Wallula Honey Raiser Tells of His Easy Living-Pioneer J. B. Switzler Owns Largest Band of Horses in Northwest-Has Furnished the Mounts in South Africa the Philippine and Other Foreign Countries.

Hunts Junction, Ore., July 21 .-There are always plenty of people to predict crop failures. If a heavy frost occurs they can be heatd croaking on the street corners that the crop will be a total failure. If a wind storm hits us a swipe In passing they will be heard in doleful accents proclaiming the news and assuring all who will fisten to their plaintive tale of woe that the grain hes flat on the ground and can never be harvested. If a heavy rain occurs they are the first to announce a probable shortage on account of the grain being shattered or washed out.

Well, we had our heavy frost, we had our windstorm, and we had our heavy rain, and from all appearances will have a record-breaking crop.

Will Be Bumper Crops.

spent the past few days in the vicinity of Myrick, Helix, Vansycle, Hunts, Junction, Eureka Flat and Walla Walla. I have talked to many of the heaviest wheat raisers in Northern Umatilia county, and almost without exception they say that this year's crop will be heavier than usual. will average 30 bushels or more to the acre, and some of my neighbors will crowd 40 bushels pretty closely,"

While I have some wheat that is down and that the combine may miss, It will not be lost for I will turn it into pork. I will put the hogs in the field to forage a living as soon as my crop is harvested."

The yield about Helix will be more uniform than in the Eureka Fiat country. Between Hunts Junction and Eureka there are many fields that are being cut for hay and here and there you will see a field of spring grain that will be pastured.

On the other hand there are scores of fields that will run from 25 to 30 bushels to the acre. The combined harvester is less in evidence in the Eureka Fiat country than in Umatilla county. Much of the wheat is headed and fed directly from the header wagon to the threshing machine.

In other fields the self-binder is at work, followed by two men who are shocking the bundles preparatory to hauling it to the threshing machine Here and there you may see from 24 to 32 horses strung out in front of a combined harvester, while the driver shoots a swan shot from an air gun at the horses that are lagging.

Surprised at Western Ways.

An Easterner who saw four horses walking back of the header and push-ing it, said: "By the great horn spoon. at that; that man has got his cart before his horse. Back where I came from the horses pull our mowers and binders. Out here they are push ing them.

Oregon Beats the World.

The finest single field of grain I saw was on the hill land between Weston and Athena, though there are many other nelds almost as good in the vicinity of both of these places.

Honey at Wallula.

Wallula I met J. R. Lindley. 'Last year I raised 3500 pounds of honey, the year before I had over 5, 000 pounds," he said. "I keep my "I keep my in one acre and a nalf of ground and they work on the willows, red clover and wild flowers for miles around. They only keep me busy about two months a year.

busy extracting honey, and caring for the new swarms. In the fall I strike United States government has just out and sell my honey to the farmers In winter I hunt and in spring I fish. I take it pretty easy and my bees make my living for me.

Pioneer J. B. Switzler,

At Wallula I also met J. B. Switz-At wanna i also at 25 years has ler, who for the last 25 years has been raising horses. Mr. Switzler is the owner of Switzler's island in the Columbia river on which sugar thing. beets are being very successfully raised.

Mr. Switzler, in speaking of the horse business, said: "I have several thousand running for 100 miles up and down the Columbia. We gather them up twice a year for the spring and fall round-up. Two years ago I sold a band of 4000 in the Great Bend country for \$16,000, an average of \$4 per head. I will probably sell this band on the Columbia if I can.

"I have made lots of money out of horses. During the Boer-English war I sold about 1500 to the English gov-ernment at from \$50 to \$60 a head. It cost me from \$6 to \$7 aplece to break them to ride as they had to be ridden before being turned over to the receiving officer.

'I have been selling them for years If you want to buy wheat land, a stock ranch, town property, vacant lots or anything in the real estate line, just drop in and see us. E T WADE & SON

its height in the upper Eureka Flat. The train leaves Hunts Junction several times a week with water for the ranchers. No water is found on the flat and cisterns are made and all water is hauled in. In spite of this drawback one farm

there has averaged for seven years 30 bushels of wheat to the acre. Some day artesian wells will settle the water question .- Fred Lockley.

Final limit 90 days from date of sale. For particulars call on or address E. C. Smith, agent O. R. & N., Pendleton, Ore.

Notice to Water Consumers.

All persons having water meters on their premises are hereby notified to put them in immediate repair if thy are not now, and to also clean out the meter boxes wherever they are dirty and fouled, so the meter can be read. If the owners or lessees do not have "Through May and June I am quite this done, the water superintendent will take steps to have it do J. T. BROWN
