have no creed.

But I have in me that surpassing words,

.

Of faith as boundless as the sea;

- A love that takes in all the human race.
- I see good in all creeds.
- Good in all religious. Good in all men,
- Good in all living things.
- The only sin to me is selfishness,
- The only happiness the good we do:
- O, let us drown these empty sounds and forms,
- The letter that divides the warring sects;
- And let us fill our hearts with . love to men;
- and build a church as wide as . human needs;
- And henceforth leave the Race . unfettered, free.
- -Anon.

## ONE-SIDED VIGILANCE.

...........

The order requiring the wholesale dipping of all sheep for export, infected or otherwise, has led to many acrimonious comparisons and expressions of opinion.

People want to know why It is, when everybody in Umatilla county knows either from personal observation or by the word of those who have personal knowledge that the reservation harbors hundreds, perhaps thousands of scabby Indian horses, nothing is done by the government to eradicate the evil, while perfectly clean sheep must be dipped before shipment to another state.

Dr. E. N. Hutchinson, of the federin bureau of aninmal industry, is quoted as saying, in effect as follows: "Unless the cattle raisers of the state of Oregon show considerable diligence and keep it up, in the way of taking preventive and curative steps about mange, they are likely to con-

We propose to conduct another subscription contest

From now until November 4th we will take new subscriptions sent in of strength and a haven of rest in by our subscribers and to the one who guesses nearest to the vote received the winning presidential candidate in this state, we will give one-half of But for two generations this mis- all the money received from this contest.

For example, if you taink President Roosevelt will receive the major ity of votes in the coming election, fill out the coupon, "Roosevelt's total vote in Oregon will be (.....)," and put in your estimate.

If our subscribers co-operate with us as they have in previous contests and as we expect they will in this, we will take in several hundred dollars and possibly much more, one-half of which will go to the person who guesses nearest to the vote in Oregon for the winning presidential cond: date.

There is only one requirement and this is important. ALL NAMES SENT IN MUST BE THOSE OF NEW SUBSCRIBERS. Renewals of sub-scription will not be counted in this contest. Subscribers can participate in this way: Get some neighbor to take the Weekly East Oregonian for four months for 50 cents. Send in a money order for the 50 cents; or in le and 2c stamps or silver, accompanied by your guess on the presidential vote. If you do not want to ask some neighbor to subscribe, send in 50 cents and the name of some friend in the East who is interested in the western country. Let him read the Weekly East Oregonian and it will give him more news about the resources of the Inland Empire than you could if you wrote him a 50-page letter a week. For every 50 cents you will be entitled to one guess. If you get four of your friends to take it four months each, you will be entitled to four guesses, or if you get one new subscription for a year for the Weekly for \$1.50 ou are entitled to three guesses. Some one of our subscribers will get one half of all money taken in on this contest. It may be only \$50, or it may be several hundred dollars, but whatever the sum the one who guesse s nearest to the residential vote in Oregon for the winning candidate, will get one-half of

Remember the guess is on the vote cast in Oregon for the successful presidential candidate.

Only new subscriptions count.

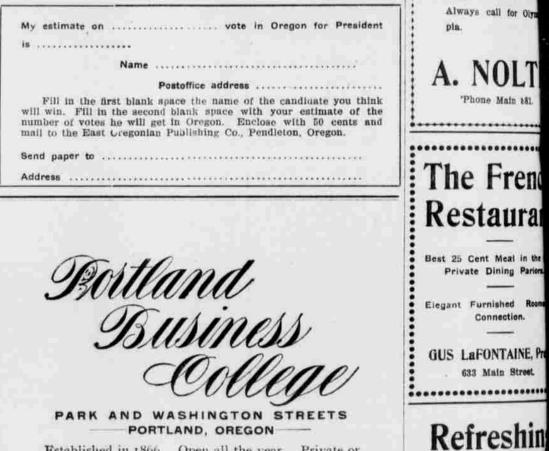

the money.

A subscription for 50 cents gives you one guess.

You can send in as many subscribers as you wish and for each 56 cents you get one gu.ss.

This contest closes November fourth, so be sure to send in your

dess before that time. The total vote in June, 1904, was 92,608; for republican candidate for judge, 52,946; for democratic, 28,729; socialist, 6419, and probisupreme bition, 5514.

Established in 1866. Open all the year. Private or class instruction. Thousands of graduates in positions; opportunities constantly occurring. It pays to

The mission fathers were the ploneers of European civilization among They supplied leadership and instruction to those who were engaged in found ing homes and wresting a living from gaunt the appearing desert. The continued, and upon a vastly larger scale, but it has passed to other hands-to the government of America and to an army of settlers who come from all parts of the world.

We

The government is supplying both the capital and the expert knowledge needed in this conquest of the desert. It is laying the foundation of pros-perity, pointing the way, and inviting the people to enter into their heritage While its resources are far greater than those of the devoted missionaries who planted the seed of Califor nia, its spirit is much the same. It is helping them to help themselves.--Guy E. Mitchell.

ARTESIAN WATER FERTILIZER.

Investigations carried on during the last year by S. W. McCallie, assistant state geologist of Georgia, acting in co-operation with the United States geological survey, have revealed the presence of interesting and pehraps valuable properties in some of the ar-tesian wells in the Coastal Plain of that state. Water taken from a deep well at Baxley showed on analysis 5.5 parts per 1,000,000 of phosphoric acld which should indicate that it might be used for fertilizing as well as for irrigating barren fields. other words, it may be acceptable to the desert land as both food and drink. It is estimated that a layer of this phosphoric acid bearing water 12 inches deep over one acre of land would exert a fertilizing effect equal to that of 200 pounds of commercial clock- fertilizer,
