# SHEEP ARE BARRED

### HERDS CANNOT CROSS INDIAN ALLOTMENTS.

#### Old Rule Will Be Revived, Regulating the Trailing of Sheep Across Reservation—Sheepmen Held Conference With Acting Agent McNichols—Enforcement of the Order Will Entail Loss Upon Flockmasters.

It is announced that the acting Indian agent, Colonel McNichols, is enforcing the old standing rule that sheep must not be trailed across the reservation. It appears that this is a rule that has been, perhaps not violated with offensiveness, but honored more in the breach than in the observance, for the past 30 years. The conditions during most of the time mentioned, have been such that sheep have been trailed across to and from the mountains without infringing upon any rights in particular, if at all, as there was but about 15 miles from one limit to the other, and the sheepmen have as a rule been very suspicious about the rights of the Indians and of the tenants on Indian lands.

#### Only Outlet to Range.

Up till a comparatively recent date sheep taken from the westward and bound for the mountains were compelled to follow a county road for about six miles, which distance was easily followed without hardship to even the younger and thinner animals. At the end of the six miles mentioned a district was reached where the land upon the right hand side of the trail was open and unoccupied Indian land, and when that district was reached the sheep were allowed to spread out and graze and

this relieved the trip very much. The sheepmen, so it is alleged, were always very careful not to impose upon the privilege of feeding from the six-mile point until the eastern limit of the reservation was reached, but grazed their sheep only enough to prevent them being gaunted by the 15-mile drive.

#### Gateway Is Closed.

At a comparatively recent period, however, the Indian lands upon the right side of the trail from the six-mile limit mentioned, have been ceded and are occupied, thus closing a range which had been open on the right side for 30 or more years.

A delegation of sheepmen met with Colonel McNichols a short time ago to argue against the old standing rule being enforced to the letter—with what success the public has not yet been advised.

The enforcement of the rule is said by some to be due to protests by Indians against "trespassers." The sheepmen, on the other hand, claim that charges of trespass are far-fetched, and that the trespassing has been a matter of form or a strictly nominal affair, and it is said that they are, and at all times have been, ready to pay for every lot of damage inflicted by their flocks.

#### Will Result in Loss.

The enforcement of the rule puts the sheepmen to much inconvenience and in the spring is almost certain to involve them in loss. At that time the flocks are impeded by young lambs, and the extra distance to travel to reach the mountains from the lowlands will be hard upon these young animals.

At other times of the year sheep can be driven around without any particular loss perhaps, aside from the extra time used in getting from one point to another. As the farmers are rapidly fencing the roads in every direction from the reservation, the conditions promise to be more and more ominous from year to year for the sheepmen who are dependent upon summer mountain pasturage.

#### Sold 5000 Bushels Wheat.

Nick Tallinger returned to Athena this morning, after disposing of 5000 bushels of wheat at 10 cents to the Pacific Warehouse Company. This was spring wheat sown on stubble and class of the finest quality. Mr. Tallinger does not believe as much wheat will be sown around Athena this year as common.

#### A FACT PROVEN.

### Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit inoculated with the germs became bald in six weeks' time.

It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ, which act is successfully accomplished in one hundred per cent of cases by the application of Newbore's Herpicide. Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbore's Herpicide.

Accept no substitute. "Destroy the cause, you remove the effect." Sold by leading druggists. Send for sample to The Herpicide Co., Detroit, Mich.

# TO UNITE CHURCHES

### REV. W. S. HOLT SPEAKS OF PRESBYTERIAN WORK.

#### Dr. J. W. Chapman, Foremost Evangelist, Coming to Oregon—Rev. Holt Says the Principal Field of Missionary Work of Presbyterian Church is in Districts Lacking Church Organizations — Two Branches of That Church Will Ultimately Unite.

Dr. J. Wilbur Chapman, secretary of the evangelical committee of the Presbyterian church, will visit the state of Oregon early in the year and personally conduct an extensive missionary campaign.

"Dr. Chapman," stated Rev. W. S. Holt, synodical missionary for the Presbyterian church in Oregon, who is in Pendleton today, "is one of the foremost evangelists in the field for us today and we expect to reap much benefit from his western trip. At the present time the church has Rev. J. E. Snyder at work in Oregon."

Rev. Mr. Holt, accompanied by Mrs. Holt and child, is in Pendleton for the purpose of conferring with Rev. W. L. Van Nuys, pastor of the local church, and president of the home mission board for Eastern Oregon. He will go from here to the Grand Ronde to be present at the fall meeting of the next Presbytery, which convenes September 15, at Enterprise.

"We are hoping to go into several new districts this fall," said Mr. Holt. "It is never the policy of the Presbyterian church to crowd into fields already occupied by other Christian denominations. We are seeking those places where Christian religion is lacking. There is plenty of room for work throughout the state."

"During the summer my family and I were in Coos and Curry counties and other parts of the coast. The condition of the church in Oregon is very promising."

#### The Church Union.

Discussing the union of the various churches bearing the name Presbyterian, Mr. Holt said: "The outcome is problematical. The proposition to unite is before the various synods to be voted upon before next spring. The first Cumberland Presbyterian church to vote upon the subject was the one at Walla Walla, and I understand the two churches in that city are now one."

"The first split grew out of the idea that the doctrine of the Presbyterians was conflicting. Then too, the question of an uneducated ministry was brought in. It has ever been the policy of the Presbyterian church to have its ministers well educated. There is an occasional exception. This matter of education was distasteful to the Cumberlandians."

"Then again, the war caused trouble. The Presbyterian church remained loyal, while the Reformed party started a new branch. The United Presbyterian church is another denomination altogether. It is a descendant from the old Scotch church."

"The Reformed Dutch church, of which President Roosevelt is a member, is practically the same as the Presbyterian church, and we hope to have the two united some day."

#### ELEVEN MILLION JEWS.

### Hebrews' Year Book Just Issued Gives Census of Race.

A Jewish year book just issued for the period from September 10, 1901, to September 10, 1902, the Jewish year 5662, contains statistics showing that the Hebrew population of the world is now 10,932,777. Of this number Russia has 3,189,901; Austria-Hungary, 2,076,378; and the United States, 1,252,218. Germany comes next with 1,000,000; and then Turkey with 466,261. Of the 600,000 Jews credited to the state of New York, about 500,000 are residents of New York city.

A list of bequests and gifts by Jews to various institutions covers fourteen pages of the book. Among other biographical statements is one to the effect that 41 synagogues were dedicated in the past year.

#### COMPLAIN OF SERVICE.

### Residents of the County Would Like More Regularity in Mixed Trains.

Pendleton business men are protesting against the uncertain service afforded by the O. R. & N. company with its local mixed train between this city and Walla Walla. The train is due in this city at 1:40 o'clock in the afternoon, but it is seldom on time. An hour behind time, it is said, is the general average of the train, and it is not uncommon for the train to fail to reach here before 4 o'clock.

"It is the cause of much annoyance for persons residing between here and Walla Walla, who are obliged to rely upon the mixed train to carry them to Pendleton," said Lee Teusch, one of the leading merchants of the city, and a prominent member of the Commercial Association. "If the train is scheduled to arrive at 1:40 o'clock something should be done to see that it gets in at that time."

"If the train arrived according to schedule often enough to be depended upon, residents of Adams, Athena, Weston and Milton would have ample time to come here and do their trading before the departure of the evening train."

#### Sovereign Grand Lodge.

Local Odd Fellows are much interested in the forthcoming Sovereign Grand Lodge at San Francisco, though it is not believed that any members of the order at this place will be able to attend. The delegates from this state will be P. W. Stewart, of Portland, and Judge T. F.
