NEARLY REDEEMED

FOUR TOWNS WITH BUT ONE UNREDEEMED LOT.

Six Unredeemed Lots in Freewater—Very Little Farming Land on the Delinquent List—Owners of Mortgages Will Be Benefited by Remembering the Next Session of the County Court.

Assessor Strain rejoices to be able to announce that nearly all the realty held by the county for delinquent taxes has been redeemed. He is curious to know to what extent the present condition of affairs in this county in this regard can be duplicated in any county in the state.

In Milton, Pilot Rock, Ukiah and Athena not a foot of realty is now held for redemption from outstanding or delinquent taxes, with the exception of one lot in Ukiah.

In Freewater there are about six lots with taxes unpaid upon them against which the county has a claim. There are few pieces of realty in Pendleton with outstanding taxes, and those few are nearly all in the reservation addition and above the reach of city water.

"Most of the farming lands have been redeemed," but Mr. Strain is not able at this time to give anything like an accurate estimate of the proportion of delinquents.

Mr. Strain was just finished notifying all the holders or owners of mortgages who have not heretofore made returns of the same, wherever it has been possible to ascertain their addresses, of the coming meeting of the county court, and those whose addresses could not be found, are warned that the county court meets Aug.

Turkey Dusters

For pictures, bric-a-brac and fine furniture. The large, fluffy ones of split feathers and long handles; always get the dust; can't scratch and last for years.

Whisks, Too

Higher than they were, that is the wholesale price is higher. Old prices still prevail here, but may not long. Better save by buying now; 15c buys a good one; better ones for more.

SOLD FINE BUCKS

J. E. SMITH FOUND GOOD MARKET IN MONTANA.

Strong Demand in Northwest for Coarse Wool Sheep. Owing to the Severity of the Winters—Nearly Half of the Sheep in Montana and Western Dakotas Were Killed by Severe Winter and the Demand for Hardier Breeds Is Very Brisk There.

J. E. Smith, of the J. E. Smith Livestock Company, has returned from a trip to Eastern Montana and Western Dakota, where he sold 100 head of blooded Merino and Delaine bucks, which have been since shipped. He lately shipped 500 blooded bucks of the same breeds to Miles City for sale later on.

There is an unprecedented and almost unexpected demand in that region for bucks from a cross of Shropshire bucks and Merino and Delaine stock. This is a coarse woolled animal, as everybody knows, and the reason for the revival of interest and appreciation of them is not at first sight understood.

It is found in the fact that last winter at least half the entire sheep supply of Eastern Montana and Western Dakota was killed by the cold and storms and the sheepmen are now after a more hardy animal—one from which will be lost, under a repetition of those conditions, the least per cent of animals.

Mr. Smith also notes an increasing demand in Montana, Eastern Oregon, Idaho and some portions of Washington for coarse woolled bucks to neutralize the tendency for some years past to run too much to fine woolled sheep—a tendency that has not been found altogether satisfactory, as is shown by the demand noted. The change is prompted by the increasing demand from the eastern feeding districts for different sheep for mutton and feeders than the fine wools produce.

The coarser animals are simply found to be more marketable for feeders and mutton. In many, and in increasing proportion of instances, the Shrop crosses on Merino and Delaine grades bring a cent per pound more than well bred animals of other breeds a year older, also bought for feeders and mutton.

HELD FOR ROBBERY.

R. H. Blachley and G. W. Greeley Accused of "Touching" Jack Nixon.

John Nixon, a switchman in the employ of the O. R. & N. company, was robbed of a purse containing \$20 early Sunday morning and R. H. Blachley and G. W. Greeley are in the county jail charged with the crime. Through the watchfulness of Acting City Marshal O. W. Coffman, what is considered as damaging evidence against the prisoners has been secured.

Officer Coffman's suspicions were aroused Sunday morning when he observed Blachley and Greeley take a piece of money from a purse and he followed the men and saw them throw the purse away. He secured the wallet and afterwards saw the two change a \$20 gold piece in a saloon.

Later Nixon reported to the police that he had been robbed, and when shown the purse picked up by Coffman, identified it as his property. Sheriff T. D. Taylor and Coffman then made a search for Blachley and Greeley and arrested them at Baker & Garrison's saloon.

A charge of larceny from the person has been brought against the men. Nixon is not certain just how he lost the purse, but believes the robbers took it from his pocket. He has been working in the yards at La Grande, but was recently transferred to this city.

The suspects are strangers but have been in Pendleton for over a week.

REGULAR JAIL BREAK.

Five Vagrants Take Up Concrete Floor and Crawl Out.

A hole in the floor and a pile of broken concrete in the lark corner of a cell, are the only things to be seen in the city jail today. Last night five vagrants made their escape by digging a hole through the floor and they are still at liberty.

Saturday night the five men who escaped were picked up by the police on charges of vagrancy. They were the only men who escaped. Five others, confined in the jail, were still there this morning and they were released by reason of the expiration of their sentences.

During the past three weeks 15 city prisoners have broken jail. The men who gained their liberty last night dug a hole through the rotten concrete near the closet and made their way under the floor to the woodshed in the rear. The wooden door of the latter was broken down and the prisoners were free.

THOMAS WALSH PROMOTED.

Veteran Chief Dispatcher of the O. R. & N. Is Made Train Master.

As announced in the East Oregonian on July 13, Thomas Walsh is the new train master on the mountain division of the O. R. & N., with headquarters at La Grande.

Orders were issued from Superintendent Buckley's office Saturday for the transfer of the office of chief dispatcher by Mr. Walsh to A. Buckley, who will occupy the position hereafter.

Mr. Walsh's new duties will give him a wider field and more authority and comes as a deserved promotion for his long service as chief dispatcher.

A. Buckley, the new chief is a

brother of M. J. Buckley, superintendent of the O. R. & N. system in Oregon, and is a young man who has worked up from night operator to his present place. He was formerly stationed at Starbuck.

The three "trick" dispatchers in the La Grande office are as follows: Edward Walsh, first trick, from 8 a. m. until 4 p. m.; P. E. McLaughlin, second trick, 4 p. m. to midnight, and F. J. Hummel, formerly of The Dalles, third trick, midnight to 8 a. m.

Thomas Walsh, Jr., is chief operator for the dispatchers' offices.

Ed Walsh, who is first trick dispatcher, is no relation to Thomas Walsh, although they are called brothers by many. They have worked together and followed each other from one position to another for about 20 years, and are greatly attached to each other.

They were operators in the same office before coming to La Grande, many years ago.

RAPID CHURNING.

Butter Made on Main Street in Less Than Two Minutes by New Patent.

The "E. Z." Butter Maker, manufactured by the E. B. Jones Manufacturing Company, of Davenport, Iowa, was exhibited on Main street in front of the Hotel St. George, this morning and made a most favorable impression on the large crowd who witnessed the churning of butter. In the presence of the crowd Mr. Jones, the patentee of the new idea, churned from one gallon of cream, four pounds of butter in just one and three-fourths minutes.

The E. Z. Butter Maker is made entirely on new ideas and is a wonderful improvement over anything in the churn line ever witnessed here. A few features that attracted the attention of the spectators were the easy running of the churn, the clean manner in which it extracts all the butter from the cream, the lightness of the churn and the easy manner to keep it clean.

Experienced butter makers were very enthusiastic over the invention and a great many orders for churns were taken from the crowd.

The exclusive right to sell the "E. Z." Butter Maker in Umatilla county has been purchased by S. D. Jones & Co., of this city, who will push its sale.

Fine Crop of Wheat.

E. Perkins, who lives five miles northwest of Pendleton, threshed an average of 25 bushels of wheat from 350 acres of ground, and every bushel of excellent quality. Mr. Perkins is an ex-Texas who thinks life worth living since coming into the Northwest. He states that just about the usual average of wheat will be sown in his neighborhood this fall.

Returned From Coast.

Max Baer, of the firm of Baer & Daley, the clothiers, returned this morning from Portland where he has been spending the past two weeks. He reports that the weather was cool and comfortable all the time he was there, but that it was very smoky, caused by the forest fires in the vicinity of the city. He says that Mrs. Baer's health is greatly improved.

At Salvation Army Hall.

Special services will be held at Salvation Army hall all this week and as much longer as Comrade Judson and his family remain, waiting for repairs for his scripton plant. The most earnest invitation possible is extended to the general public to attend these meetings, as well as to those especially interested in gospel work.

First Show of the Season.

The theater season opens in Pendleton this evening with the presentation of the rural comedy drama, "Joshua Simpkins." The company arrived in this city last night and will be here for one night only. Manager Taylor, of the Frazer, has booked a number of well known companies for this fall and several will follow next month.

Card of Thanks.

We desire to express our sincere thanks to the Eagles, Redmen and Y. M. I. lodges and the friends and neighbors for their many acts of kindness shown us during the illness and death of our relative, Gus Stangler.

MRS. GUS STANGIER AND CHILDREN.

Object of Sewage.

There is much dissatisfaction below town for several miles, especially on the south side of the river, on account of the sewage from town in the river, the people down that way claiming wholesale pollution of the water—to the extent that the fishing is ruined and stock will not drink the water.

Pleased With Turkey Red.

The Molstrom brothers of Stage Guich, are said to be experimenters with Turkey Red wheat and to be highly pleased both with the yield and the quality, as those usually are who give it a fair trial. Figures could not be learned.

Look for Beef Cattle.

L. Stubbfield will in a few days start for Camas Prairie and Starkey Prairie and other points in the southern part of the county, to look the field over for fat beefers. There are several hundred head in that district which are known to be choice.

Looking for a Location.

S. B. Mustard, an attorney from Omaha, left for Portland this morning after spending several days in Pendleton quietly investigating the advantages the place offers for a young man just going into the practice of the law.

Fine Draft Horses.

L. Stubbfield has bought of Gideon Brown a team of fine draft mares to fill a special order from a Seattle firm which will use them for hauling a meat wagon.

FOR RUSHING THE CAN.

Four Old Offenders in Police Court This Afternoon.

"I hope I may fall right down here in front of this here court if I am guilty," declared J. G. Franklin, old police court offender, Saturday when arraigned on a charge of disorderly conduct, to wit, "rushing the can."

"Please do not use such self-destructive language, Mr. Franklin," cautioned the judge, "suppose the Almighty should take you at your word?"

There were four in the party, Franklin, John Wilson, William Craven and Grant Abbott. Wilton pleaded not guilty and decided to fight the case. The other three were sentenced to serve five days each in the city jail. Wilson will be tried today and in the meantime he is in jail in default of \$20 bail.

Acting City Marshal.

City Marshal M. J. Carney departed yesterday for Meacham station, where he expects to camp for two weeks. During his absence officer O. W. Coffman is acting city marshal.
