GENERAL NEWS.

A request will be made by the Inter-Parliamentary Congress at St. Louis, to President Roosevelt to call a "peace" congress for all the powers of the world, in a short time.

Thomas E. Waggoman, a prominent real estate dealer and treasurer of the Catholic University of Washington, D. C., has failed and filed a petition in bankruptcy.

A final vote by New York building trades decided Wednesday, that all the trades not now on a strike or lockout, will at once join the general strike. Over 15,000 will be effected by the order.

The livestock sanitary board, which met in St. Louis, Wednesday, declares that tuberculosis can be transmitted from cattle to man, in spite of the opposite view of Dr. Koch, the eminent German scientist.

Forty-one seizures by customs officials, were made on the United States transport Solace from Manila to San Francisco, Wednesday. The goods seized included alkis, cigars, Japanese ware and other high-priced goods being brought in contrary to law.

Russia has set aside a sum amounting to \$1,500,000 for the purpose of forming an insatiable relief fund for landless Finlanders. The Finlanders once owned their land, before Russia took it. The expense of maintaining the czar's household is \$1,300,000 per year, and the Finlanders feel that this contemptible offer is not made in good faith, but to placate them.

NORTHWEST NEWS.

Spring wheat in Linn county will not average over five bushels.

Salem may pipe the Santiam river 22 miles for a city water supply.

The La Grande beet crop is expected to reach 20,000 tons this year.

Charles Fort, of Seattle, is accused of smothering his 7-month-old babe to death.

The first August rain to fall in San Francisco in 9 years, fell Wednesday in that city.

Mrs. Mary Paulsen, aged 70, of The Dalles, was thrown from a buggy Wednesday and her spine broken.

Thorvald and William Nelson, of Hood River, are under arrest for maliciously killing cattle near that place.

Wilford Agers, a 16-year-old boy, was burned to death in Spokane Wednesday, in a fire which destroyed their residence.

Eugene is preparing to build a \$10,000 Carnegie library for which she has pledged herself to raise annually \$1000 for support.

The big gambling houses of Portland are running in defiance of the order of the sheriff and will be subjected to a monthly fine, it is thought.

W. W. Trimble, an Oregon City blacksmith, attempted suicide Wednesday, by drinking carbolic acid in his whiskey, but was prevented by a companion.

Thyge Thygesen, of Seattle, committed suicide Wednesday, by swallowing carbolic acid on his door step, after his wife had refused him admittance for drunkenness.

El Paso delegates to the American Mining Congress are offering to trade Portland the next session of the National Irrigation Association if Portland will assist El Paso in securing the next meeting of the mining congress.

6-room house and one lot, \$800, or will take in exchange, horses, wagons, poultry or anything of value.

Two business propositions on Main street.

We have anything you want in real estate and it will cost you nothing to investigate.

NOW PREPARED FOR IRRIGATION

BROWNELL DAM MOST SUBSTANTIAL IN COUNTY.

is Built on Concrete Base, Bolted and Anchored to Bedrock in River—is 240 Feet Long and Will Raise Water Three Feet—Cost About \$550—Will Reclaim 1200 Acres of Arid Land Above Umatilla.

D. C. Brownell of Umatilla, has just completed one of the most substantial and unique dams across the Umatilla river, one and a half miles above the town of Umatilla, that exists in the state.

The dam is of concrete and heavy timbers, 4x12, and is anchored to the bedrock in the bottom of the river by 1 1/2-inch bolts, set from 12 to 18 inches into the solid bedrock, and braced above by stay rods, attached to eyebolts sunk into the bedrock and attached to the lumber in the dam, by eyebolts.

The dam is 240 feet long, and will raise the water three feet, thus giving two feet of water in the ditch. The concrete is used solely to make a level base for the heavy timbers of the dam proper, and the concrete work varies in height from six to 15 inches, according to the unevenness of the surface of the bedrock in the river.

The total cost of the dam is about \$550 and it is one of the most substantial structures of the kind yet built in the state.

The Brownell dam is a few hundred feet below the dam of the Oregon Land & Water Company's dam, and will divert sufficient water to fill a ditch eight feet wide, to a depth of two feet and will supply an abundance of water for 1200 acres of land lying just above the town of Umatilla, which will be immediately reclaimed.

Mr. Brownell will seed about 100 acres to alfalfa this fall, and will make preparations to begin seeding as much as possible of it next year. The land is a warm, sandy loam, and will produce any crop or fruit that grows in the temperate climate.

Being below all the other ditches, Mr. Brownell has no trouble over water rights, as all the water that passes other ditches is his property, as far as he can use it. His is the last dam on the Umatilla river and there is always sufficient water there for irrigation of the tract that he has started to reclaim.

WORK ON MAXWELL DITCH.

Force of Thirty Men Now at the Head of the Ditch, at Mouth of Butter Creek.

The Maxwell Ditch Company is now preparing to begin extensive work on their irrigation project, having established temporary headquarters at the head of their ditch at the mouth of Butter creek.

A force of about 30 men is now at the camp, where substantial houses and sheds will be built to accommodate the men and teams. One of the largest sized road and ditch makers is in use, requiring the power of 20 horses, and work will be pushed as rapidly as possible.

The company has about 15 miles of ditch in view, encircling the entire basin in which the station of Maxwell lies. Most of the ditch is scraper and seam work, very little of it being hardpan, or cement gravel. The body of rich land in the vicinity of Maxwell will be reclaimed and converted into a model irrigated settlement.

Suicide Prevented.

The startling announcement that a preventive of suicide had been discovered will interest many. A run-down system and despondency invariably precede suicide and something has been found that will prevent that condition which makes suicide likely. At the first thought of self-destruction take Electric Bitters. It being a great tonic and nerve will strengthen the nerves and build up the system. It's also a great stomach, liver and kidney regulator. Only 50c. Satisfaction guaranteed by Tallman & Co., druggists.

COMING EVENTS.

Inland Empire Teachers' Association—Pendleton, October 19, 20 and 21.

National Irrigation Association, El Paso, Texas, November 15-18.

Interest on Your Money.

The Portland Trust Company of Oregon, which was established in 1887, has ample capital and resources, and numbers among its stockholders some of the wealthiest citizens of Portland, and also a great many Eastern capitalists. This company has devised a very convenient form of employing funds that may be temporarily idle, so that the depositor may get interest upon them, and still have them available upon a reasonable notice. For further particulars our readers are referred to our advertising columns.

PREMIUM ON BABIES.

New York Landlord Offers Free Rent to Couples Having Children Born in His Flat.

New York, Aug. 25—Children and dogs are tabooed in nearly all the better class apartment houses in New York, and in many cases the tenants practically forfeit their lease if they allow themselves the privilege of an increase of family without the consent of the landlord. Many couples with children find it almost impossible to secure apartments in any part of the town.

Under such conditions the action of William C. Smith, who has nearly finished a six-story flat building on Anthony avenue, deserves unstinted praise and admiration. He is very anxious to get families with children into his flats and offers special inducements to families that are still on the increase.

He offers one month rent free to any couple to whom a child should be born while living in one of his flats, two months for twins and from three to six months for triplets.

He has provided a playground with swings and sand piles in the yard and an enormous playroom on the top floor, where the children of his tenants can play in cold or rainy weather.

Preliminary Canal Work.

Mr. Robert Wadswell, the contractor for extension of the water mains up Mill creek, has completed that job, and his next work will be clearing Three Mile rapids of obstructions. This is expected to begin about the middle of next month, when the river has receded to its lowest stage. There is sufficient money on hand to begin and complete this before the work on the canal begins. The object is to make the river navigable to the entrance to the canal, which will begin near the Big Eddy. Mr. Mills, who is timekeeper for Mr. Wadswell, says a camp will be established at the rapids as soon as the work begins.—The Dalles Chronicle.

Poor Extension Outlook.

Chief Engineer J. A. West, of the Sumpter Valley railroad, passed through to the Tippon front yesterday. He stated that it was not very likely that the extension would be pushed on this season, as there was no prospect of getting an agreement from the construction company to complete the 10 miles toward Austin before the snow flies. He took out a couple of young men with him to augment the surveying crews, which indicates that this portion of the work is not to be overlooked.—Sumpter Reporter.

Eugene's Carnegie Library.

The prospects are bright for the beginning of the erection of the \$10,000 Carnegie library building in Eugene this fall. At a special meeting of the city council last night the various offers for sites for the building were discussed and it was finally decided to purchase the George B. Dorris lot on Willamette street, immediately north of the Christian church, and on which the residence occupied by W. W. Waddle and family is located. The lot is 80x160 feet in dimensions, and the price to be paid is \$4,000.—Eugene Daily Guard.

Seattle's Crittenton Home.

Mayor Ballinger received his first official spanking at the hands of the city council last night. The council passed, over his veto, a bill appropriating \$75 every month for the maintenance of the Crittenton home at Dunlap by a vote of 10 to 1. But one member of the council opposed it.—Seattle Star.

Puts an End to It All.

A grievous wall oftentimes comes as a result of unbearable pain from overtaxed organs. Dizziness, backache, liver complaint and constipation. But thanks to Dr. King's New Life Pills they put an end to it all. They are gentle but thorough. Try them. Only 25c. Guaranteed by Tallman & Co.'s drug store.

FINAL SALE

This week and next will wind up our clearance sale of summer goods. Prices are cut to bedrock. Don't miss the chance to buy cheaper than ever before.

INDIANS SWAP WEAPONS.

Patagonians Try the Bow and Arrow—Cocopas Practice With the Lasso and Bolo.

St. Louis, Aug. 25.—A bond of friendship for mutual benefit has sprung up between the younger members of the Cocopa Indians and the Patagonians at the World's fair. Cocopas are experts with the bow and arrow and their neighbors are past masters with the lasso and bolos. Each tribe has been giving the other lessons in the art of using these weapons.

The Patagonian takes the lasso or bolos and shows the pupil how to coil, grip and whirl it, and the position of the body and arm when the throw is made, then hands it to the pupil, watching closely every movement and correcting all mistakes. The Indians go through the same process of instruction with the bow and arrow. A large post and target have been erected for the trials. Both tribes are becoming quite adept in the art of using their new weapons.

The Paraguayan troops have been routed by the rebels on land.

SOFTNESS OF SEALSKIN.

Is Rivalled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a parasitic parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Seeping the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful tresses of hair to Newbro's Herpicide. Sold by leading druggists. Send 5c. in stamps to The Herpicide Co., Detroit, Mich.
