WAS BAD MEDICINE

DR. ELAKELEE HAS RARE EXPERIENCE WITH INDIANS.

Umatilla Could Not Understand How a Electric Machine Could Bring Back Sight to the Eyes—Tu Slaps Reluctantly Consents to Have Electricity Applied to His Bare Back—It Causes a Disturbance When the Batteries Are Turned On.

Dr. Lynn K. Blakeslee of this city, has had some exciting experiences with the Umatilla Indians since installing his static machine with X. Ray and vacuum tube attachments, in his office in the Judd building.

A few weeks ago Mrs. Fred Parr, a blind from the reservation came to Dr. Blakeslee for treatment for blindness, having been directed to him by friends on the reservation. She had been absolutely blind for some time and when she began to see a little, the Indians thought that machine which could make sight come back to the eye, must be "great medicine," and many of them flocked in to see it work.

They viewed it in wonder, at a safe distance, and saw the nineteen kinds of electric sparks flying from the tubes and attachments, but would not venture close to it.

Upon being reassured by Mrs. Parr that it was harmless and had "big medicine" in it, several of the other Indians consented to be treated with it for catarrh and tuberculosis, and some of their antics when the electric batteries and vacuum tubes were applied to them were worth the cost of the machine to the doctor, who appreciates fun.

Tu-Slaps came in to be treated for kidney trouble, and the vacuum tubes carrying several hundred volts of electricity had to be applied to his bare spine. Tu-Slaps objected to stripping off, especially in the presence of the doctor, but finally consented to tuck his shirt up under his arms so the machine could be applied to his back, and upon the solemn assurance of Mrs. Parr that the machine was not dangerous, the big Umatilla seated himself in the chair, and placed his mossed feet on the zinc plate, ready for the "juice."

Dr. Blakeslee is very nervous himself, and although he knows that the electricity generated by the machine is harmless, he involuntarily jumps when he feels the sparks playing at the ends of his fingers, or especially when he comes unexpectedly in contact with some portion of the charged apparatus.

In applying the tube first to the bare spine of Tu-Slaps, who was seated lightly in the chair, suspicious of the infernal machine under the most favorable circumstances, Dr. Blakeslee accidentally touched his fingers to the tube, and this time, jumped a little higher than usual, at the same time touching the highly charged tube to Tu-Slaps' back, who, with a warwhoop landed out of the chair into the waiting room, where two ladies were seated awaiting their turn.

The appearance of the half nude Indian, and the confusion caused by his sudden departure from the private office required considerable explanation from the doctor.

Tu-Slaps was induced to come back and take the medicine, but he made the doctor promise not to jump. Tu-Slaps thought it must be a dangerous contrivance if the operator and owner of it made such demonstrations while handling it. Since Tu-Slaps began taking treatment, however, several Indians, among them Cayuse Mary, and a very old Indian man have begun treating with the machine, and its wonderful history has gone all over the reservation.

Suicide Prevented.

The startling announcement that a preventive of suicide had been discovered will interest many. A run-down system and despondency invariably precede suicide and something has been found that will prevent that condition which makes suicide likely. At the first thought of self-destruction take Electric Bitters. It brings a great tonic and nerve will strengthen the nerves and build up the system. It's also a great stomach, liver and kidney regulator. Only 50c. Satisfaction guaranteed by Tallman & Co., druggists.

NEW YORK REPUBLICANS.

Convention Will Be Held on 50th Anniversary.

New York, Aug. 11.—Pursuant to the call of Chairman Odell the republican state committee went into session at the Fifth Avenue hotel this afternoon for the purpose of fixing a time and place for holding of the republican state convention. It is expected that the committee will select the second week in September as the time for the state convention.

During that week the fiftieth anniversary of the organization of the republican party is to occur, and that fact is being urged as one of the reasons for the selection.

YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that's "in style," but the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of Dandruff it is a sure sign that these countless germs are busily at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

F. W. Schmidt & Co., special agent.

sons for the holding of the convention at that time. If the republicans choose that week the democrats, it is understood, will choose the week following. This would permit six weeks' campaign in New York, which leaders on both sides are inclined to think would be long enough.

FLOATING HOSPITAL.

Benevolent Institution Supported Partly by the City.

Mrs. F. W. Cannon, manager of the Wayside Mission hospital for the past year, has leased the old steamer Idaho, which is owned by a benevolent corporation headed by Frank Back and Judge Roger S. Greene, says the Seattle Star. The institution will be known hereafter as the Wayside Emergency hospital. It is believed that the new arrangement, together with the \$400 received monthly from the city, will place the hospital on a better financial basis.

During Mrs. Cannon's management of the hospital a debt of \$1200 has been paid off.

Baraca Bible Class.

St. Louis, Mo., Aug. 11.—The eighth annual convention of the Young Men's Baraca Bible Classes of America began today in the Delmar Avenue Baptist church with M. A. Hudson of Syracuse, founder of the order, presiding. The sessions will last two days. An interesting program has been arranged for the open meeting tonight which will be in charge of R. N. Simms of Raleigh, N. C. Other prominent participants in the convention are Dr. J. William Ott of Grand Rapids, Mich., Prof. E. M. Traber of Fort Collins, Col., Rev. W. W. Burks of Mason City, Iowa, Rev. Dr. W. J. Williamson of St. Louis, and Dr. Joseph Broughton, of Atlanta, Ga. The Baraca classes were first formed in Syracuse, N. Y., in 1890, since which time the membership has increased to over 100,000. Reports to the present convention show that the growth in membership has been especially notable throughout the West and South.

Philippine Veterans Meet.

St. Louis, Mo., Aug. 11.—Philippine veterans, members of the National Society, Army of the Philippines, are rounding up in the World's fair city for their fifth annual reunion, which will be in session during the remainder of this week. The president of the society is Brigadier General Chas. King of Milwaukee. The delegates to the reunion come from Utah, North Dakota, Wisconsin, South Dakota, California, Colorado, Illinois, Iowa, New Jersey, Nebraska, Michigan, Kansas, Pennsylvania, New York, Montana, Missouri and Minnesota. The big feature of the reunion will be the celebration of "Philippines Day" at the exposition tomorrow. There will be a parade of the veterans followed by exercises in which prominent members of the society, army officers and officials of the World's fair will take part.

Texas Epworth Leaguers.

Houston, Texas, Aug. 11.—This was another busy day for the delegates to the Epworth League state conference. The proceedings of the day were ushered in with the customary sunrise prayer, meeting followed by a service of songs and praise. Among the addresses and papers presented during the morning were the following: "Consecrated Leaguers," W. E. Hawkins, Fort Worth; "value of Enthusiasm in the League Service," W. T. Blakeney, Glenrose; "Necessity for Preparation in Devotional Work," Charles B. Smith, Pecos City; "How the Charity and Help Department Can Be Beneficial to the Church," Miss Maryette Woolford, Galveston; "The Field of Battle," Rev. A. D. Porter, Cleburne.

Savannah's New City Hall.

Savannah, Ga., Aug. 11.—This was a gala day in Savannah, the occasion being the laying of the corner stone of the new city hall. Business was largely suspended and at the request of Mayor Myers the day was observed as a general holiday. The ceremony was conducted under Masonic auspices and was accompanied by addresses from the mayor and other city officials. A notable feature was the participation of the mayors and other officials of nearby prominent cities in the state, who are here in attendance on the convention of the league of Georgia Municipalities.

Veterans Going to Boston.

Des Moines, Iowa, Aug. 11.—Grand Army veterans of Iowa are rounding up in Des Moines preparatory to leaving tonight for Boston to attend the national encampment. Large delegations from Cedar Rapids, Grinnel, Indianola and other cities of the state will be included among the veterans traveling on the Iowa special train. The trip will be made by way of Chicago and Niagara Falls.

Senator Fairbanks the Speaker.

Marysville, O., Aug. 11.—Senator Fairbanks, republican nominee for vice-president, was the speaker today at the Old Home week celebration here. The address was made at an old-fashioned basket picnic which was attended by men, women and children from far and near. Senator Fairbanks was accompanied by Mrs. Fairbanks, who is a native of this county.

From Steam to Electricity.

Buffalo, N. Y., Aug. 11.—The Vanderbilt are said to be planning to equip the entire West Shore railroad with electricity and to adopt this motive power for the Niagara Falls and Lewiston branch, the Rome, Watertown & Ogdensburg and the Oswego branch of the New York Central. The plan as outlined calls for the construction of a power house at Niagara Falls to cost \$24,000,000.

CHURCH UNION JEOPARDIZED

INFLUENCE OF DECISION OF THE HOUSE OF LORDS.

May Interfere Radically With Plans for Church Union in America—It Appears to Almost Completely Neutralize All That Had Been Effected to That End in the British Isles—Six Presbyterian Church Bodies in the United States.

New York, Aug. 11.—Fears are expressed by leading Presbyterian divines of this and other cities that the decision just handed down by the House of Lords in the Free church of Scotland case may militate against the carrying out of plans for the union of various denominations in this country, plans which were expected to culminate successfully in the near future.

A union of the Free church and the United Presbyterian church was effected four years ago. The union was opposed at the time by a handful of ministers of the Free church, who carried the case to the house of lords. The latter body has now decided the case in favor of the dissenting ministers and has awarded to them the entire property and funds of the Free church of Scotland, aggregating nearly \$55,000,000.

The result of this case, say leading Presbyterian ministers here, shows that in the church unions now contemplated in America the greatest care must be exercised as to the legal side of the procedure, lest the minority oppose the union, as in Scotland, may come in possession of all the church property.

Among the unions now being discussed in this country are the Cumberland Presbyterians with the Presbyterian church in the United States of America; the Reformed Dutch church with the Presbyterian church, South, and the Associated Synod of the South with the United Presbyterian church.

Fair a Sure Go.

Baker City, Aug. 11.—S. O. Correl, secretary of the Baker County Fair and Speed Association, was out with his stock book delivering stock Monday. Mr. Correl says it is absolutely essential that all subscribers to the stock should pay up as the cash is needed with which to complete the purchase of the grounds, etc. Of the \$4900 to be raised \$1200 was collected in Monday afternoon. District State Fair Commissioner George Ebel is anxious for this matter to be hurried up with, in order that he may know what to do. He has \$1500 state premium money, and wants to announce the premiums as soon as it is possible.

NUMBER ON PAPER MONEY.

How to Tell Without Seeing the Figures if it is Odd or Even.

"If any one comes up to you and wants to bet you that he can tell whether the number of any of Uncle Sam's paper money is odd or even by looking at that part of the bill on which the number does not appear, shun him as you would the plague," said a guest at the Hotel McKay the other night.

"Why? What is the joke?" asked another guest.

"Only this," replied the first: "I was out this afternoon with a number of men with whom I have business dealings. We ate lunch, and then one man wanted to bet me that he could call the even or odd on the number of any bill I had, the loser to pay for the lunch. I took a bill from my pocket, folded it so that the number did not show, and after he had looked at it he said, 'Even.'"

"It was even. Soon afterward I got stuck for the cigars the same way. After I had been done four or five times they explained to me that all of the bills marked 'A' and 'C' were odd, while those marked 'B' and 'D' were even. It cost about \$6 to find it out, but I guess it was a good investment at that. It is the same on all bills. Be careful when attempting to do the work not to take the serial letter in front of the number, but hunt for a small letter on the left hand side of the bill."—Duluth Herald.

ANCIENT BABYLON.

Its Great Wall Was One of the Wonders of Those Days.

According to Herodotus, the ancient city of Babylon stood on a broad, level plain and was an exact square of fourteen miles each way, making the entire circuit of the city fifty-six miles. It was protected both by a wall and a moat, the latter being broad and deep and kept constantly filled with water. But the wall was the wonder of wonders, being 93 1/3 feet in width and an even 200 feet in height. This monster barrier was provided with 100 gates, all of solid brass, the lintels and side pieces being in bronze. Cross walls ran along the banks of the Euphrates, each provided with twenty-five gates, which corresponded to the number of streets running in each direction from the river.

The most remarkable edifice inside the wall was the temple of Bel, a pyramid of eight square stadia. On the summit of this pyramid stood a pure gold image of Bel forty feet high, two other smaller figures of the same precious metal and a golden table forty feet long and fifteen feet wide. This wonderful city first came prominently into the history of the world in the year 747 B. C., but since the time of Alexander the Great it has been a ruin, the site having at one time been entirely lost.

New spring shirts. The Boston.

Stomach Troubles

cured by

Under all curable conditions

Mr. D. Kauble of Nevada, O., was cured by Kodol of stomach trouble which had effected his heart.
