MINING CONGRESS

EVERY TERRITORY AND STATE IS REPRESENTED.

Largest Delegations of Capitalists Are From the East and South—Will Discuss Mining Laws and Common Interests in Every Phase—Will Be Addressed by Eminent and Learned Men.

Portland, Ore., Aug. 22.—Portland is in the hands of the delegates who have assembled to attend the annual session of the American Mining Congress which convened in this city today. Fully 3000 persons have already registered and every train brings in large numbers of visitors. It is expected that by tomorrow evening more than 5000 delegates will be seated in the congress. Many large delegations have arrived, notable among which is the Utah delegation, numbering more than 500. The Colorado delegation is 200 strong and there is a very large delegation from Chicago. Others are present from all parts of this country, Canada, Mexico, Australia and a few from foreign countries, making one of the most notable gatherings ever assembled on the Pacific coast. Portland is taxed to its utmost capacity to entertain the visitors. The different commercial bodies, not realizing the importance of the occasion, had not made sufficient arrangements for taking care of the delegate.

President J. H. Richards, of Boise, Idaho, called the congress to order this morning in the armory. Much of the morning session was taken in seating the delegates, appointing committees and arranging for the program and business which will come before the gathering.

After the preliminary business the congress was formally opened by prayer, after which Governor Chamberlain extended a welcome to the visitors on behalf of the citizens of Oregon, and Mayor Williams offered the hospitality of the citizens of Portland to the visitors.

Many States Represented.

Representatives of 28 of the leading mining states of the country replied by presenting papers on the mineral resources of the respective states, as follows: Prof. C. H. Pette, New Hampshire; Col. F. V. Drake, Oregon; H. C. Beeler, Wyoming; R. N. Bell, Idaho; Prof. H. H. Nicholson, Nebraska; Hon. H. C. Hamlin, Colorado; Dr. George E. Ladd, Missouri; Prof. J. C. Norwood, Kentucky; Dr. I. G. White, West Virginia; Dr. A. S. Draper, New York; J. D. Hyde, North Carolina; Hon. R. A. Shiff, Tennessee; Hon. E. J. Watson, South Carolina; Hon. Thomas Gregory, South Dakota; Prof. William Bullock, Maryland; R. V. Brower, Minnesota; F. M. Life, Indiana; Prof. E. Haworth, Kansas; Hon. G. W. Comer, Virginia; Hon. Thomas A. Hanna, Michigan; Fisher Harris, Utah; Prof. S. W. McCullie, Georgia; H. R. Kunnel, New Jersey; G. H. Perkins, Vermont; secretary of Illinois labor bureau; Iowa state mining and geology department; California state mining bureau.

President Richards, in his annual address, gave an extended resume of the conditions surrounding the mining industry of the country and offered many statistics showing the progress made during the past year.

Prominent Men Present.

Many prominent men will appear on the program, among the most notable being W. H. Goode of Portland, who will make an address on "The Lewis and Clark Expedition;" Hon. W. A. Sulzer of New York, "Department of Mines and Mining;" Hon. Maurice D. Leahy, Seattle, "Mining Laws;" Hon. H. W. Scott, Portland, "Relation of Mining to the World's General Advancement;" Hon. J. H. Mitchell, United States senator from Oregon, "Government Branch Mint or Assay Office in Portland;" Hon. Jas. A. Gibson, Los Angeles, "Mines and Mining;" Hon. R. W. Richardson, Washington, D. C., "Mining the Support of Banks and the Dividend Payer of Railroads;" Chancellor E. Benjamin Andrews, University of Nebraska, "The Promoter, His Advancement to Development;" F. G. Schaffer, Colorado, "Statutory Protection for Mining Investors;" J. J. Guntherodt, California, "Radium;" F. H. Probert, Los Angeles, Cal., "Concentration of Copper Ore in the Southwest;" Alfred Von der Ropp, "The Smelting of Ores;" Orlov T. Brown, South Dakota, "The Cyanide Ores, Ragged Top District, Black Hills;" James W. Abbott, Denver, Col., "Mining Men for Better Roads;" R. E. Buckley, Mis-

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness. That such is the case has been conclusively proven by scientific research. Prof. Dana, the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundance.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day.

Sold by leading druggists. Send 1c. in stamps for sample to The Herpicide Co., Detroit, Mich.

F. W. Schmidt & Co., special agent.

J. L. VAUGHN

Electrician

Prompt attention given and all work executed properly.

Electrical Supplies of all kinds

OFFICE—121 WEST COURT ST. (Tribune Building)

scurl, "Functions of State Geological Surveys and Bureau of Geology and Mines;" F. Wallace White, Ohio, "The Investor in Mines;" W. L. Wilson, Denver, Col., "Mining Stocks and Their Flotation;" John S. Crawford, "The Relation of Electric Force and Conditions to Geology."

Besides the above Senator Perkins of California, T. A. Rickard of New York, Eugene Hannel and A. E. Barlow of the department of the interior, and James Galey and John Hays Hammond of the Dominion of Canada are present and will make addresses. The fight for the next session of the congress is growing warmer, with the chances favoring an interior city.

THEATERS CANNOT OPEN.

Walla Walla City Ordinance is Said to Be Prohibitive on Account of Its Severity.

"Unless Walla Walla modifies her theater ordinance, she will be without theaters or amusements this winter," said Manager K. J. Taylor to the East Oregonian today.

Mr. Taylor says the new theater ordinance of Walla Walla is patterned after the New York city ordinance, which cannot possibly be made to apply to a city the size of Walla Walla. The ordinance is entirely prohibitive and no man can build and operate a theater there under its provisions, he claims.

"A city ordinance that would be necessary in New York city, could not apply to a small town, and the council has formed a wrong opinion of the situation. The first provision is, that the theater must be located on a corner, so it will have two street exits. The next impossible feature is that there must be 14 feet between the theater building and the next nearest building, and the stage requirements are out of the reach of a man of ordinary capital."

KID M'COY TO PENDLETON.

Featherweight Fighter Will Have a Mill Here With Andy King.

Lewiston, Aug. 22.—Young Kid McCoy, the Brooklyn featherweight, was an arrival in the city last night. McCoy is en route to Pendleton where in September he will meet Andy King. He stopped at Lewiston for the purpose of arranging a bout in this city to take place during the Lewiston Interstate fair.

McCoy has been fighting for the past five years and enters the ring at 126 pounds. He brings a long list of eastern victories with several western successes and issues a challenge to all comers not exceeding 130 pounds for a contest in Lewiston during the fair.

SILOS AT ISLAND CITY.

Prominent Beet Raiser Will Test the Missouri Method of Feeding, in Oregon.

La Grande, Aug. 22.—J. L. Caviness of Island City, three miles north of here, the most extensive grower of sugar beets in Union county, has arranged to build three large silos, from his corn crop, this fall, and will immediately begin milking 20 cows for the La Grande creamery.

He has a large crop of corn and believes that this is the most profitable way of disposing of the crop. His cows will produce about \$8 worth of cream each, per month.

FILIPINOS MARVEL.

Islands Commission Express Surprise at Greatness of America.

Twenty-two Filipinos, members of the Philippine commission appointed to visit the St. Louis exposition and tour the country at government expense, are today studying Seattle, its manufacturing, shipping and people.

They arrived last evening and were immediately escorted to the Washington hotel by the reception committee of the Chamber of Commerce, which is guiding the visitors about the city today, says the Seattle Star.

Seattle and the Philippine islanders are mutually pleased with each other. The latter came here, totally unprepared to see a big metropolitan city on Puget sound, anticipating rather an introduction to a frontier town. Local citizens indifferently waited the arrival of what they thought was a band of half-civilized, illiterate and indolent natives of the tropics.

They were figuring on talking by means of Tagalog interpreters. They were agreeably surprised to find the island representatives as a rule university graduates who spoke English fluently and knew this country and its history as well as any European.

Until the Tagalogs reached New York on their arrival they had never known the sensation of descending a skyscraper in an elevator, of seeing modern railway train, railway tunnel, drawbridge, weaving machinery or a popular political campaign. The World's fair was a revelation to them. They were profoundly impressed with the frank personality of President Roosevelt, whom they met at the White House, and with the magnificence of the congressional library.

MONTANA FEDERATION.

Organization and Legislation Being Discussed.

Hamilton, Mont., Aug. 22.—Nearly every trade and labor organization in the state is represented at the eleventh annual convention of the Montana State Federation of Labor, which opened here today. Butte, Anaconda, Missoula and other chief cities of the state are well represented. The convention will be in session several days.

In addition to discussing legislative and other matters affecting the interests of organized labor plans will be perfected for bringing about a more thorough organization of the labor unions of the state. The federation reports a gratifying gain in membership during the past 12 months.

A man never knows just what he can't do till he tries.

COMING EVENTS.

- August 30-31—Oregon State Medical Association, Portland.
- September 1—Conclave Knights Templar, San Francisco.
- September 6—Opening St. Joseph's academy, Pendleton.
- September 12-17—Oregon State fair, Salem.
- September 18—Opening public schools, Pendleton.
- September 19, 20, 21—Oregon Irrigation Association at Ontario, Malheur county.
- September 20—Opening Pendleton academy.
- October 3-9—Spokane Interstate fair.
- Inland Empire Teachers' Association—Pendleton, October 19, 20 and 21.
- National Irrigation Association, El Paso, Texas, November 15-18.

GARMENT WORKERS.

Representatives of Powerful Organization Meet.

Buffalo, N. Y., Aug. 22.—The clothing centers from Maine to California are represented at the annual convention begun here today by the United Garment Workers of America. Canada is represented by 15 delegates, including several from Toronto, Winnipeg and Victoria.

The convention will be in session a week or longer and will consider and act upon a number of questions of vital importance to the craft and to the organization. The garment workers' strike in New York will come up for exhaustive consideration and the resignation of Henry White, the general secretary of the organization, which was one of the results of the strike.

Dwelling Nearly Completed.

W. A. Siddons' new house at 801 Hazel street, nears completion. It replaces the one burned about five weeks ago. Most of the fruit and shade trees in the year were either entirely killed or badly injured by the fire, so that the loss far exceeded the insurance on the house and contents.

"Such a Noise!"

The mother says to herself sometimes, "I can hardly endure it." Then a chill creeps over her as she thinks of the awful silence which falls upon the home when children are taken away, and she is glad her children are hardy of body and lusty of lungs.

When a child does not enjoy noisy sports and games there is something wrong, and that something will often be found to be a lack of nutrition adequate to the needs of youth and growth. The stomach is "weak," digestion is imperfect, and so the nourishment of the body is inadequate.

In such cases Dr. Pierce's Golden Medical Discovery works wonders. It changes puny, fretful children into healthy, happy girls and boys. The process by which this change is accomplished is strictly along the lines marked by Nature. All growth and strength come from food when it has been digested, converted into nutrition and assimilated. "Golden Medical Discovery" cures diseases of the stomach and other organs of digestion and nutrition, and so enables the body to obtain without loss or waste the benefit of the nutrition provided in food. The "Discovery" contains no alcohol and is entirely free from opium, cocaine and all other narcotics.

A Wonderful Thing.

"I have been thinking of writing to you for some time," writes Mrs. W. D. Benson, of Maxson, Iowa, "to let you know what a wonderful thing Dr. Pierce's Golden Medical Discovery did for my little boy. He was taken with indigestion when he was a year and a half old and he was under the doctor's treatment for five long years. We spent all we made for doctor bills, and it did no good. He could eat only a little milk and cream, and some times even this would make him sick. He could not sit up all day, and I gave up all hope of his ever getting any the best of it. Three years ago I found one of your books, and on looking it over one day I noticed Dr. Pierce's Golden Medical Discovery recommended for indigestion. We bought some and gave it to our boy. He had been treated at Hoods by a good doctor and at Bennettsville, S. C., and at Currie and Lambertson and Maxson, and was only relieved for a short time. We gave him two bottles of Dr. Pierce's Golden Medical Discovery and it cured him. He is well and gave it to our boy. He had been sick a day since and it has been three years since he took your medicine."

A Thankful Mother.

"I have felt it my duty for a long time," writes Mrs. Mollie Jones, of Gap, Comanche Co., Texas, "to tell you of the wonderful cure effected by your 'Golden Medical Discovery' and 'Pelle's Pellets' in the case of our little boy, now nearly seven years old. When he was two months old he was taken with La Grippe, and it settled on his lungs and in his throat. His tonsils enlarged, and when he was two years old we had the doctor operate on them. Then we had the doctor take his tonsils out and he made but little work of it. If he went in the wind he would sneeze, and we tried everything we could hear of and consulted every physician we saw, but they did not know what to do. When he was nearly six years old (in October, 1898) he was worse than ever, and I could not rest for being so uneasy about him. He was our fourth boy (the other three were dead), and it seemed to me that if he died I just could not bear it. I would go to sleep crying and begging God to spare him. Well, I could see he was getting so much worse, he was just as poor as he could be, and he had no more to eat, and he was coughing all the time. I had read a book about Dr. Pierce's medicine. It seemed to me that this was the very medicine we wanted, and I bought a bottle that if he would buy some of Dr. Pierce's medicine I felt almost sure it would help our boy. He sent him your medicine three times a day and by Sunday he was able to play, and in one month from the time he commenced taking it he had gained six pounds and his cough was all gone. He had no more coughing any since, and he can't take cold any more than the rest of us. He goes about like the rest of the children and plays to the old and hot weather."

Dr. Pierce's Common Sense Medical Adviser in paper covers is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

What Shall We Have for Dessert?

This question arises in the family every day. Let us answer it to-day. Try

Jell-O,

a delicious and healthful dessert. Prepared in two minutes. No boiling! no baking! add boiling water and set to cool. Flavors—Lemon, Orange, Raspberry and Strawberry. Get a package at your grocers to-day.

Wearing Out Headaches

Some times people say, "Oh, I'll wear out this headache. No use taking anything."

But the "wearing out" is pretty hard on racked and tortured nerves, all that extra pain inflicts a permanent injury on them.

We never could see the philosophy, to be plain, the sense of enduring pain unnecessarily.

If you get a cinder in your eye you don't try to "wear it out." You have it removed as quickly as possible. Why not remove the headache, too? No need for anyone to suffer long. Atwood's Never Fail Headache Cure cures quickly. No "ifs" nor "ands." You take one of these little snow-white wafers, tasteless, slips down the throat like a bit of food, in 15 or 20 minutes your headache is gone.

We want to make it as plain and positive as we can: ATWOOD'S HEADACHE CURE IS SO GOOD THAT IF YOU KNEW WHAT WE DO ABOUT IT, YOU WOULD NEVER BE WITHOUT A BOX. We have sold it right here for years and know just what it does.

Brock & McComas Co.

REAL ESTATE

\$2,250 will buy one of the most convenient 5-room houses in the city. Sewer, bath, etc.; good cellar and barn. 3 lots, corner, a bargain.
