RUSSIAN THISTLES.

C. E. McLellan Takes Occasion to Prod the Professors in the Short Ribs.

St. Anthony's Hospital, Aug. 22.—(To the Editor.)—Some time ago a farmers' institute was held in Pendleton. One of the learned professors, in the course of his remarks said: "The farmer knows too much that is not true," and the sentiment was warmly commended by the newspapers.

Do the professors or the newspapers ever know anything that is not true? Why, certainly not, perish the thought, but let's see about it.

Several years ago one of these learned professors visited Umatilla county and announced in warning tones and voice of authority that one of the worst pests known to any farming country, a veritable scourge, in fact, known as the Russian thistle, had gained a foothold in the county, and predicting a very gloomy future for the farming industry if the thistle was not exterminated.

Now comes Professor Chubbuck, another expert in such matters: equally learned or perhaps a little more so, who announces that the thistle, instead of being a curse, is a blessing in disguise.

One of these gentlemen seems to know something that is not true, and he does not claim to be a farmer, either; the newspapers are non-committal on the subject and will perhaps remain so.

NEEDED ROAD REPAIRS.

Complaints Are Numerous About the Road Leading From This City to Holdman.

Numerous complaints have reached this office concerning the condition of the canyon roads between Pendleton and Holdman. It is said by several correspondents writing about these roads that the spring freshets have washed out the roads in the canyon until it is hardly passable in places.

The repairs made last year were but temporary, and were destroyed by the first rainstorm. Some action of the citizens is said to be under way to secure aid from the next session of the county court in making some permanent repairs before the winter season sets in, and makes repairs impossible.

Holdman is on a rural mail route and the people depend on the regular mail delivery from this city and it is almost impossible to make the trip in a day in winter with the mail, with the roads in their present condition.

Heyburn's Failing Health.

Those who attended the Moscow convention could not fail to note the changed condition in the personal appearance of Senator Heyburn. His features look harrowed and careworn. His usual pleasant smile when greeting friends is gone and in the place is only a vacant stare. During the past few months he has lost something like 60 pounds of flesh. His clothes hang loosely about him and his step has lost what little elasticity it formerly had. His appearance was often commented on but seldom in the presence of the senator, as he is said to be very sensitive on the subject.—Boise Capital News.

The Alaska Steamship Company's steamer Dolphin sailed from Seattle for Skagway and Southeastern Alaska Tuesday night. The vessel carried about 35 passengers, many of whom were bound for the interior.

BRIGGSON ITEMS

WILL BUILD RESIDENCE TO REPLACE ONE BURNED.

Closed Successful Term of School—Will Improve Washington Claim—Hay Harvest Nearly Ended—Death After Short Illness—Early Frost Damages Some "Truck"—Removal of Large Tumor—Birth of a Son.

Briggson, Aug. 22.—John Thompson is hauling lumber with which to erect a house to take the place of the one which burned a week ago.

Miss Lillie Banister finished a very successful four-months term of school last Friday.

Mrs. J. P. Navin was up from Helix last week to look after her stock and other interests, and visit relatives for a few days. She and her husband have charge of the Helix hotel for the summer.

George Waddingham intends going to Franklin county, Wash., in a few days to erect a house and barn on the homestead he took up last spring.

Farmers in this vicinity are nearly through cutting their hay. They report from one to one and a half tons per acre. Wheat hay is \$10 per ton, while there is less demand for oat hay, the price is the same.

There was a light frost in this vicinity Saturday night which did considerable damage to pumpkin and squash vines.

Mr. and Mrs. L. J. McAtee are the proud parents of an eight pound bouncing baby boy.

Death of a Babe.

After a day and a half's illness John Falk's 6-months-old babe died. It was taken to Old Springs, where it was interred in the cemetery of that place.

Tumor Removed.

A 15-pound tumor was removed from the stomach of Clarence Ross' little 3-year-old daughter, Grace, but the child was too weak from its long sickness, and expired in a few minutes after the operation.

NORTH M'KAY ITEMS.

Combine Broke a Bridge—Gardens Need Moisture.

A combine, being taken north into the harvest fields, broke partially through the bridge, near Kidder's place the other day. No serious damage was done aside from tearing up the flooring of the bridge.

Mrs. Gus Hill has arrived home from a visit to relatives in Baker county.

Gardens are seriously suffering from a lack of moisture.

"The boulevard" between here and town is being covered with straw. An improvement.

G. W. Forbes, a soldier of the Civil war, an old miner and prospector, is carrying at B. C. Kidder's.

Hay is selling at \$8 per ton at the stack; \$9 and \$10 delivered.

Miss Ruth Kidder is still in Spokane rusticiating at nearby lakes. She is expected home soon.

HOUSER MAKES PAYMENT.

Final Payment on Consolidated Group at Quartzburg.

A few days ago President Zoeth Houser, of the Standard Consolidated Gold Mining Company, made the final payment to W. H. Johnson and Johnson Bros. of this city, for the Cleveland lode at Quartzburg, says the Grant County News.

This claim was located by W. H. Johnson, Clarence and C. P. Johnson in 1892. Lying near the Standard people's property and showing indications of being a valuable acquisition to their holdings it was purchased in 1901 by Mr. Houser, the purchase price being \$10,000, payable in four yearly payments, the last of which has lately been made.

Last Saturday Mr. Houser and J. S. Hughes, also heavily interested in the company, were in town, when the deeds and papers in escrow were formally turned over to the Standard representatives. This company has acquired several other valuable claims adjoining their property and now have one of the best mines in the Quartzburg district.

"A Texas Steer."

The inimitable Charles H. Hoyt assured an enduring success when he wrote the animal show, "A Texas Steer." It is one of the best things that ever slid from his pen. There is nothing "beefy" about "A Texas Steer," despite the paradox. He is built of irony, unadulterated, but is a lively beast, and he kicks the plaster off of certain American follies, in a manner worthy of a soubrette. Hoyt's humor is double-faced—that is, you have not seen the whole of it until you have looked on the inside. It is like a brilliant silk-lined skirt—only in this case there is no one to hold it up. His wit is scintillant, and it must be caught with an instantaneous camera of thought, or much of it is lost. Hoyt was an ideal caricaturist. His exaggerations aren't distortions; he simply looks at life through a convex lens, and his pictures are in perfect drawing. Coming to the Frazer soon.

Many Teachers Fail.

Only 18 of the 41 applicants for certificates who wrote in the county teachers' examination here recently were successful. Most of these who failed fell down on the arithmetic paper, although some found orthography and one or two other papers difficult.—Walla Walla Union.

"The musical critic is kicking because he has two big concerts in addition to the grand opera." "But I didn't expect him to do the opera—the fashion editor will cover that."—Cleveland Plain Dealer.

Roscoe Bryson a Winner.

R. S. Bryson, by securing over 3000 votes today in the World's fair trip contest, claims a victory over his opponent, Rev. J. S. McCallum. Mr. Bryson figures that if only 60,000 coupons were issued, as the contract called for, it will be impossible for Mr. McCallum to muster enough votes to overcome his lead of today. The vote now stands: Bryson, 28,116; McCallum, 25,126.—Eugene Guard.

SOFTNESS OF SEALSKIN.

Is Rivalled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Scouring the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suit of hair to Newbro's Herpicide. Sold by leading druggists. Send 10c. in stamps to The Herpicide Co., Detroit, Mich.

Where One Dollar Does THE FAIR the Work of Two

"The Breakers"

Where to Stop at North Beach

The Breakers Hotel is conducted to attract the best patronage, and is a summer hotel that is unsurpassed on the Pacific Coast north of the famous California beach resorts.

The building has an ocean front of 100 feet, is 76 feet wide and four stories high, or 73 feet from the ground floor to the top of the observatory.

It has handsomely furnished rooms, single or en suite, for 250 guests, each room being carpeted.

The house is lighted by electricity with electric lights and electric call bells in every room, and these lights make it one of the most brilliant beacons on the entire coast.

The entire lower floor is thrown open to the public, and, being beautifully carpeted, the spacious reception room and large, airy halls always form favorite gathering places for guests. The billiard and pool room is also quite popular for merry gatherings.

An Aeolian and Pianola in the commodious parlor furnishes delightful music at all times, and musicals are pleasant features during the entire season.

The Breakers has a regular orchestra which furnishes music for informal dances and balls, and the large dining room, with its smooth, hard floor, makes an ideal hall for regular dancing parties.

An abundance of fresh and salt water fish, clams, oysters, crabs and other sea food is always on our menu; our entire supply of milk, butter and cream comes from our own herd of Jersey cows, and poultry and eggs are supplied from the hotel farm adjoining the grounds.

There are hot and cold, fresh and salt water baths in the house, with private baths and toilets.

The waves of the ocean at high tide roll within 200 feet of the hotel, and the beach in front is superb for surf bathing.

On the grounds are bowling alleys, golf links, tennis courts and croquet sets; on the lake, just back of the hotel, is a fleet of sail and row boats, and on Shoalwater bay, just east of the lakes, is a gasoline launch for parties of fishermen, picnickers or others who prefer the warm, still-water bathing to the tumbling of the surf.

All trains stop at the railroad station in the hotel grounds, and no crowding into hotel omnibuses or walking in sand is necessary, since the hotel ground is a perfect velvety lawn, where the guests are practically landed at the hotel door.

The Breakers Hotel is located at Breakers Station, a regular ticket office, where all trains stop. It is one and a half miles north of Long Beach Station.

In purchasing tickets see that they read to Breakers, Wash., and have baggage checked through to that point.

Telegraph and telephone connections in the hotel.
