

The Sheen of Pearl

Reflected from perfect teeth can easily be destroyed by improper dentifrices. There are many preparations that will whiten teeth, but few that preserve the enamel while they whiten.

Dentifoam

Keeps teeth white while it beautifies them. It arrests decay, hardens the gums, removes discolorations, sweetens the breath—and stops there.

Price 25 cents.

GENERAL NEWS.

Ex-Premier Sir George Dibbs, of New South Wales, is dead.

The new city water supply for Manila will be brought 16 miles at a cost of \$2,000,000.

The thermometer registered 120 degrees on July 31 in Manchuria during the battle of Hal Cheng.

Field Marshal Oyama, of the Japanese army, has established headquarters in the field with the army.

The Stars and Stripes have been hoisted over American residences in Port An Prince to protect the residents.

Swing to the awful heat in the Orient, most of the bodies found on the battlefields are burned to prevent sickness.

The democratic deadlock at St. Joseph was unbroken when the convention adjourned to meet again on August 18.

Five volunteer Russian vessels are now ready to leave the Black Sea to sweep upon the commerce of the Mediterranean.

Driven insane by the packers' strike, Alfred Day, a meat inspector at Cedar Rapids, Iowa, committed suicide Friday.

Mrs. Lena Chambers and Mary Benkes, of Boulder, Col., were drowned by a cloudburst, while asleep in their camp in a canyon near Boulder Friday.

A riot followed the adjournment of the democratic convention at Lexington, Ky., Friday. The police were called to quell the disorder and had to sub several rebellious delegates.

Mrs. May Smith, wife of a Santa Fe brakeman, of Denver, gave her three little children poison Friday and then swallowed a large quantity herself. One child died and the mother cannot recover. She was despondent over separation from her husband.

PACIFIC NORTHWEST NEWS.

The thermometer reached 105 at The Dalles Friday, the hottest day registered there.

Work on the general building at Astoria has been resumed after a long suspension.

It is now estimated that the Morrison street bridge in Portland, will be completed by January 1, 1905.

The Klamath county irrigation project is adopted by the government. 250,000 acres of land will be reclaimed.

Katie Busch, an 18-year-old Polish girl, is under arrest for burying her own-born babe alive at Franklin, Wash.

Albert Martin, the Siletz Indian, found guilty of manslaughter for killing U. S. Grant, a tribesman, will get a new hearing.

President A. H. Devers, of the Oregon irrigation association, will address a mass meeting of irrigators at Astoria on August 9.

On August 31, 287 Knights Templar of Pittsburg, Pa., will stop over for a visit to Portland, while en route to the San Francisco conclave.

William Parker, a pioneer miner and prospector of the Pacific coast, died near Geiser, Grant county, Friday. He was a '49 prospector in California.

The Northern Pacific is protesting against its assessment at Chehalis, Wash. The company turns in the value of the rolling stock at \$73,000, while the assessor fixed the value at \$200,000 for Lewis county.

EVOLUTION OF HORSE RAISING

C. L. COX REVIEWS HISTORY OF UMATILLA COUNTY.

In 19 Years' Experience Has Seen the Rise of the Industry Through All Its Phases—John Vert Brought One of the First Shires Ever Imported Here—Cox and Minor and Later Frank Frazier Imported Blooded Stock.

C. L. Cox, the horseman talks entertainingly of the history and prospects of the horse industry in Umatilla county, after 19 years' experience within its confines at handling everything from the crudest broncho to the blooded trotters and heavy drafts.

When Mr. Cox's observations here began in 1885, there were just two thoroughbred horses in the county—both Percherons; in addition there was being stood one grade roadster, which was a fine animal, but by no means a thoroughbred. Before that two trotting stallions had been here for a season and two running stallions.

The effect of such a heterogeneous breeding upon a stock made up of a little of most anything that was ever called horse, can be imagined. There were no results that were in any sense consistent, or that appealed to the lover of a good horse, or to one who looks at a horse simply from the dollars and cents standpoint.

As mentioned, the original stock was a conglomerate mix-up—a streak of Morgan, Clyde, Percheron, a trace of American Standard Running stock, bred across the most nondescript general stock that ever infested any new country. And not a blooded horse anywhere, with the fugitive exceptions noted. One of the first blooded animals brought into the county was by John Vert, who brought in an imported Shire—a very fine animal, whose descendants can be recognized to this day.

In 1886 Mr. Cox, and his partner, Mr. Minor, brought to the county Abicore, a registered trotter, and his impress is still seen throughout the county.

In 1891 Frank Frazier brought to the county two blooded trotting stallions—Chenalis and Westfield, and the improvement of roadsters and of the lighter built all-purpose horse in Umatilla county really dates from the bringing of the three horses named above, and became noticeable from that time on. All these horses have descendants all over the county, in fact, all over Eastern Oregon.

Mr. Cox speaks of the excellence of many of the Umatilla county riding horses of the early days. They were the product of the original pony stock and occasional racing horses brought across the plains by movers. Nearly every large caravan had at least one man with a penchant for fast horses, and these running horses were the very first well-bred animals brought into this country, and not many of them were blooded or registered, although many of them were excellent animals. Their influence was not lasting, and few traces can be discerned now of their descendants.

Mr. Cox does not believe there is now in Umatilla county a first-class saddle stallion, whereas there should be several, and they should be well patronized. Every condition here is favorable to the development of a splendid strain of saddle horses.

The only way to breed for a saddle horse at present is to breed to a trotter, and such procedure is never satisfactory because trotters do not have the conformation to begin with.

Mr. Cox thinks there should be money in breeding for pure saddlers. He believes that \$10,000 could not now purchase 10 really first-class saddlers in Umatilla county. To get the best saddler is a matter of crossing the American thoroughbred with animals which nature has chanced to build and gait for saddlers.

For the best all round farm horse Mr. Cox believes grade Percheron, Clydes and Shires are preferable, though the tendency is ever toward too heavy a horse for the average farm purpose. When this results the heavier animals can be marketed in the cities, and the lighter animals kept for farm work.

He regards the best all round roadster to be the product of the Standard American Trotter crossed with the most suitable native stock wherever it comes from, or of whatever breed it may be. That is, that kind of a cross is his first choice. His second preference is for a cross with the Morgan—a horse too small for all purposes, but an animal which has never been equaled for all purposes for its size.

REPEAT THE PLAY.

Fischers Were Seen at Their Best Last Night.

The Fischers in "The Flag of Truce" at the Frazier last night, were seen at their best. Rounds of applause greeted every scene. This stirring military drama made such a decided hit that it will be repeated this evening. A. R. Thorne as "Dad Hewins" proved himself a very clever portrayer of character and his emotional work was forceful.

Little Miss Gladys Mitchell, as "Master Eddie," carried off the part with credit. The attendance last night was a little better than usual, but it is anticipated that a repetition of "The Flag of Truce" his evening will bring out the largest crowd of the week.

The Fischer company will close its engagement in this city Sunday night by presenting the society drama, "Sex Against Sex."

Midsummer clearance sale at Teutsch's.

WILL REFORM PENDLETON.

Colored Minister From Around the World Takes Up the Arduous Task of Regeneration.

"Tell them that I am dirty, ragged and poor, so they won't be disappointed nor surprised when they see me," said Rev. E. H. Swackhammer, last evening, as he handed in a notice of a missionary meeting to be held by him in this city in the next few days.

Rev. Swackhammer is a colored itinerant preacher, and arrived from a trip around the world yesterday evening, and will arrange to hold religious services in some of the churches.

When he arrived in town he was travel-stained and rusty appearing, and carried his entire earthly belongings in a large grip swung around his shoulder.

Calling at the office of the East Oregonian, he was furnished a list of the ministers in the city, and also told where he had been in his five years' wanderings around the world.

His last stop was to serve as chaplain of the 24th (colored) infantry in the Philippines, and he now holds religious services in the different cities which he visits and from the roll of letters and recommendations which he carries, he has had a wide experience as an evangelist, in his way.

Before going on a visit to the different ministers last evening, he brought out from the depths of his luggage a ministerial coat, bristling all over with the ministerial air, and sallied out to assail the wickedness of Pendleton, which he says is above par.

"You may say," he remarked, "that I am ragged and poor, for I don't want anybody to be disappointed in me." It is true, his travels had reduced his clothing to mere ghosts of garments, consisting principally of fringe and rents, but that did not prevent the wearer from being an enthusiastic religious worker and on ascertaining that there is no Y. M. C. A. here, he decided that it was a fertile field for some genuine missionary work.

Heppner Family Stricken.

The burial in one grave of the two little children of Mr. and Mrs. Mack Gentry has been the saddest event of the past week. On July 27, Guy Ross Gentry, the bright little 4-year-old boy, died from dysentery, after a short but painful illness, the funeral being arranged for Friday, the 29th. On that day the baby, Joseph Ray Gentry, aged 2 years, passed away from the same complaint. The little ones were buried in one grave on Friday, and the parents were rendered childless at a blow.—Heppner Gazette.

End of Bitter Fight.

"Two physicians had a long and stubborn fight with an abscess on my right lung," writes J. F. Hughes of DuPont, Ga., "and gave me up. Everybody thought my time had come. As a last resort I tried Dr. King's New Discovery for Consumption. The benefit I received was striking and I was on my feet in a few days. Now I've entirely regained my health." It conquers all coughs, colds and throat and lung troubles. Guaranteed by Tallman & Co.'s drug store. Price 50c and \$1.00. Trial bottles free.

A wagon road, for which congress appropriated, will be built through the North Yakima forest reserve.

GIVEN AWAY SOMETHING for NOTHING THIS WEEK AT THE FAIR

From Saturday, June 30, to Saturday, August 6

Mr. Smith—It cures sometimes.
Mrs. Smith—Cures what?
Mr. Smith—Hams.

"The Breakers"

Where to Stop at North Beach

The Breakers Hotel is conducted to attract the best patronage, and is a summer hotel that is unsurpassed on the Pacific Coast north of the famous California beach resorts.

The building has an ocean front of 100 feet, is 76 feet wide and four stories high, or 73 feet from the ground floor to the top of the observatory.

It has handsomely furnished rooms, single or en suite, for 250 guests, each room being carpeted.

The house is lighted by electricity with electric lights and electric call bells in every room, and these lights make it one of the most brilliant beacons on the entire coast.

The entire lower floor is thrown open to the public, and, being beautifully carpeted, the spacious reception room and large, airy halls always form favorite gathering places for guests. The billiard and pool room is also quite popular for merry gatherings.

An Aeolian and Pianola in the commodious parlor furnishes delightful music at all times, and musicals are pleasant features during the entire season.

The Breakers has a regular orchestra which furnishes music for informal dances and balls, and the large dining room, with its smooth, hard floor, makes an ideal hall for regular dancing parties.

An abundance of fresh and salt water fish, clams, oysters, crabs and other sea food is always on our menu; our entire supply of milk, butter and cream comes from our own herd of Jersey cows, and poultry and eggs are supplied from the hotel farm adjoining the grounds.

There are hot and cold, fresh and salt water baths in the house, with private baths and toilets.

The waves of the ocean at high tide roll within 200 feet of the hotel, and the beach in front is superb for surf bathing.

On the grounds are bowling alleys, golf links, tennis courts and croquet sets; on the lake, just back of the hotel, is a fleet of sail and row boats, and on Shoalwater bay, just east of the lakes, is a gasoline launch for parties of fishermen, picnickers or others who prefer the warm, still-water bathing to the tumbling of the surf.

All trains stop at the railroad station in the hotel grounds, and no crowding into hotel omnibuses or walking in sand is necessary, since the hotel ground is a perfect velvety lawn, where the guests are practically landed at the hotel door.

The Breakers Hotel is located at Breakers Station, a regular ticket office, where all trains stop. It is one and a half miles north of Long Beach Station.

In purchasing tickets see that they read to Breakers, Wash., and have baggage checked through to that point.

Telegraph and telephone connections in the hotel. Address all correspondence as follows:

HOTEL BREAKERS, Long Beach, Wash.

GLASSES THAT DO NOT are much worse than none at all to an OPTICIAN

When the eyes are weak, the glasses will be absolutely correct. No charge is made here for the sight and very little for fitting.

SPECTACLES OR EYEGLASS for reading or general purpose. We carry a full line of gold and silver and eyeglasses. Prices moderate.
