COMING FROM MOUNTAINS.

Cooler Nights Are Driving Many of the Campers Home.

Campers are leaving the summer resorts in the mountains in large numbers, and while the various camps will not be entirely deserted for at least a month yet, the heavy rush to the mountains is over. Every stage from Lehman Springs and every train from Meacham brings in returning campers.

Generally about the first of September light rains set in and persons desire to be out of the mountains before the wet season. No rain has fallen in this part of the state for several weeks, but atmospheric conditions point to a change shortly. The nights are gradually becoming cooler and the days are decidedly less oppressive than they were a fortnight ago.

MUST BE DIPPED

DR. M. S. LATZ RECEIVES FINAL INSTRUCTIONS.

Says Suspension of Dipping Order Was Made for One Specified Shipment—All Subsequent Shipments Must Be Dipped and Stockmen Are Advised to Prepare Places for Dipping—Dr. Hickok gives Explicit Interpretation of the Order.

Livestock Inspector M. S. Latz has received from George S. Hickok an "interpretation" of the order made last week by Mr. Hickok that is authoritative and can neither be gainsaid nor misunderstood. It is dated Salt Lake, August 21, and reads as follows:

M. S. Latz, Livestock Inspector, Pendleton, Ore.
* * * "It will be well for you to advise the people in that vicinity and in your territory that it will be best for them to prepare some facilities for dipping, as all the sheep must be dipped before going into other states, either for breeding purposes or feeders." (Signed.)

The first portion of the letter referred to the exception made in favor of Garrison & Reynolds and Hunter & Stephens, states that the apparent partial rescinding of the original order requiring the dipping of all sheep, infected or otherwise, (excepting those intended for immediate slaughter) was an exception in favor of one particular shipment—that of Garrison & Reynolds of 15,000 sheep, and Hunter & Stephens of 10,000 sheep, to be made on or about September 1. Even these two firms have no special privileges under the "exception" than the one mentioned.

Under the terms of the favor extended to the two firms mentioned, they must dip immediately upon arriving in Nebraska—before the sheep even reach the feeding pens, and it must be done under federal supervision and no later shipments of theirs have the privileges of the exception. As Dr. Latz expresses it, "it amounts to just this: That these sheep are shipped and received in Nebraska under a virtual bond that is not released until the animals are dipped and certified to by the federal inspector having charge of the dipping."

MUST FILE CONTRACTS.

School Districts Must Send Copy of Teachers' Agreements to Superintendent.

Although the state school laws require that boards of directors and teachers must file copies of their contracts stating the number of months to be taught, the compensation and the date of opening of school, with the county superintendent, the regulation is not lived up to in Umatilla county. So far but three teachers have filed their contracts with Superintendent Welles and many of the schools start within two weeks.

"It is a law that must be lived up to," said Mr. Welles, this morning. "I presume that one reason why the contracts have not been filed is on account of the lack of proper blanks in the hands of the boards."

Subdivision No. 7, of section 49, article 6 of the Oregon school law, says: "The board of directors at a general or special meeting called for that purpose, shall hire teachers, and shall make contracts with such teachers which shall specify the wages, number of months to be taught, and time employment is to begin, as agreed upon by the parties, and shall file such contracts in the office of the district clerk, and a copy thereof in the office of the county superintendent."

RELEASED FROM CUSTODY.

Blachley and Greeley Charged With Robbing Nixon, Turned Loose.

After remaining in jail for nearly a week, charged with robbery, R. L. Blachley and G. W. Greeley, are at liberty. The whereabouts of Jack Nixon, the complaining witness is unknown and the authorities were obliged to turn the men loose. They were ordered out of town last night by the police.

Nixon complained that he was touched for a purse containing \$20, early Sunday morning. The purse was found where Blachley and Greeley threw it after taking out the money. Nixon identified it as his property, but when time came for arraignment he had disappeared.

The authorities are of the opinion that the complaining witness was induced to leave by friends of the prisoners.

ENFORCE GAME LAWS.

Orders From State Game Warden to Begin Prosecutions.

Complaints of Eastern Oregon sportsmen of violations of the game and fish laws, have caused State Game Warden Baker to rescind his recent orders to O. P. Steele, the local deputy to not proceed against offenders until October 1. In a letter received last night Mr. Steele is notified to go to work at once.

"I shall start after the violators of the game laws, just as soon as possible," said Mr. Steele this morning. "There is no doubt but that the laws are being broken daily and I propose to bring the guilty ones to justice."

Thoroughbred Dachshunds.

E. W. McComas has been presented with two female dachshunds by his friend E. L. Eyre of San Francisco. Mr. Eyre is a member of the firm of Gervin & Eyre, grain dealers, and about two years ago promised Mr. McComas to make him a present of an animal of this breed. Mr. McComas had nearly forgotten the promise,

and was greatly surprised and pleased when the two bags came, expressed through. They are thoroughbreds and their family name is derived from the German name for badger, and the German common noun for dog. They are among the most intelligent and kindly dispositioned dogs known, in addition to being about the most eccentric in contour.

H. J. Schultz, a sheep buyer from Dickinson, N. D., arrived yesterday and started on his return to Dickinson this morning, as he sees no profit in remaining and taking uncertain chances on accomplishing purchases at the present time. Big Wheat Yield.

John H. Raulstone, a prominent young Adams farmer, is in town today looking after wheat interests. Mr. Raulstone had in 600 acres of grain this summer and the average yield was 40 bushels to the acre. "Most all the grain in our neighborhood," he said, "has yielded well. One farmer who sowed his wheat in July had it frost bitten, but with that he has realized from 32 to 35 bushels per acre."

Public Auction of Livery Stock.

George Froome, having been forced to vacate the location he has had his livery stable in, on account of the building of a new brick block, and not finding a suitable location, has decided to retire from business and will dispose of all his stock, buggies, harness and everything pertaining to the livery business, at public auction. Sale will take place in front of his stable, Saturday, Sept. 3.

Returned From Outing.

Charles French, assistant postmaster, accompanied by his mother, Mrs. C. O. French, and Miss U'Ren, returned this morning from Camp Barker, near Meacham station. Fishing and hunting are excellent and the weather has been cool."

Dr. M. S. Latz went to Heppner this morning to oversee the dipping of 100 thoroughbred bucks which are about to be shipped to New Mexico. This dipping comes under the order issued by George S. Hickok, that all sheep infected or not, "either for breeding purposes or feeders," must be dipped once.

Mrs. E. M. Smith, tried at Weston yesterday on a charge of conducting a house of ill repute, was fined \$20. J. T. Hinkle, of this city, attorney for the defendant, says the case will be appealed to the state circuit court.
