One Hundred Dollars Reward.

One hundred dollars is a pretty good reward for five minutes work. That is what J. E. Strode, of Wauwassau, Wash., got from the East Oregonian in our last subscription contest. He received with the complimentary of the East Oregonian, without a cent of expense to himself, a 100 horsepower buggy. We propose to conduct another subscription contest on the following basis:

From now until November 4th we will take new subscriptions sent in by our subscribers and to the one who guesses nearest to the vote received for the winning presidential candidate in this state, we will give one-half of the money received from this contest.

For example, if you think President Roosevelt will receive the majority of votes in the coming election, fill out the coupon, "Roosevelt's total vote in Oregon will be (.....)," and put in your estimate.

If our subscribers cooperate with us as they have in previous contests and as we expect they will in this, we will take in several hundred dollars or possibly much more, one-half of which will go to the person who guesses nearest to the vote in Oregon for the winning presidential candidate.

There is only one requirement and this is important. ALL NAMES ENTERED MUST BE THOSE OF NEW SUBSCRIBERS. Renewals of subscriptions will not be counted in this contest. Subscribers can participate in this way: Get some neighbor to take the Weekly East Oregonian for three months for 50 cents. Send in a money order for the 50 cents; or in 25 cent stamps or silver, accompanied by your guess on the presidential vote. If you do not want to ask some neighbor to subscribe, send in 50 cents and the name of some friend in the East who is interested in the Eastern country. Let him read the Weekly East Oregonian and it will give him more news about the resources of the Inland Empire than you could if you wrote him a 50-page letter a week. For every 50 cents you are entitled to one guess. If you get four of your friends to take it for three months each, you will be entitled to four guesses, or if you get one subscription for a year for the Weekly for \$1.50 you are entitled to three guesses. Some one of our subscribers will get one half of all money taken in on this contest. It may be only \$50, or it may be several hundred dollars, but whatever the sum the one who guesses nearest to the presidential vote in Oregon for the winning candidate, will get one-half of the money.

Remember the guess is on the vote cast in Oregon for the successful presidential candidate.

Only new subscriptions count.

A subscription for 50 cents gives you one guess.

You can send in as many subscribers as you wish and for each 50 cents you get one guess.

This contest closes November fourth, so be sure to send in your guess before that time.

The total vote in June, 1904, was 92,608; for republican candidate for supreme judge, 52,946; for democratic, 28,729; socialist, 6419, and prohibition, 5514.

WILL VIOLATE LAW

COLUMBIA FISHERMEN WILL CATCH OUT OF SEASON.

Because of Short Run of Salmon and Lateness of the Season They Will Now Take Advantage of the Present Good Run to Make Up the Season's Shortage—Law Does Not Provide for Late Salmon Run and the Crop Must Be Harvested.

The salmon canners, according to the Astoria Budget, will disregard the fish laws this season. It says:

The run of salmon that had been around the mouth of the river for the past few days, disappeared almost entirely last evening, without any apparent cause, and the catch was very small in comparison with the few days previous.

That this was entirely unexpected was shown by the fact that the canneries and cold storage plants sent all their launches down early this morning and some of the packers' association launches had plungers in town, to assist in bringing the catch up from the mouth of the river.

Whether it was only a spurt, and all the fish were caught, or whether they returned to the sea again cannot be told, but each theory has its supporters.

Every day there are new assurances that there is an abundance of salmon off the mouth of the river, but why they do not come inside now that conditions are favorable is not known.

For some time past there has been considerable talk as to what will be done this year when the end of the fishing season arrives, and there are plenty of salmon of good quality still in the river.

That the pack will be short now appears certain, and the interests involved, which means much to this city, will be desirous of amicably arranging it so operations may continue, but if it cannot be done that way they feel obliged to protect their property to continue operations anyhow and stand any consequences that may be forced on them.

This will not be considered in the light of the willful disregard of the law as the fish are believed to be the result of artificial propagation and placed in the river by the states of Oregon and Washington and by the national government for the purpose of being caught, and it is now an accepted fact that they never return to sea again, and if not caught now there will never be a chance again.

As a canner well illustrates the matter, he says that it would be the same if a farmer was told that he could not harvest the wheat that he had planted because the season was late, and it had not ripened within the usual time.

MARCUS DALY SCHOLARSHIP.

Competitive Examination to Be Held in Butte September 19 to 24.

Helena, July 28.—The daughter of the late Marcus Daly, Mrs. James W. Gerard of New York, has established in his memory the Marcus Daly scholarship in the school of mines of Columbia university.

The scholarship which is to be awarded on a competitive basis, carries perhaps the largest income of any in the United States, as the recipient is to receive \$1,000 per annum. It is open only to those who have worked in the Montana mines or to their descendants.

A certificate of eligibility must be obtained from M. R. Dempsey, chairman of a special committee of the Butte Miners' Union, and must be presented at the time of the entrance examination.

These examinations will be held September 19 to 24, at the Montana state school of mines at Butte, under the supervision of Prof. W. G. King.

The examinations are the same as those for entrance to the school of mines of Columbia university and cover English, chemistry, physics, German, mathematics, including algebra, plane and spherical geometry and plane trigonometry, drawing, history (either English and American or ancient and mediæval), and either French, Spanish or Latin.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."
Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

8000 Tons of Bolts.

New York, July 28.—An idea of the immensity and cost of the Pennsylvania railroad's project of tunnelling the North river to gain an entrance into this city may be gained from the statement that the railroad company, through its contractors, has this week awarded a contract for 8000 tons of bolts, to be used in constructing the tunnel. The Cambria Steel Company obtained the contract. The price is, it is understood, 2 cents a pound or \$40 a ton, which makes the order aggregate \$320,000.

NO FRUIT FAIR

WALLA WALLA MAY REST THIS YEAR.

Charles L. Whitney Says the People Are Tired of the Fruit Fair and May Decide on an Old-Fashioned County Fair With a Race Meet—Walla Walla Roads Are in a Frightful Condition From Dust.

Charles L. Whitney, a prominent Walla Walla valley nurseryman, who has been visiting in Pendleton, is of the opinion that no fruit fair will be held at Walla Walla this fall. "The people are tired," he said, "of fruit fairs, and they demand a change. I am of the opinion that a good, old-fashioned county fair in connection with the fall race meet would be just the thing.

"Let the people get together and bring their fat stock, prize fruits and grains and horses. They have been attending fruit fairs until they are tired."

Mr. Whitney was one of the prime movers two years ago in the good roads project, and it was to him that much of the success of "Straw Day" was due. Very little strawing of roads has taken place this year. "The highways need it bad enough," he continued, "but the new Washington road law leaves the matter entirely in the hands of the county commissioners, and the result is practically nothing has been done to keep down the dust. Now that wheat hauling has commenced the country roads are beginning to be cut up in a frightful manner."

Stockmen Organize.

The meeting of the sheepsmen at Hamilton last Saturday was not very well attended on account of short time of the notice and because many sheepsmen were with their sheep in the mountains.

Lawrence Sweek of Monument, was chosen chairman of the meeting and Walter Davis of Hamilton, secretary, it having been decided not to organize permanently until the meeting at Monument tomorrow.

It is the desire of those interesting themselves in this move to have a stock association composed of Grant county stockraisers—horses, cattle or sheep—and by organizing, give our stockmen a chance to feed their stock on the ranges of this county. There were only a few who signed the membership roll at Hamilton, preferring to wait and see what the constitution and by-laws will contain, which will be adopted at Monument tomorrow, when a large attendance is looked for.—Long Creek Eagle.

Condensed for Four Days.

"There was a good old lawyer of the good old southern type," said a judge, "who had a most eloquent way of pleading. His brief for three days had been a marvel of classical allusion and legal erudition. "The judge, however, became a trifle impatient and, as gently as he could, intimated that the docket was somewhat crowded, and it might be to the client's interest if the lawyer could contrive to end his plea. And, do you know, the old barrister declared that the last four days of his argument were a marvel of condensation."

Ninety-Three Societies Represented at the Meeting of Musicians—All the West and Central States Have Singers There—City Extends Warm Greetings to the Jolly Crews—High Class Musical Programs to Be the Order of the Meeting.

Milwaukee, Wis., July 28.—In addition to the many excursion trains and steamers arriving last night bearing singing societies and visitors to the twenty-first saengerfest of the Saengerbund of the Northwest, there were thousands of visitors marching from the depots today. The rehearsals were continued during the morning and afternoon. There were many impromptu concerts in different parts of the city. The exposition building is the place of rendezvous on the arrival of the societies and delegates. Here heavily laden tables and beverages await the visitors.

The program for the song festival consists of five concerts, the first of which takes place tonight. Mayor Rose will deliver an address of welcome to the visitors and the ceremony of the presentation of the flags by President Charles Richter will follow. Other numbers on the opening program are as follows:

These will be assisted by choruses ranging all the way from 2500 to 4000 voices, and varied from a mixed chorus of enormous size to an exclusively male chorus and to one of children's voices.
