A. KUNKEL & CO.

PLEHVE A BRUTE

CHARACTER HAS CHANGED OF LATE YEARS.

Was Personally Known to Andrew G. White, Former American Ambassador—Plehve Took Part in Horrible Butchery and Abuses of the Jews—Does Not Wonder at the Assassination.

The Post-Standard tomorrow will say: Former United States Ambassador White was seen by a Post-Standard reporter at the residence of his brother, Horace K. White, in James street, just before he left for Ithaca yesterday. When asked if he had the acquaintance of M. von Plehve, Russian minister of the interior, Mr. White answered that he knew him well, having met him frequently in the course of official business during his stay at St. Petersburg in 1892, 1893 and 1894 as minister of the United States to Russia.

In discussing Plehve and the assassination, Mr. White said:

Mr. White's Statement.
"At that time Mr. Plehve had not arrived at the position of full minister of interior, but was first assistant minister in that department and in that capacity took up various American matters, especially the dealings of the Russian government with some of the great American insurance companies. The Russian government had made the companies a great deal of trouble, and I was instructed from Washington to discuss the matter. General Batchelor, now judge of the international court in Egypt, very ably representing the matter.

His Whole Character Changes.
"I think both General Batchelor and myself found Mr. Plehve very agreeable and apparently, as far as his government allowed him, reasonable. I also met him socially at various times and found him agreeable and interesting. I was therefore, greatly surprised at learning, when he was promoted to first place, that his whole character seemed to change.

"His part in the horrible massacre and plunder of the Jews, men, women and children at Kishineff, caused him to be regarded with abhorrence by the whole world. Even more frightful has been his connection with the destruction of the liberties of Finland. In my mind that is the most wicked thing in the history of the last two centuries. There is no time to go in to details here further than to say that it has turned the best, the most civilized, the most educated and most loyal province in the empire into a

land in which the opposite of all these characteristics is more highly developed than in any other part of the empire. Other things done by him were also calculated to bring most bitter hatred against him.

"He attempted to help his cause by a defense of his conduct toward Finland which was published in an American magazine. But it certainly must have failed to convince any thinking man at all aware of the circumstances.

"During two summers I lived mainly in Finland, coming frequently to St. Petersburg, and the transition in passing from the cultivation and civilization of Finland to the atmosphere of Russia was the most depressing I have ever known.

"I do not wonder at the assassination, although I deeply lament it. It will doubtless be made a pretext for new oppression and new cruelties toward the Jewish population and toward the Finlanders. Assassination always defeats its purpose, and this will be, I fear, no exception to the rule.

Atrocious, Reactionary, Despotism.
"I can only account for Mr. Plehve's atrocious, reactionary and despotism since he came to the position of minister of the interior on the theory that he felt that the clique in control of the winter palace, men and women, who seem to have brought the present emperor into subjection to them obliged Mr. Plehve as a condition of his tenure of office, to do their will.

"His ambition doubtless led him to adopt their racial detestation and religious hatred for anything like constitutional government."

SELLING WATERED MILK.

The town Pump Does Duty on Several Portland Dairies.

Just because the cows are running dry and feed is getting high, some of Portland's highly respected citizens would have been drinking milk-colored water these days instead of the pure lactical fluid, had it not been for the fact that J. W. Bailey, state food and dairy commissioner, has been up and about doing some clever detective work, says the Telegram.

As it is, Mr. Bailey says, Portland is getting more pure milk to the square foot than any other city in the United States today.

This admirable state of affairs was not brought about without a great deal of difficulty, however, and to some the experiments proved quite costly.

During the past two weeks Mr. Bailey has caused the arrest of no fewer than a dozen milkmen, and of these nearly every one has been glad to pay a liberal fine, ranging from \$25 to \$50, rather than have his customers learn that he was trying to sell them water out of the old reliable farm pump for sweet milk, the best that good feed and thoroughbred stock could produce.

CANADIAN TARIFF CHANGES.

All Canadian Machinery on Free List and Bounty on Canadian Oil.

A number of important changes have just been made in the Canadian tariff by the Dominion government. Among the most important differences announced is the placing of printing presses and various other machinery, including all for the manufacture of linen and brass goods, and also well-drilling machinery, on the free list.

In general, all machinery not manufactured in Canada is placed on the free list, as also is whale oil, soap, etc.

An important requirement is attached to the tariff law, intended to reach articles imported into Canada at less price than said articles are sold in the country where they are manufactured. It says:

"The expression 'export price' or 'selling price' shall be held to mean and include the exporter's price for the goods, exclusive of all charges thereon after their shipment from the place whence exported directly to Canada."

It is also announced that on all crude petroleum produced from wells in Canada a bounty of 1 1/2 cents a gallon will be paid after June 8, 1904.—Abraham E. Smith, Consul, Victoria, B. C., June 20, 1904.

MAKING PLANK ROADS.

Western Oregon Has No Deep Dust, But There Are Other Troubles.

The North Bend Post gives the following account of road improvement in that district:

"C. P. Barnard, the proprietor of the Roseburg-Coos Bay stage line, went to Coquille this morning to make a proposition to the county court to plank North Fork hill. Mr. Barnard is willing to defray \$1000 of the expense personally and will ask the county to pay \$2000 toward the improvement of the much needed highway.

"Several miles of the Roseburg road have already been planked and it is now in excellent shape except for the bad hill before referred to. In previous years the mail was not infrequently two and three days late on account of the fact that at North Fork hill the road is simply impassable at times during the winter months.

If the road were planked this delay of the overland mail would not occur, as the stage would be enabled to get through in 24 hours, which latter Mr. Barnard guarantees in case the road is planked."

Excursion Rates to Portland August 1st, 1904.—Oregon Development Association Meeting.

Portland, Ore., August 2d and 3d '04. For the above occasion the O. R. & N. makes a special rate of \$6.85 for the round trip. Tickets on sale August first for trains Nos. 1 and 5 only. Misses' \$2.00 shoes for \$1.00. Teutsch's.

IDAHO GAME ISSUE

FARMERS MAKE VIGOROUS PROTEST ABOUT HUNTERS.

Game Birds Very Plentiful, and Aggressions of Trespassers Very Annoying—Farmers Are in the Harvest and Cannot Protect Their Wild Birds—Danger of Fire From Gun Firing in Grain Fields.

Farmers report that parties are now hunting prairie chickens and grouse in the sections where the settlements are scattered and unless this is stopped prosecutions will follow. The reports come from isolated districts where the danger of discovery except by farmers who own the land. The law protecting the game birds will not expire until August 15, and the farmers propose to have the birds protected until that time, says the Union.

A large number of birds are reported in all sections of the country and sportsmen anticipate fine shooting as soon as the season opens. From the attitude taken by the farmers it is evident that permission from them will be needed in most localities, as it is proposed to protect the birds as far as possible for the late fall shooting. Last year the farmers in many of the districts posted notices and kept a close personal watch to see that hunters did not trespass upon their lands. The result is that the fields are filled with game birds this season and the farmers state that the vigil will be more closely kept this year than ever before.

The farmers contend that at the opening of the season they are engaged with the harvest, and by the time they can enjoy hunting the city sportsmen have killed most of the birds and have geared the others until it is impossible to hunt successfully without a trained dog. The farmers contend that at the time the season opens little of the grain has been moved from the fields and the straw will ignite like powder. To protect their crops they believe that shooters should be excluded from the grain fields and on account of the careless shooting in the stock pastures the exclusion will effect all parts of the farms.

COMING EVENTS.

August 15-20—National encampment Grand Army, Boston.

August 22-27—American Mining Congress, Portland.

September 4—Conclave Knights Templar, San Francisco.

September 15-18—Oregon Irrigation Association, Ontario, Malheur county.

Inland Empire Teachers' Association—Pendleton, October 19, 20 and 21.

National Irrigation Association, El Paso, Texas, November 15-18.

Big Shoot at Fort Riley.

Fort Riley, Kas., August 1.—Beginning today and continue until near the end of the present month Fort Riley will be the scene of some notable shooting matches in which the best shots of the northern division of the army and representatives of the marine corps, the state militia and the National Rifle Association will contest for supremacy. The matches will be shot on the new target range, recently completed at a cost of \$10,000. The matches are under the general direction of Brigadier General Francis Moore, U. S. A. To the winners of the various events will be awarded cash prizes and medals aggregating several thousand dollars in value.

End of Bitter Fight.

"Two physicians had a long and stubborn fight with an abscess on my right lung," writes J. F. Hughes of DuPont, Ga., "and gave me up. Everybody thought my time had come. As a last resort I tried Dr. King's New Discovery for Consumption. The benefit I received was striking and I was on my feet in a few days. Now I've entirely regained my health." It conquers all coughs, colds and throat and lung troubles. Guaranteed by Tallman & Co.'s drug store. Price 50c and \$1.00. Trial bottles free.

In order to accommodate fishing parties the O. R. & N. Co. will, until close of season, have train No. 2, leaving here at 5:45 p. m., stop at North Fork on Saturday evenings, and train No. 1, due in Pendleton at 9 a. m., stop at same place Monday morning. This arrangement will be in effect Saturday, May 14.

A Hot Weather Ambition.

"Pa."
"What is it, Jimmy?"
"Can't y' buy me a season ticket to some o' these ice cream soda fountains?"—Cincinnati Commercial Tribune.

A slight earthquake shock was felt at Woodland, Cal., Sunday morning.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '04, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroys the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. F. W. Schmidt, special agent.
