## ROBBED EMPLOYER

GEO. LAMONT USED MONEY BELONGING TO C. W. IRWIN.

Employee of the Delta Candy and Ice Cream Parlors Entrusted With \$700 With Which to Purchase Stock in Portland, Spends it in Hilarity and is Now Under Arrest—Sheriff Taylor Will Arrive With Prisoner in the Morning—Lamont a Trusted Employee.

George Lamont, employed for the past five months as a candymaker in the Delta confectionary, was arrested in Portland today by Sheriff T. D. Taylor, on a charge of obtaining \$700 by false pretenses from C. W. Irwin, proprietor of the candy store. Sheriff Taylor and his prisoner will arrive in Pendleton tomorrow morning.

A special dispatch to the East Oregonian from Portland states that Lamont has admitted spending the money and having a good time.

"George Lamont entered my employ last March," said Mr. Irwin this afternoon, "but previous to his coming to Pendleton I knew nothing of the man. He was an expert candymaker and I had explicit confidence in him. About three weeks ago he went to Portland on a vacation and while there I sent him \$700 with which to purchase goods for the store.

"We had had an agreement that he was to do this before he left, but when the goods failed to arrive I began an investigation which led me to secure a warrant for his arrest.

"He has broken his agreement with me and I feel able to prove that the \$700 I sent him was not intended to be used for the satisfaction of his personal desires."

Sheriff Taylor departed for Port-

land with a warrant charging Lamont with obtaining money under false pretenses, last night. The man was easily located by the aid of the Portland officers and taken into custody.

### RESIDENCE DAMAGED.

Fire Caused a Loss of \$700 to W. S. Atchinson's Home.

Fire last night damaged the residence of William S. Atchinson to the extent of about \$700. The house was insured for \$1000 and the furniture for a like amount. Most of the furniture was saved. The principal damage to the building was in the roof. Prompt action by the volunteer fire department saved the property from total destruction. The firemen deserve special mention for their prompt service.

Mrs. Atchinson is absent from home. About 4 o'clock last night Mr. Atchinson went home and set fire to a quantity of paper in the kitchen stove. He then busied himself out of doors. The fact that the house was afire was not discovered for over an hour later. It is presumed the flames caught from the fire in the stove.

### 6000 SHEEP SOLD.

Frye-Bruhn Company Heavy Buyers Within Past Two Weeks.

Among the sales of sheep consummated within the past two days which will be unfavorably affected by the order from the bureau of animal industry at Salt Lake are the following made to L. D. Hoy, representing the Frye-Bruhn Co.:

William Slusher, 3000 head of lambs and yearlings, all fat and ready for slaughter; Gus LaFontaine, 2000 lambs, also fat and ready for the shambles; Ray & Morse of Pilot Rock, 1000 lambs and ewes, also ready for killing as soon as they should reach the market. All these sheep were, of course, ready for shipment as soon as they could be driven to the railroad.

### FRED HOWARD DEAD.

Brother of A. G. Howard, of This City, Dies at Walla Walla.

Fred Howard, of Walla Walla, is dead in that city after an illness extending over a year. The funeral will take place tomorrow under the auspices of the B. P. O. E. and the Odd Fellows, of which lodges the deceased was a prominent member.

Fred Howard was a brother of A. G. Howard, of this city. He had resided in Walla Walla for several years and was one of the most prominent young men of the Garden City. He was a druggist by profession. Death was due to necrosis of the bone. The spinal vertebrae was affected and for more than 12 months the patient was confined to his bed or a wheel chair.

### State Fair Board Meeting.

Mayor W. F. Matlock, who is a member of the state fair board, will attend the meeting of the organization upon his return from attending the triennial convocation of the Knights Templar in San Francisco. Mr. Matlock will leave for San Francisco on the night of September 2 and expects to be in Salem to attend the fair board meeting on the 12th.

## LOVES PENDLETON

CITIZEN WHO VISITED NORTH YAKIMA GLAD TO GET HOME.

Water is Poor and Health Extremely Bad in That Locality—Eighteen Deaths From Typhoid During One Week—Fruit is Overwatered and Neither Flavor Nor Texture is Good—Soil is Alkali of the Worst Type.

A Pendleton man who recently visited North Yakima said to the East Oregonian today:

"North Yakima is doubtless 'all right' in fact many Umatilla county people know that it is a fine town, full of business and fine people, but it has its griefs for those who go there and do not stay long enough to become habituated to certain shortcomings, which shortcomings are peculiarly harrowing to a person used to the limpid waters, cooling shades and germ-proof healthfulness of Pendleton.

"People capable of judging disinterestedly, but who do not care to 'get it in the neck' when they make their next regular trip to that city, declare that it is, at this time of the year at least, anything but a dream of paradise.

"The water is warm and has the usual irrigation ditch flavor, and is accredited with an epidemic form of typhoid which prevails there to a certain extent. There were 18 deaths in one week in North Yakima and the immediate vicinity recently, and malaria and typhoid are painfully common.

"The soil is the most irritating form of alkali that ever went unwatered, and where it is not irrigated, the city is a desolate waste. The proportion of people who cannot afford to have their premises irrigated is said to be very large for the size of the town, with the inevitable result that the place looks unkempt and desolate in the last degree, over a large part of its area.

"During a portion of the past three weeks the temperature stood at -15 degrees in the shade throughout the middle of the day, the natural heat of the sun being accentuated by the whiteness of the soil and the lack of shade.

"The other side of the Yakima fruit is that it is over-stimulated in an effort to get a large growth, which results in fruit that has no lasting qualities. It is stated that almost any large, finely colored apple raised there can be crushed by a good grasp in one hand, and the flavor is equally 'mushy' with the texture.

"Even Yakimians admit that sooner or later the city will be compelled to pipe water for household purposes from the mountains in the event that artesian water cannot be found at great depths that is of a suitable quality.

"The hotel accommodations are very ordinary, while the only restaurant in the place is run by a Chinaman who looked scared when a customer asked for a porterhouse steak."

### RETURNED FROM VALLEY.

Beautiful to Look at, But No Other Attractions for Umatilla County People.

U. G. Horn and wife, who left here July 7 on their wedding trip, have returned from the western and southwestern part of the state. They enjoyed their outing very much, and were impressed by the beauty of the valley from end to end, but return without any desire to make their home elsewhere than in Umatilla county. They came in on an early train and left this morning for Birch creek, where they will reside.

They met at Newport many Umatilla county people who were there for their summer outing, but the number of people residing in that part of the state formerly from this county is very scarce. Carl Greenwahl is managing a dairy route at Newport, and is much pleased with his new location. Alvis McCarty is farming near Oakland, and he is also much pleased with his present location.

### PENDLETON LEADS.

More People on Two Blocks Than in Entire Streets in Other Good Towns.

In a comparison of the apparent business activity of Pendleton and Baker City, Arthur C. Spencer, assistant counsel for the Oregon Railroad & Navigation Company, who was in this city yesterday, said:

"Recently I had occasion to visit Baker City and spend a day or two there. The contrast between that place and Pendleton in regard to activity is something to be remarked. This town has the appearance of having more people in two blocks on Main street than can be seen along the entire length of Baker's principal thoroughfare.

"The people of Pendleton seem to be hustling and the appearance of the many large stores denotes prosperity and good trade."

### WARD ARREST ARGUED.

Claimed That Ralph Ward Withdrew Deposits to Prevent Attachment.

Motion to recall the order for the writ of arrest of Ralph Ward, charged with attempt to defraud his creditors, was argued before State Circuit Judge W. R. Ellis this morning. S. A. Lowell, of the firm of Halley & Lowell, appeared for Ward, and J. H. Raley argued for Anna M. Marshall, plaintiff in the civil action brought against Ward to collect \$391.50, alleged to be due on rentals of a store room.

It is charged in the action against Ward that he withdrew money from the First National bank in this city for the purpose of preventing its being attached and that he was prepar-

ing to leave the state to escape payment of his just debts.

In his argument this morning Mr. Lowell declared the arrest of a person in a civil action was a last resort and that in the motion of the plaintiff in the Ward case did not set forth facts sufficient to show that Ralph Ward was not able to pay the amount of the indebtedness charged against him, or that property now attached was ample to cover his obligations.

Ward has been conducting a confectionery store in Main street, in property owned by Miss Marshall. She alleges he has failed to pay rent. When action was brought to attach the store Ward went to Walla Walla. There he mortgaged property to the extent of \$1,000.

According to an affidavit of G. M. Rice, cashier of the First National bank, Ward drew deposits to the extent of \$300 from the bank, and declared to the cashier that he did not intend that it should be used to pay debts. The order for Ward's arrest was then secured and when he returned from Walla Walla he was taken into custody by the sheriff. He furnished bail of \$500.

### HOME FROM WALLOWA.

S. R. Thompson and Party Enjoyed Outing at the Lake.

Mr. and Mrs. S. R. Thompson, Harry Thompson, Miss Ethel Johnson and Miss Ethel Lelsure returned yesterday from a two weeks' outing at Wallowa lake. "Fishing and hunting are very good in the Wallowa country this summer," said Mr. Thompson, "but there are not quite as many campers at the lake this year as there have been in the past.

"Wallowa lake is an ideal place for a summer outing. The mountain scenery is something grand, the weather is always cool and the big lake is an excellent place for boating and fishing."

### Correction.

In the article in yesterday afternoon's paper about the order to dip sheep, a slight error appeared. The statement was made that the value of sheep subjected to this order was depreciated to the purchasers of orders contracted for but not yet filled, "25 per cent per head." It should have read "25 cents per head." As will be seen at a glance, the difference between the two expressions amounts to 15 cents on an animal which cost \$1.60.

### Thirty-eight Bushels Straight.

August Ring, of Despain Gulch, this year had 300 acres of wheat and has finished threshing. The yield was 38 bushels per acre straight, and the quality of the best. Mr. Ring lately moved into a new residence. It is said that the most uncommon thing to be seen in the Despain Gulch country is a residence that is not practically new—at least that has not been built within the past two or three years.

### Walter Bitner Will Build.

Walter Bitner, of Despain Gulch, has threshed 10,000 sacks of wheat. The acreage could not be learned. Mr. Bitner will build this fall, in time for occupying by the early winter, a residence that will cost \$2000 and a barn that will cost \$1400. Mr. Bitner is one of the hard-working, straight-up-and-down men who are reaping the reward of abiding faith in Umatilla county.

### Miss Fraker to Oakland.

Miss Ethel Fraker left this morning for Portland, where she will visit with W. J. Furnish and family and afterward will go to Oakland, Cal., to remain a year. At Oakland Miss Fraker will take advanced studies in pipe organ and piano. She will be greatly missed from society and musical circles in Pendleton.

### Fourteen Dollars Per Day.

H. Molstrom, of Despain Gulch, was in town yesterday. Mr. Molstrom has sold 6000 bushels of this year's wheat for 65 cents per bushel, and still has the larger part of his crop on hand. Mr. Molstrom states that the expense of running one combine this year was \$14 per day.

### One Hundred Head Fat Cattle.

G. B. Hopper of Starkey prairie, has over 100 head of fat cattle, all steers, ready for the market, but which he cannot dispose of owing to the industrial conditions. Buyers are in the market for them and they would have been sold and shipped but for the cause named.

### Hulse-Stewart.

Miss Bessie Hulse and Leroy Stewart were married last evening at 9 o'clock at the home of the bride's parents, Eugene Hulse and wife, at 1100 Riley street, Rev. M. V. Howard officiating. Mr. and Mrs. Stewart will reside in La Grande.

Drink **CRESCENT CREAM COFFEE** It is Fine

IN 1 AND 2 LB. SEALED TINS ONLY

### Expert Collectors

We have located a branch office in Pendleton, and will make collecting defunct bills a specialty. No account too old for us to handle.

Our plan is: "No collections, no charges. Suits instituted, judgments advertised.

The Van Alstine-Gordon & Co., Mercantile Agency, H. V. Lipe & Co., Mrgs. 119 E Court St. Phone Main 311.

### TIMOTHY WAS FROSTED.

First Instance of the Kind Ever Recorded in Camas Prairie Country.

Henry Lazinka, the prominent pioneer cattleman of Camas Prairie, who delivered a shipment in this city yesterday, recites an unusual freak of nature in the Camas Prairie hay district this season.

He says for the first time in his long residence there, the timothy hay crop was actually frosted this year until it only made part of a crop. While timothy is adapted to the highest altitudes and is a hardy grass, yet the frost came just at the right time to reduce the crop this year materially. All other crops were fine. Both wild hay and grain hay escaped the frost and made good yields.

### Council Meeting Tonight.

The regular weekly meeting of the city council will be held tonight. No business other than that of a routine nature is expected to be brought up at the meeting. Several proposed ordinances are in the hands of various committees, but none of these will be considered this evening.

## Christian Church

We have a new line of suits of the Christian church an old ivory assortment.
