

Motherhood

MOTHERHOOD is the reward nature bestows upon healthy womanhood. Women whose vitality has been sapped by disease cannot safely give birth to children. In pregnancy and in childbirth weakness of the mother is revealed in the pain and agony she suffers. This great medicine drives out every vestige of inflammation and weakness, and gives tone and strength to the delicate organs which mature the child. The pains of pregnancy are banished by Wine of Cardui, and miscarriages, which blast so many fond mother's hopes, are prevented. Flooding, which so often occurs after childbirth, is corrected when Wine of Cardui is used during pregnancy. Wine of Cardui babies are healthy babies, because, during the months of pregnancy, the mother is able to give them necessary vitality and strength. With these facts presented to American women no expectant mother should be satisfied without the re-inforcement that Wine of Cardui will give her. Every mother should be able to treat herself in her home with this valuable medicine. Wine of Cardui can be secured from any druggist at \$1.00 a bottle.

Polycarp, N. C., Jan. 11, 1902.
I am the mother of seven children and while in pregnancy with the first six suffered untold misery until they were born. One month before the seventh was born I began to take a bottle of Wine of Cardui, which gave me relief after taking three doses. I used the remainder of the bottle until the birth of the child, and was stouter in three days after the birth than I was in a month after the birth of either of the first six. I am 29 years old.
MRS. V. ELIZABETH STAFFORD.

Children's Weight.
Some curious experiments have been made at one of the royal philanthropic institutions in Copenhagen. For some years back the seventy boys and girls in the place have been carefully weighed every day in groups of fifteen and under. Thereby it is proved that the children gain weight mostly in autumn and in the early part of December. From that time till the end of April there is scarcely any increase in weight. More remarkable still, there is a diminution till the end of summer.
