A RECONCILIATION

SAMSES OF WESTON DRIVE HOME WITH THE CHILDREN.

Terms of Capitulation Not Known. But it is Presumed That Both Surrendered—Husband Made the First Overtures for an Agreement—They Resume the Marriage Relation With the Blessings of the Entire Community.

After bringing action for divorce against her husband and charging him with threatening her life, assaulting her with his fists and with sticks of wood, driving her from home and snatching a nursing babe from her breast, Mrs. Eliza J. Sams has returned to her spouse. Meanwhile the action for divorce is still pending in the state circuit court.

When Mrs. Sams filed her complaint in the state circuit court Monday, she asked for an order granting her temporary custody of her five children, who were with her husband. The request was granted.

Deputy Sheriff Blakley served the notice on Sams yesterday morning at his home near Weston, and later in the day delivered over the children to the mother, who was in Freewater. Then came the father and husband.

With tears in his eye she begged his wife to return with him to their home. Just what passed between the man and woman is not recorded, but when Charles A. Sams drove home last evening there was a look of grim satisfaction on his face. Beside him sat a smiling woman, and stowed in various parts of the wagon were five children.

Today Deputy Sheriff Blakley is in

NEBRASKA SHEEP BUYERS.

Claim That Sheep Are Held Unreasonably High.

C. R. Reynolds, a stockman from Buffalo county, Nebraska, accompanied by T. B. Garrison, who is cashier of the Central National Bank at Kearney, arrived yesterday and will buy sheep in this county if they can get them at prices that will justify the investment. Mr. Reynolds is in the county looking at sheep today.

These men come from a county in which is led a yearly average of 150,000 sheep, though scarcely any sheep are produced there. The output is of mutton sheep brought in as stockers from the ranges of Wyoming, Montana, Colorado, Oregon and Washington and full fed in one of the finest forage producing districts in the United States.

Messrs. Reynolds and Garrison are not likely to purchase here at the prices asked just now by the sheepmen for their stockers of all classes. They aver that they can get equally as good animals now in the stockyards of South Omaha that have been shipped in from sheep producing districts where the farmers do not hold their stock so high as here. They are inclined to believe that after the sheepmen here have held their flocks for a few weeks longer, on feed, or have had a few experiences at shipping themselves, they will "mellow" considerably, and be more approachable by buyers.

The climate of South-Central Nebraska is not adapted to the breeding of sheep, on account of the cold, wet storms and violent and sudden changes in the weather.

FINEST WHEAT FIELDS.

Sheaves of Wheat Over Five Feet Long From Hamilton Ranch.

"The heaviest grain I ever saw on the reservation," is the way J. M. Bentley speaks of the grain fields south of Pendleton. "I visited the farms about eight miles south of town yesterday," he said, "and at no place was the yield falling below 35 bushels to the acre. On the farm of John Crowe, where the grain is so heavy that it is badly mashed down in many places, the yield is 22 sacks to the acre."

"Mr. Crowe has two combines working, and he informed me that owing to the broken down condition of the crop he was securing only about three-fourths of the grain. Were I to get it all," he informed me, "the yield would run to 60 bushels."

Mr. Bentley brought in some sheaves of wheat from the Hamilton ranch that are over five feet in length.

ABANDONS HIS AUTO.

Caldwell Banker Finds the Roads of Umatilla Too Much for His Machine.

Hereafter travel in the old-fashioned Pullman drawing room is good enough for Walter R. Sebree, a Caldwell, Idaho, banker. No more up-to-date flying automobile rides when he attempts to go to Portland. Mr. Sebree last evening, dust covered and tired, rolled into Pendleton from Baker City, aboard a 40-horse power Packard auto, with the vehicle sadly in need of repairs. Last night Mr. Sebree continued on to Portland aboard the train. His chauffeur, Frank McDowell, will go to Portland the same way tonight and the auto will be safely stowed in the express car.

"It will cost considerable to ship the machine to Portland," said its owner, "but no more than the overland trip costs, anyway. An auto is a nice thing to have and it's very pleasant to whirl along the level streets and on the pike roads, but when it comes to the dust of Umatilla's highways, excuse me."

KANSAS CAPITALIST.

Looking for Investments in Range and Livestock.

A. O. Perrin of Topeka, Kas., arrived this morning from the eastward. Mr. Perrin is one of the heaviest taxpayers in Shawnee county, Kas., and owns extensive coal mining and railroad interests.

His present trip westward is to look

over the entire Northwestern field with a view to investing in the interest of his son, who has no inclination toward railroading or realty, but whose ambition is to be a stockman. Western Kansas is not to his liking, and the Northwest is, as a result of an extensive tour throughout this region several months ago. The old gentleman is on his present trip to confirm the young man's judgment.

Cattleman From Colorado.

Miller Bingham, of Akron, Col., arrived this morning. Mr. Bingham is a man who has accumulated a competence in the cattle business, and thinks of switching to the sheep business. Before he does so, however, he will investigate thoroughly the conditions surrounding the industry here. He is being influenced considerably by his resolution to come into the Northwest, by the more agreeable climate of this country compared with the plains east of the Rocky mountains.

Balcomb to Portland Jail.

Tom Balcomb, charged with furnishing whiskey to an Indian, pleaded guilty before United States Court Commissioner John Hailey, Jr., yesterday and was placed under bonds of \$200 to appear at the next session of the federal grand jury. The prisoner was unable to furnish bail and was taken to Portland this morning by Deputy Marshal Wilson to be confined in the Multnomah county jail. Balcomb was held in the county jail at this place last night.

Furniture for Hotel Cruise.

A large quantity of furniture for the new Hotel Cruise is arriving, and the remainder is coming as fast as it can be put into place. No two parlors or bedrooms will be furnished the same, the carpets and furniture in each room being different from that used in any other apartment. One of the parlors will be fitted with bent wood furniture, and the other with Flemish oak. All the halls will be carpeted and also the stairs, and the private dinners will be elegantly furnished.

Fair Agent to Walla Walla.

A. F. Miller of Portland, who is gathering exhibits for the state commission of the Louisiana Purchase exposition and the Portland fair, was in Pendleton last night. Mr. Miller departed this morning for Walla Walla and Dayton. He will be absent about a week. Mr. Miller has succeeded in securing a valuable collection of grasses and grains which will be taken East in a few weeks.

After 90 Cents for Barley.

A heavy barley crop is being cut in the Swan Anderson neighborhood, five or six miles northwest of Pilot Rock, but the farmers are letting the cutting stand in the stack, awaiting a better market before threshing. It is said that it will take 90 cents to start a threshing machine in the barley in that neighborhood, whereas, the best offer as yet made is said to be 75 cents.

In the Congregational Church.

Services were held in the Congregational church for the first time after the repairs and alterations have been made, the first Sunday in September. That is the date set for the union services to be held in that church, and every effort is being made to have the building ready. Rev. N. H. Brooks will conduct the services in the evening.

Looking for Business Location.

F. H. Morlan, of Sterling, Col., is in town, coming from the west, on his way home from an extended tour of the entire Northwest. Mr. Morlan is looking for a location for a dry goods and gent's furnishing business. He has been engaged in this trade for many years at Sterling, and is now seeking a wider field than a county town of 2000 people affords.

Real Estate Transfers.

Real estate transfers filed for record today in the county recorder's office are as follows:

Horace Walker and wife, 160 acres of land near Helix, to D. H. Sanders, consideration, \$8500.

Alvin C. Russell and wife, two lots in Milton, to Susie C. Masters, consideration \$800.

Williams-Woolsey.

Alva J. Woolsey, of Walla Walla, and Miss Dora Williams, of Idaho, were united in marriage yesterday afternoon by Rev. G. L. Hall, at his residence in this place. Mr. and Mrs. Woolsey will probably reside here.

Walker Sells a Farm.

Horace Walker has sold to D. H. Saunders, of Athena, for \$8500, his 160-acre farm three miles east of Helix.

KILLED MINK ON MAIN STREET.

Webb Street Photographer Covers Himself With Glory.

Theodore Danner, the Webb street photographer, yesterday afternoon covered himself, with glory and caused a curious crowd to gather when he killed a huge mink that he observed in front of his place.

Speculation was rife among the crowd as to what kind of animal it was that Danner had bagged. Several suggested rat, one man said it was a weasel, a small boy hinted at skunk, the stranger with spectacles sagely remarked that it was nothing more or less than Putorius vison, while the man on the load of wood even went so far as to declare it a bear.

Engineer From Pasadena.

F. H. Norwood, of Pasadena, Cal., is here visiting his brother, H. C. Norwood, who is a painter. Mr. Norwood is a stationary engineer by occupation, and thinks of locating here. He had no idea that his brother was in Pendleton until he came here a week ago and ran onto him purely by chance.

Shoe Repairing

I have moved my shop to the second door east of the Sa Ings Bank. Repairing of all kinds done in a workmanlike manner at reasonable rates. As I have been in business here 17 years, I need not speak of the quality of my work for it speaks for itself. My stock of shoes was somewhat damaged by water and the insurance company told me to sell them for what I could get, so I will sell them for less than wholesale price. CHRIS RANLEY.
