SECRET OF BIG CROPS.

Helix People Find Soil is 53 Feet Deep and Crop Failures Are Unknown.

The wheat growers of the Helix country take the "flattering unctious to their souls" that the capacity of the soil in that district for raising wheat can never be exhausted, at least in this day and generation. They may be right, and if their theory is correct, they are undoubtedly correct.

The surface soil in that country continues uninterrupted clear to bed-rock, being from 10 to 75 feet in depth. L. E. Penland has a well on his place 55 feet deep without the slightest trace from the top to the bottom of anything but the same soil that is found on the surface.

The Helix people couple the fact with the theory that each year the surface soil is reinforced in the elements necessary to grow good wheat, from the underlying depths of soil that have never been reached by the plow.

By just what formula this result is accomplished they are not prepared to say, but they have the everlasting faith, just the same, and the further fact that the same soil has grown on many farms from 20 to 27 crops "without a miss," goes far toward being a demonstration, if it is not actual proof.

HEAVY HAY CROP.

Pilot Rock Farmers Enjoying Prosperous Year.

W. L. Mathews, of Pilot Rock, brings encouraging reports about the condition of livestock and the state of the pasturage and forage crops in that neighborhood. The early rains were sufficient to develop the pasturage finely, and the later rains were extremely opportune both in season and quantity, insuring an abundance of natural feed for all stock on the ranges until the fall is well advanced; in fact, until the forage crops are harvested and stored. On the other hand, these same rains insure an

AVOID CHAPS

If we knew anything better than

F. & S. TOILET CREAM, for healing chaps, cracks and roughness, and keeping the skin smooth, soft and fair, we would have it. Those who try it say our Toilet Cream is the best proposition they ever used and we believe they are right.

Keep F. & S. Toilet Cream on hand and use it, and your face and hands will be free from summer skin discomfort. Daintily perfumed, pleasant to use, heals quickly, and costs little.

Commercial National Bank OF PENDLETON

Stockholders Liability, \$50,000. Capital, \$50,000.

A FEW FACTS FOR YOUR CONSIDERATION

First. That systematic saving pays. A deposit of \$5.00 a month for five years, with 4 per cent interest computed semi-annually, will yield you \$332.27. Ten dollars a month for the same length of time will yield \$664.60, while in ten years you would have \$1,474.76.

Second. The safety of your money. The well known character and ability of the board of directors and officers is a sufficient guarantee of honest and capable management.

Third. That we take any amount from \$1.00 upwards.

Fourth. That your money is payable on demand.

Fifth. That we pay 4 per cent interest on certificates of deposit and savings accounts, crediting the interest on the saving accounts on the first day of February and August in each year.

Sixth. That we extend to our patrons every courtesy and accommodation in our power, consistent with good banking, and

Seventh. That we are under government inspection.

We respectfully solicit your business.

W. L. THOMPSON, Cashier.

DUES ARE REDUCED

COMMERCIAL ASSOCIATION CUTS FROM \$2 TO \$1 MONTH.

Reduction of the Dues Will Take Effect When a Membership of 150 is Reached, the Present Membership Being 108—Campaign for Membership Is Now on—Most Enthusiastic Meeting of Board of Managers Held in Months—Ralph Wade Resigns as Librarian and A. W. Nye is Appointed Corresponding Secretary and Librarian.

New life, new vigor, new policies mark an interesting and well attended meeting of the board of managers of the Commercial association yesterday evening.

At the call of President J. A. Borie the board held a special session at the parlors of the association, and decided to reduce the membership dues from \$2 to \$1 per month, provided the membership could be swelled to 150. There are now 108 members, and at least 100 more prospective members at the \$1 basis are in sight.

"I have not the least doubt that the membership in this association can be raised to the \$2.00 mark, in 36 hours on a \$1 basis," said President Borie, and to that end the association is now working.

The new rate will begin whenever the membership reaches 150, and later in the year probably the first of next year, an initiation fee of perhaps \$5 will be imposed.

The old members who have been in the organization since its organization (and there are many of them) paid an initiation fee of \$20, and have paid \$2 per month dues constantly since the organization.

The meeting was one of the most interesting held for a number of months, the entire board, with the exception of H. C. Bickers, who was ill, being present. The unanimous sentiment was to the effect that a larger and constantly increasing membership can be maintained at the lower rate of dues.

Campaign for Members.

The membership committee, consisting of Lee Teutsch, Earnest Younger, Fred Lampkin, Albert Cohen and Arthur L. Knight, will now make a spirited campaign for new members and with the assistance of the entire membership of the association, which is constituted a committee on membership, the 150 mark will be reached before the next regular meeting of the association, which will be held early in August.

Prospects Are Bright.

President Borie is enthusiastic over the prospects ahead of the association and the increasing number of letters addressed to it from different portions of the country, assure him of the constantly increasing and widening sphere of usefulness and popularity of the organization.

Letters of inquiry on different public questions and on business prospects and opportunities of this city are received every day by the association, and there was need of the awakening which seems to have come in the meeting yesterday evening.

A. W. Nye Librarian.

The resignation of Ralph Wade as librarian was accepted and A. W. Nye was appointed librarian and corresponding secretary, to take charge of the association rooms at once.

It is likely that the regular August meeting will be postponed for a day or two from the regular date, on account of the mass meeting in Portland, for the organization of the Oregon Development League. Notice of the date of the next meeting will be given in advance. In the meantime, everybody is a committee on membership.

"BARKED" HIS HAND.

Blood Poisoning Resulted, Necessitating Radical Treatment.

Sunday last while working about his threshing machine, M. J. Foster, of Stage Gulch, accidentally "barked" a small place on the back of his right hand. He paid no attention to the injury further than to wrap it up so it would not get hurt easily, and went about his work. By Tuesday, almost before he realized the import of the angry inflamed member, he had a well-developed case of blood poisoning on hand. The member swelled and pained him so badly as to be helpless, and he sought medical treatment for it. Dr. Smith found that the poisoned condition was rapidly extending to the arm and shoulder, and was compelled to adopt radical treatment at once.

The inflammation is now confined to the hand, and there is a good prospect of an early recovery without danger of losing the hand.

PLUCKY WALLOWA WOMAN.

Rides 100 Miles on Horseback and Helps Drive a Band of Horses to Market.

Mrs. Lem Faulkner, now visiting at the home of T. M. Lowe, on High street, rode on horseback from her home near Joseph, Wallowa county, and assisted her husband in driving a small herd of horses across the Blue mountains to this city.

The distance from the Faulkner home in Wallowa county, to Pendleton, is more than 100 miles, and most of the distance is over mountain roads which try the experienced horseman, yet Mrs. Faulkner made the distance with ease and did good service in handling the horses.

Mr. Faulkner brought a number of horses here for sale, and if the herd is all sold, himself and wife will return home by train, if not they will return home on horseback, as they came.

While the distance made by Mrs.

Faulkner is greater than that traveled by Retta Andrews, the Dale school teacher, who rode on horseback from Grant county to Pendleton last spring to attend the teachers' examination, yet the weather has been much more favorable than when Miss Andrews made her ride of 75 miles against a driving snowstorm.

Mrs. Faulkner thinks her feat was not uncommon, and is ready to repeat it if the horses are not sold.

FORMERLY OF PENDLETON.

Mrs. Allen Will Visit Her Mother, Mrs. A. L. Sharon, Soon.

Mrs. Walker Allen and her 13-year-old son, of Wheeling, W. Va., are daily expected to arrive in Pendleton for a visit with Mrs. Walker's mother, Mrs. A. L. Sharon, and her brother, J. L. Sharon. They will come from the west, having been on a tour which included San Francisco and Portland, and many other Western points. Mrs. Walker and her husband formerly and for many years resided in Pendleton, leaving here about 12 years ago.

FIRST WHEAT SOLD.

Eight Thousand Bushels No. 1 Club From Fulton Brings 55 Cents.

The first wheat sold from this year's crop was disposed of by A. C. Friedley, of Fulton, to a Fulton buyer. It was a contract lot, and consisted of 8000 bushels of No. 1 Club, for which he received 55 cents. Mr. Friedley has about 8000 bushels still on hand, the quality and variety being the same as that sold.

SERIOUS CASE.

Guy McCarthy's Wounded Thumb Developed Blood Poisoning.

Guy McCarthy, of Stage Gulch, who three weeks ago was wounded by the end of a rusty wire in the thumb of his right hand, is still in the hospital at this place. His physician thinks it will be about a week yet before he will be able to return home. The accident developed quite a virulent type of blood poisoning, which is only now fairly in subjection.

Bronch Busting Contest.

Tomorrow evening at about 7 p. m., there will be an exhibition of broncho busting at the ball grounds. Eastern Oregon produces some of the best riders in the United States. Four riders will take part in the contest, and they will tackle anything on four legs, so if you have any "outcasts" and want to see some fun, have them on hand. The riders are W. H. Reeves, of John Day; Z. W. Harris, of Long Creek; John George, of Susanville, and John Spain of Wallowa. An admission fee of 25 cents will be charged and probably the spectators will get a big quarter's worth of fun.

Accident on the Incline.

Yesterday afternoon during the process of boosting four carloads of coal up the coal bunkers' incline in the O. R. & N. yards, the end car was accidentally pushed over the end of the incline until the end trucks left the track. The car remained in that position, some 12 feet of it hanging in midair about 15 feet from the ground. A little extra push would have precipitated the car and contents, some 20 tons of coal, to the platform beneath.

Stage Gulch Wheat.

William Yohnka, of Stage Gulch, has about 1000 acres of his 200 acres of wheat cut and threshed, doing the work with combines. He has a splendid crop, the measured average being from 25 to 30 bushels per acre, and the quality is fine. He is cutting with two machines, both of which he owns himself.

Allowed Original Claim.

Judge Bellinger, of the United States court, reversed Judge Fitz Gerald's ruling allowing Carter & Raley but \$500 for legal services in the Wade bankruptcy case, and allowed the full amount of the firm's original claim of \$2000. The decision was rendered yesterday.

Broke the Main Shaft.

M. Wyrick, of Prospect Farm, Stage Gulch, broke the main shaft of his threshing power, which compelled him to suspend threshing operations for a few days while he brought the damaged machinery to Pendleton for Neagle brothers to repair.

No General Questions Involved.

The decision in the Harrington-Demaris case will not, in the opinion of attorneys here for various irrigation associations and companies, affect the interests of parties to any of the litigation pending. The questions raised therein were of special interest to only the litigants.

The man who never ate watermelon save with a fork has an awfully good time coming to him.
