortmeyer of this city. The regatta is to be held the latter part of this month on Creve Coeur lake, near St. Louis. It will be the first time in the history of the association that the regatta has been held in the West and the entry list shows that the event this year will be more representative of the entire country than any of the previous meets.

The rowing clubs of Boston, New York, Philadelphia, Worcester and other eastern cities will be represented, and in addition there will be contestants from numerous cities of the Middle West.

First Free Consumption Hospital.

New York, July 15.—The first free sanitarium for persons suffering from tuberculosis, has recently been opened by the New York health authorities. The official name of this institution is the New York State Hospital for Incipient Tuberculosis. It is located at Daybrook, Essex county, about three miles from Saranac lake, in one of the most beautiful parts of the Adirondacks. It has cost over a quarter of a million dollars. If this institution should prove beneficial, it is believed, that a whole chain of similar institutions will be erected in different parts of the state.

Tuberculosis causes more deaths in Illinois than typhoid fever, scarlet fever, diphtheria, and all forms of bronchitis, influenza, measles and smallpox combined. During 1903 7000 persons died of that one disease in that state.

KNIGHTS TEMPLAR

CONCLAVE WILL BE HELD IN SAN FRANCISCO IN AUGUST.

Expected to Be a Record Breaker in Point of Attendance—City Will Expect \$80,000 on Illuminations—Will Be Attended by the Earl of Euston—Is the 29th Triennial Gathering in the United States—The Smallest Prize for a Competing Team Will Be \$1000.

San Francisco, Cal., July 15.—Though the 29th triennial convolve of the Knights Templar is more than a month off, the plans for the reception and entertainment of the thousands of visitors who will be here at that time are already nearing completion. Advices received by the local committees indicate that the gathering will be one of record-breaking proportions. For three years the executive committee has been busy planning for the convolve, and the plans, which have now matured, promise a more elaborate entertainment than any ever given by any community.

There will be only one day of the convention set aside for business, the election of officers and competitive drills. The rest of the time will be spent in the pursuit of pleasure. The California Knights and Masons have spared neither money nor time in the preparation for the event. The illuminations alone, which will form a canopy of electric lights over Market street for 10 blocks, will cost in the neighborhood of \$80,000. Ocean liners have been chartered and the visiting knights will be taken on excursions to divergent points of interest.

The Grand opera house, with its immense seating capacity, has been hired for the week. An elaborate Chinese play, with Chinese actors, will be put on, and the theater will be turned over to the knights and their families, from whom no charge for admission will be accepted.

The competitive drills will be held at Golden Gate park. The executive committee has made so liberal an appropriation for prizes that each competing drill corps will receive one prize, and the value of the last prize will not be less than \$1000.

One of the most notable features of the convolve will be the official visit and the reception, with the highest honors, of the most eminent and supreme grand master of the great priory of England and Wales—the Earl of Euston, who will come here as the personal representative of the King of England. The earl will be accompanied by a party of distinguished Englishmen, including Charles F. Maiter, the great vice chancellor, and Charles E. L. Wright, past great prelate.

World's Fair Rates.

The O. R. & N. Company announces the following low rates:

Stopovers allowed in either direction within the transit limit. For further information call on or address
E. C. SMITH, Agent.

Deafness Cannot Be Cured.

By local applications as they can not reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars free.
