

ANGING A GIRL AROUSSES EUROPE

Order of Popular Student
Russia is Bitterly Cen-
sured.

OPATKIN'S SILENCE STARTLES ST. PETERSBURG.

That the Russian Commander
So Hard Pressed That He Cannot
Messages to the Telegraph Of-
Part of Arabia's Cargo Is
Precarious Position of Rus-
Forces Realized in St. Peters-
Greatest Struggle of the War
Hourly Expected.

Aug. 5.—The greatest fever
and indignation prevails
among the student bodies and lib-
eral over the announcement that
young daughter of Professor Mer-
effsky had been hanged secretly
in St. Petersburg, for sending alleged
documents in packages of
to the Russian soldiers at the
front.

The beautiful girl was but 19 years
old, the youngest daughter of the
famous Russian educator and was a
favorite in court and student
circles, having been employed with
carriage, in preparing bundles of
reading matter and hand
bags of camp and hospital supplies
for the soldiers in the Manchurian
campaign.

The alleged seditious pamphlets
related of a few copies of a
supposed work of Tolstol's, a sermon
"Liberty" by a student under ban,
and a few tracts on Russian taxes,
by professor in the University of Hei-
delberg, Germany.

The "treasonable pamphlets," it is
said, were smuggled into the pack-
ages, with other reading matter select-
ed by the carline, and were not dis-
covered until they fell into the hands
of officers at the front.

The girl was at once taken into
custody, charged with high treason,
confined in the dungeons of the
Chesemburg fortress, and without
trial or opportunity to make a plea
for justice, was secretly hanged and
her record of the execution withheld
from the prison register, for fear it
would leak out and cause a revolu-
tionary outbreak among the students,
who almost adored the talented and
beautiful daughter of the favorite pro-
fessor of the Russian capital.

Indignation in Berlin.
Berlin, Aug. 5.—Sentiment among
students and socialists almost reaches
a point of frenzy on the receipt of
news of the official murder of the
young daughter of Professor Mer-
effsky, for the "crime" of sending
pamphlets to the soldiers at the
front in the Japanese war.

Consternation in St. Petersburg.
St. Petersburg, Aug. 5.—Kuropat-
kin's precarious position, hemmed in
by three Japanese armies north of
Cheng, is causing the greatest
frenzy in official circles.

The lights burned all night in Peter-
hof Palace, where the czar is staying
present and also at several of the
ministries, while at frequent inter-
vals, messages passed between the
czar and the ministers.

News of the engagement, the most
important and decisive of the war is
now expected. The public remains
at a high pitch of excitement, the bul-
letin boards being surrounded with
large crowds.

Two days' silence on the part of
Kuropatkin is worrying the public.
The general belief is that the com-
manding general is still retreating to
the north with his hands too full to
send dispatches, or that a battle is on,
making it impossible to send any ac-
count of the firing.

Arabia Carried Contraband.
Vladivostok, Aug. 5.—The prize
court has decided to confiscate such
portion of the cargo of the Arabia as
was consigned to Japanese ports, con-
sisting of flour and railway equipment.
The cargo is being unloaded, after
which the steamer will be released.
The court will consider the cases of
other ships sunk, four Japanese
schooners, a Japanese steamer, and
German and British steamers. The
cruisers are all being well cared for. The

Ocean Lines Suspend.

London, Aug. 5.—The Peninsular &
Oriental Steamship Company has an-
nounced the discontinuance of their
service to Japan owing to the impos-
sibility of determining what may be
termed contraband. The Ocean &
China Mutual Company has issued
similar notices.

Official Count of Losses.

London, Aug. 5.—Baron Hayashi,
the Japanese minister today issued an
official count of the dead and wound-
ed of the last three battles on the en-
veloping movement around Hai Cheng
and Liao Yang.

In the battles of Yushu Linzu and
Yanli Seuling, the Japanese lost 946
killed and wounded, while the Rus-
sians' casualties are estimated at
at 2000. At Simu Cheng the Japanese
losses were 194 killed, 666 wounded.
Seven hundred dead were left on the
field by the Russians after this fight,
which were buried by the Japanese.

GOLD ON COLVILLE.

Rich Discovery by Seattle Man in Un-
expected Locality.
Seattle, Aug. 5.—Charles Veder, re-
siding at 117 Leary street, Ballard,
has just returned from the Colville In-
dian reservation, where he lately dis-
covered what promises to be one of
the richest, if not the richest gold
mines in the western hemisphere. Veder
claims to have found a mountain
that is filled with gold bearing ore of
a high quality.

This mountain is located near the
town of Meteor, which lies in the
south half of the reservation and
about 60 miles in a southerly direc-
tion from Republic. Here Mr. Veder
has located six claims, which practi-
cally covers the entire mountain.

"The ore will run from \$3 to \$500
per ton," said Mr. Veder, "but I es-
timate that it will average about \$15
a ton."

Hartford, Conn., Aug. 5.—Henry
Osborne, secretary of the Dunham

missioner, was murdered at his home
this morning by a negro formerly in
his employ. Enmity and robbery, the

for the crime. The negro was dis-
charged by Osborne recently.

CATTLEMEN WIN WITH RAILROADS

MONTANA SHIPPERS CAN NOW
ROUTE THEIR STOCK

Arbitrary Rules in Force on Northern
Pacific and Great Northern Have
Been Partially Abrogated—Shippers
Can Now Designate Their Choice of
Roads From St. Paul to Chicago—
Means Much to Stockmen.

St. Paul, Aug. 5.—A meeting was
held in the Great Northern building
yesterday by prominent cattlemen of
the West and officers of both the
Great Northern and Northern Pacific,
at which the question of certain
charges in freight rates and regula-
tions in force pertaining to the hauling
of cattle from the range country of
Montana and South Dakota was dis-
cussed. The railroad officers refused
to discuss the matter at present, and
the cattlemen said the changes which
they had argued had been taken under
advisement by the companies.

They stated, however, that the com-
panies had conceded to the shippers
the right to route the shipments from
the original shipping point to Chicago.
For some time past it has been the
rule of the companies to accept ship-
ments at original points of shipment
without routing, and when they reached
St. Paul to forward them on such
lines as they preferred.

Under this rule, the Great Northern
and Northern Pacific naturally routed
most of the shipments over the Bur-
lington road from St. Paul to Chicago.
Under the new agreement, the ship-
pers will be allowed to designate the
road over which they will ship the
shipment to go from St. Paul.

It is probable that the request of
cattlemen for the abrogation of agree-
ment between the Chicago-St. Paul
roads, whereby all stock trains are
prohibited from making the trip be-
tween the two cities in less than 24
hours, will be granted.

FIEND MURDERS BRIDE AND GROOM

Harry Fisher of Philadelphia
Attempts Robbery and Kills
His Victims.

HIS OWN SISTER AND BROTHER- IN-LAW SHOT TO DEATH.

Frantic for Money a Fast Young Man
Enters Room of His Newly Married
Sister, is Detected in the Theft and
to Hide His Crime Kills Her and
Her Husband—After Shooting Him-
self He Flees, Leaving a Trail of
Blood But Returns and Confesses
and is Taken to Hospital.

Philadelphia, Pa., Aug. 5.—Mr. and
Mrs. Joseph Scharon, well to do, bride
and groom, were murdered in cold
blood this morning by Harry Fisher,
a brother of Mrs. Scharon.

Fisher entered the house for the
purpose of robbery and upon being
detected in the bedroom of his sister
and brother-in-law, killed them both.
He then shot himself, but the wound
was not fatal and it was his last car-
tridge. He left the house, but return-
ed while the investigation was under-
way calmly confessed the deed and
was sent to a hospital.

Fisher is known as the "scapegoat"
of his family, and has gambled and
played the races heavily, and it is sup-
posed was frantic for money.

His sister was a highly respected
woman, just married to Joseph Scharon,
a wealthy business man, and Fisher
took advantage of his knowl-
edge of the premises to enter the ele-
gant residence.

When the horrible crime was dis-
covered by neighbors who heard the
shots and made an investigation, Mrs.
Scharon was yet writhing in the last
agonies of death, her husband was
dead in a pool of blood on the floor,
having leaped out of bed when shot,
and the tell-tale trail of blood led
a slight wound upon himself before leav-
ing the house, led from the front door
down to the pavement and up the
street.

While horrified friends were search-
ing for a clue, Fisher staggered into
the room and confessed, after which
he collapsed from loss of blood.

ALL COMMEND WORK OF THE LEAGUE

Leon Cohen—Undoubtedly perma-
nent good will result from the organi-
zation, but its capabilities for devel-
opment and attracting immigration

if it is expected to.

STRIKERS CLAIM CERTAIN VICTORY

Run on the Drovers' Bank at
Chicago Almost Causes a
Panic.

PACKERS SAY STRIKERS ARE ALL RETURNING.

Alleged That 400 Returned to Work
This Morning at St. Joseph—Don-
nelly Says Independents Are Ruin-
ing Beef Trust's Business—Butch-
ers' Union Inflicts Serious Damage
on the Packers by Enlisting Sympa-
thy of Cold Storage Men—All Out-
side Points Waiting for News From
Chicago.

Chicago, Aug. 5.—On the return of
President Donnelly, of the Butchers'
Union, today, brought definite plans
to stop the delivery of meat from a
number of cold storage warehouses.
In discussing his trip to the Western
packing centers, Donnelly claimed the
enthusiasm of the strikers is every-
where unbounded. The western towns
are all as completely tied up as Chi-
cago.

Practically no work is being done.
The meat trust is surely being under-
mined by the independents. A run
was started on the Drovers' Bank in
the stockyards this morning, by the
strikers, who withdrew their deposits
because of the alleged use of the in-
stitution by the packers to pay the
strike breakers in cash instead of time
checks. On the other hand, the pack-
ers rest serene claiming that the
strike is about broken and in a week
all will be back.

Awaiting News From Chicago.

Detroit, Aug. 5.—At the closing ses-
sion of the American Federation of
Catholic Societies this morning a
number of resolutions were adopted,
including one on the school question,
advancing this solution: Let no pub-
lic moneys be paid out for religious
instruction in any school; let the ed-
ucational per capita tax be disbursed
for results, in purely secular studies
only, in our Catholic schools; our
teachers receiving their salaries, as
their teachers receive theirs.

To ascertain these results, let our
schools be submitted to state or city
examinations, thus will the great prin-
ciple of our government that no pub-
lic moneys be used for sectarian pur-
poses, be preserved intact.

OREGON EXHIBIT IS EXCELLENT

DR. A. LE ROY CONTINUES
HIS WORTHY WORK.

Agricultural and Fruit Display at the
Oregon Information Bureau is Rap-
idly Increasing—Moorhouse Photo-
graphs Will Be Used to Portray the
Wonders of the Oregon Farm.

"Now that the Oregon Improvement
League has been launched," said Dr. A.
Le Roy, of the Oregon Information
Bureau, "it remains for the people of
this state to work together if they
would be successful. I am heartily
in accord with the league and its
plans, but I agree with Tom Rich-
ardson, that everyone must put his
shoulder to the wheel and work in ac-
cord with his neighbor if results are to
be accomplished.

"Enthusiasm is all right, but it will
not accomplish very much if there
isn't a little work attached."

Dr. Le Roy arrived in Pendleton last
night from Portland and left this
morning for La Grande and Baker
City. He is gathering up the exhibits
recently collected for shipment to the
bureau in Portland. The doctor has
been at work in Eastern Oregon for
the past 10 days securing information
and exhibits for the bureau.

In this city he made arrangements
for a series of Moorhouse pictures,
which will be added to the collection
at the union depot in Portland.
Dr. Le Roy will be in Eastern Ore-
gon several days gathering up his new
exhibits and after his return to Port-
land will continue his operations in
the central and western portions of
the state.

Returning to Umatilla County.

W. R. Howard and wife, of La
Grande, are in Pendleton visiting with
Mr. Howard's brother, Rev. M. V. How-
ard, and with Mrs. Eliza Fraker, who
is Mrs. Howard's mother. Mr. How-
ard has sold his farm in the Grand
Ronde country and will probably re-
locate again in Umatilla county, where
he resided many years on a Tutuilla
farm. He has followed stock raising
and general farming in the Grand
Ronde as here, and will re-engage in
the same occupation here when he
finds a location.

OREGON NEEDS BETTER ROADS

James W. Abbott, Govern-
ment Good Road Expert,
Gives Timely Advice.

SAYS OIL AND MACADAM FOR COUNTRY ROADS.

Veteran Highway Builder Tells of the
Work of the Government at Eugene
—Absolute Failure of Congress to
Appropriate for This Work Has Al-
most Prevented the Construction of
the Model Road—Will Probably
Build Small Amount of Model Road
at Bellingham.

"Oil on a macadam base" said
James W. Abbott, of Denver, Col.,
superintendent of good roads division,
department of agriculture, who passed
through Pendleton today on his
way to Walla Walla, "in my estima-
tion, is the ideal road for this coun-
try."

"No road can be permanent or a
success unless it has a macadam
base and one with such a foundation
and finished with oil and sand would
last in this part of the Northwest. I
understand that the formation of the
soil in Eastern Oregon is such that it
makes a frightful road in summer, but
the oil and macadam road that I
speak of would be firm and hard at
all seasons and would never be dusty
or muddy."

Mr. Abbott arrived this morning
from Eugene where the government
intends building a sample of ideal
road. He goes to Walla Walla for
the purpose of conferring with good
roads enthusiasts there, and will later
return to Eugene. When asked con-
cerning the sample pike at Eugene,
Mr. Abbott said:

"We intended to build the road this
summer, but owing to a sort of mis-
understanding, I'm afraid we will
have to postpone the work until next
year. You see, the government does
not appropriate enough money for the
construction of these sample high-
ways, and they have to be built by co-
operation. The community furnishes
the materials and labor, the railroads
the transportation, the machinery,
companies the necessary rollers, grad-
ers and other implements and the
government the supervisors."

"This country must be termed a
'far' one, I mean by that that it is
far from the larger manufacturing of
the East. Through miscalculation the
machinery companies failed to have
the heavy rollers on hand. They are
not kept in stock by the branch
houses and it is too late in the season
now to have them brought from the
East. The rainy season would be up-
on us before the work could be fin-
ished."

It was our intention to finish two
stretches of sample road in the North-
west this year. We have an invitation
to make a practical demonstration at
Bellingham, Wash., during the annual
state good roads convention, to be
held there in September, and we will
endeavor to be present."

Speaking of oil roads, Mr. Abbott
declared that such highways were not
expensive. "It is my desire to see oil
and macadam highways throughout
this state, but I will not venture a
guess as to when they will ever be
constructed."

Mr. Abbott referred to the driveway
in Golden Gate Park, San Francisco,
as an ideal sand and oil road. The
roadbed is made of red sand rolled
hard and then sprinkled with crude
petroleum, rich in asphaltum.

"About 400 barrels of oil to the
mile," continued Mr. Abbott, "are used
in the building of this driveway. The
oil rapidly evaporates and leaves the
asphaltum which combined with the
sand makes a regular cushion. In the
care of oil roads, it is necessary to
sprinkle a little oil each year to keep
them in good condition and to keep up
the surface."
