W. R. FREY RETURNS.

Pendleton Family at Home After an Interesting Series of Accidents.

W. R. Frey and wife have arrived from an absence of several months spent in British Columbia, Washington and Oregon, at various points, and will remain here until after election. Their whereabouts after that time are as yet uncertain.

Mr. Frey accounts himself as a Jonah of the most approved pattern. With his wife he took a trip on the Charles Spencer a few days before she was wrecked. Not long after they journeyed on the Sound on the Princess Victoria, which was almost immediately thereafter badly damaged, and practically ruined. Soon after they were on the Victoria, another Sound steamer, and in a few days her bow was stove in by fouling some rocks in trying to dodge a tugboat which crowded her in a dangerous place.

A short time thereafter Mr. and Mrs. Frey were aboard a launch in the vicinity of Portland, when something went wrong with the machinery, and the launch drifted helplessly for hours until repairs were effected which enabled her to be guided. And after that they were aboard a loaded Portland ferryboat which got out of order and went adrift for some time.

This somewhat remarkable series of experiences and narrowly escaped accidents lead to the suspicion that Mr. Frey and wife are liable to postpone their contemplated trip to New Zealand until they can go by rail or flying machine, or possibly afloat.

FOR DISTURBING PEACE.

Case Against Steve Borsch Was Dismissed This Afternoon.

The charge of disturbing the peace, brought against Steve Borsch by Martin Compton, who accused him of threatening to knock the latter's head off and of calling him vile names, was this afternoon dismissed. Compton neglected to subpoena witnesses. Borsch has been occupying a house belonging to Compton. It appears that the owner desired possession and when Borsch failed to vacate the premises Compton secured a padlock and fastened the door. Borsch came home last night and broke in the door. When Compton remonstrated, Borsch is said to have used language that frightened the former and a policeman was called and the door-breaker was arrested.

City Attorney C. H. Carter conducted the prosecution and Attorney Turner appeared for the defense. Justice Fitz Gerald rebuked the latter when he remarked that he wished to remind the court that from the evidence introduced nothing but dismissal could be the verdict.

"Mr. Turner," said the justice, "this court understands its business, sufficiently to conduct this case."

CHEHALIS DEAD.

Famous Pacer, Owned, Trained and Raced by Frank Frazier, No More.

Chehalis, the pride of the West, is dead. This famous pacer with a record of 2:04 1/4, died a few days ago in Vermont at the age of 14, after a distinguished career in which Frank Frazier, of this city, was responsible in starting.

Chehalis was foaled at Vancouver, Wash., in 1890, and belonged to Jay Beach. When a colt he was purchased by Mr. Frazier, who trained and for several years raced him. Mr. Frazier disposed of the horse about four years ago. Since that time the stallion never performed as well as when driven by his original trainer. Chehalis was the sire of several promising colts.

Large Acreage of Wheat.

J. G. Richardson, of South Cold Springs, is cutting with combines 600 acres of wheat, which will average between 25 and 30 bushels, with a strong probability of the latter figure being reached for the general average. The quality of every bushel so far is No. 1—there has not been a bushel of No. 2 reached yet. Mr. Richardson has 1600 acres in summer fallow, all of which he will sow to wheat this fall. Others in the same country will sow a larger acreage of wheat this fall than last.

Harvesting at Cold Springs.

Louie Hanson, of South Cold Springs, is cutting between 300 and 400 acres of wheat, of which Turkey Red comprises 80 acres. Mr. Hanson stakes his judgment on the lasting value of the Turkey Red, and the 80 acres planted of that variety is said to be as fine wheat as can be found anywhere in the Cold Springs country, of any variety whatever. It is believed that it will average not less than 20 bushels to the acre.

Howards to Boise.

The three Howards, vaudeville actors, well known in Pendleton, and who have been delighting the amusement loving public at various times during the past month, departed last night for Boise, where they will fill an eight weeks' engagement at Riverside Park.

BECK, the Reliable Plumber

FIRE ON COURT STREET

Last Friday on the corner of Court and Cottonwood streets I gave an exhibition of what my fireproof paint will do. On a roof that had been painted with "Downer's Everlasting Fireproof Paint," I placed two sacks of shavings and on them poured half a gallon of coal oil and lit it. The fire burned fiercely but did not burn through the shingles. This test should prove the merit of my paint. To those who are interested I will give full information. I can be found at the Alta House evenings or during the day. Sample of my work may be seen at James Crawford's residence, and at Platzoeder's tenant houses, where I painted the roofs. I am now at work on Mrs. Weber's residence. I am making a special rate to introduce this preparation, and if you want to protect your home from fire and preserve your roof from rotting from the weather, you can save money by using "Downer's Everlasting Fireproof Paint."
