RACES AT PORTLAND

OVER 500 HORSES EXPECTED AT IRVINGTON PARK.

Multnomah Fair Association Prepared to Hold Fine Race Meeting August 8 to 27—Most Important Event is to Be the Oregon Stakes, the First Event of the Season—52 Entries in This Event—Most Prominent Horses in the Country to Be Present.

Portland, Ore., July 25.—Officers of the Multnomah Fair Association are rapidly getting the Irvington race track in shape for their summer meeting, which opens on August 8 and will continue until August 27, with the privilege of continuing two weeks in September. This race meeting will not only bring together the pick of the 600 horses which are racing at the Meadows in Seattle, but it will be the longest meet ever attempted in Oregon.

When President A. R. Diamond and the rest of the Multnomah Fair Association officials talked of giving a week's racing last year, they were told frankly by the local horsemen that the racing game had received such a black eye in Portland that the public would not turn out to see them.

In spite of this discouraging talk the officials went on, gave the race meeting, proved conclusively that horses could be raced and raced honestly, and not only the people of Portland paid their money at the gate but horsemen from all over the state attended the meeting.

And when they returned home they were loud in their praise for the clean sport which they had enjoyed, and of the liberal manner in which the books handled the odds on the races. This was all the encouragement that the association wanted, and they began at once to plan for their 1904 August meeting.

Most of the horsemen who raced here last fall declared when they departed that nothing could keep them from returning. Not only have they kept their word, but they assisted in filling the stake book entries when it was sent to Oakland and Los Angeles.

Originally the association planned only to care for 300 horses, but the demands for stall room became so great that it was found necessary to build 200 additional stalls. They have just been completed and are the most modern and up-to-date stalls on the coast.

They are constructed after those at Washington Park, Chicago, and at Saratoga, and are so arranged that sleeping quarters for the trainers and rubbers are in a sort of loft over the horses. Last year it cost the association \$15,000 to get Irvington into shape, and this year \$7000 more has been spent.

The entire grandstand, the saddling paddock, and the judges and timers stands will be painted new and every stall will receive a thick coating of whitewash.

It is the intention of the association this year to give \$10,000 away in prizes for the stake events alone. This assures big fields in each of the

KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propagates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalp of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Send 3c. in stamps for sample to The Herpicide Co., Detroit, Mich.

F. W. Schmidt, special agent.

LOST, STRAYED OR STOLEN

From my place at Juniper on June 27, two mares; one a sorrel mare, weight about 1200 pounds, 5 years old, branded CH on left shoulder; she has crooked front feet.

The other is a 5-year-old bay mare, weighing 1100, branded R over a bar on left hip and T within a circle on right shoulder.

I will pay \$10 for information leading to the recovery of both horses, or \$5 for either of them. Address, A. LARSON, Juniper, Oregon.

events and it will bring together some of the best horses racing on the coast. The Oregon Stakes, the first stake event of the season, closed with 52 entries, and among them are such horses as Misty's Pride, Step Around, who won the opening stake event at Seattle; Lady Usk, Albemarle and a large number of other clever performers. The big stake race of the meeting will be the Irvington handicap, value \$1000, to the winners. For this money such horses as Modicum, Forest King, George Berry, Veterano, Mr. Dingle and Gateway and many others will take starter Mulholland, on August 20, the date of the race.

ATE RABBITS FOR 48 DAYS.

Experience of Alaska Prospectors Who Lost Supplies in River.

W. Gordon Campbell, a California boy who recently returned from the Tanana country, probably had as hard and thrilling an experience in that district as almost any other prospector in Alaska.

Together with a companion, Warren Merritt, he lived for 48 days last winter on rabbits. Incidentally two grouse, four eagle's eggs and a goose was added to this bill of fare. In addition to a stray lean, lank dog that chanced to wander into camp, but otherwise it was rabbits three times a day.

The men went into the country on a prospecting tour. They were very successful. They found dirt as rich as 20 cents per pan, and staked out 18 claims on the Chisana river, headwaters of the Tanana.

The winter was a mild one, and while going down Jack creek the ice broke and the prospectors lost everything but guns and blankets. It was a life and death struggle then until they reached Tanana Crossing, where there is a government telegraph station.

After a great deal of hard labor they succeeded in constructing a raft 18 feet long and three feet wide. Strapping their guns and blankets on this they were able to make much better time, although their paraphernalia was wet from the time they started until the end of the journey.

Merritt, who is older than Campbell, could not get off the raft unassisted when the crossing was reached. Prior to reaching their destination they did not taste food for 24 hours.

What few rabbits they were able to get before that time were for the most part diseased, and the two men were in a terrible condition.

Mr. Campbell, in spite of the trouble he had in the north, is going back just as soon as he can get another outfit.

THE LARGEST COMBINE.

Monster Machine at Lewiston Will Cut 100 Acres Per Day.

The large steam combined harvester and threshing outfit recently purchased by John Nelson of Tammany, was taken to the Tammany country yesterday and will be started today, says the Lewiston Tribune.

The machinery is in charge of Frank Galbraith, an expert sent from the California factory, and will be put in first-class condition before Mr. Galbraith turns the outfit over to Mr. Nelson.

The engine weight 20 tons and develops 80 horse power. The engine is guided by a single steering wheel in front and is governed by steam power. The two main wheels of the engine are five feet in width to prevent sinking into the soft ground.

The cutting machinery is 34 feet wide and an average cut for the season where conditions are favorable is 100 acres per day.

Many people have watched the unloading of the machinery and the streets were filled with people yesterday when it was announced that the start for the Tammany country would soon be made.

The engine will be used for plowing the ground, and is also valuable for freighting on the roads where conditions are favorable.

Danger Cries of Birds.

The approach of danger is expressed by a universally intelligible cry. The blue tit has a peculiar sound, "iss," so indicative of fear and terror that when heard the wood is silent in an instant. It is said that she often utters it from pure love of mischief.

"Every bird," says Bechstein, "has received from nature the power of uttering a song or certain sound by which it can communicate its desires to other birds. The chaffinch's call varies with its feelings. When on the wing it is 'Eyuk! Eyuk!' Its expression of joy is 'Pink! Pink!' If angry, it makes the same call more quickly, and 'Trief! Trief!' is a sign of tenderness or melancholy. The raven calls out 'Grab! Grab!' slowly or rapidly, as its emotions change."

THE FAIR GRAFTS

FAKIRS TAKE ADVANTAGE OF THE EXPOSITION.

Bogus Agents Claim to Have Lewis and Clark Fair Privileges—Offer to Secure Positions in the Exposition of All Applicants—Fair Commission Will Place the Matter in Attorney's Hands.

That the name of the Lewis and Clark fair is being used as a cloak for irregular business deals and fake enterprises has come to the knowledge of the director general's office from time to time.

On several occasions rumors have come in of a photographic outfit; sometimes in Southern and again in Eastern Oregon. The operator, according to reports, is doing business under the pretext that he and his enterprise are endorsed by the fair management. He is said to "work" business men into having their places of business photographed, and for this a compensation is required.

The business man is assured that a likeness of his place is desired by the fair people, and a sum is forthcoming.

Again reports have come in of a Lewis and Clark Employment Agency which, for a fee, is said to guarantee any applicant that he will be given information which will enable him to secure a job on the fair grounds.

Reports have been received from other sources of transactions that would hardly bear the searchlight of investigation, and in some cases there has been talk of placing the matter in the hands of the fair's attorneys with instructions to proceed against the usurpers of non-existing authority.

"It has been an established policy of the exposition company from the beginning to accord its official endorsement to no scheme, or anybody's scheme of whatever kind," said D. C. Freeman, secretary of the director general, today.

"Business men should not allow themselves to be fooled by any of these fakes. I can state that the fair management has authorized no one to take photographs for it in any part of the country, and there is no employment agency with which the management has any kind of understanding with reference to furnishing employment."

"I would like to warn business men and others to beware of these people, for the fair management is behind none of them."

Night Was Her Terror.

"I would cough nearly all night long," writes Mrs. Charles Applegate of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but, when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 58 pounds." It's absolutely guaranteed to cure coughs, colds, la grippe, bronchitis and all throat and lung troubles. Price 50c and \$1.00. Trial bottles free at Tallman & Co.'s drug store.

It Will Be to Your Interest.

If you contemplate visiting the St. Louis Exposition, to secure reliable information as to railroad service, the lowest rates and the best routes. Also as to local conditions in St. Louis; hotels, etc., etc.

If you will write the undersigned, stating what information you desire, the same will be promptly furnished. If we do not have it on hand, will secure it for you if possible, and without any expense to you. Address B. H. TRUMBULL, Commercial Agent, 142 Third street, Portland, Ore.

No Pity Shown.

"For years fate was after me continuously," writes F. A. Gullodge, Verbena, Ala. "I had a terrible case of piles, causing 24 tumors. When all failed Bucklen's Arnica Salve cured me." Equally good for all aches and pains. Only 25c at Tallman & Co.'s drug store.

Attention Sheepmen.
