

Prompt, Easy Recovery.

The greatest thing in the world - A Mother's Love; the love she lavishes on her children; the love her child should have for her; without this love she could not endure the agonies incident to childbirth; appreciative of this love, Mother's Friend was devised to lessen the pain and anguish of childbirth, that her love might not be strained to the breaking point. Mother's Friend does all this and more - it enables the tired mother to speedily recuperate from the labors of maternity, enables her to regain her lost strength, preserves her youthful lines of beauty, and makes pregnancy her crowning joy without any thorns to mar it.

Mother's Friend

is applied externally, is most harmless in its consistency, most happy in its results, and of such merit that no case of labor should be conducted without its use. It is a liniment for massage of the abdominal muscles during pregnancy, and by its use their tonicity and power of contraction is greatly enhanced, enabling them to sustain the great strain brought to bear on them at this time. It is Mother's Friend. The name should be enough to recommend it to all who expect to be mothers.

HOT TIME IN MAINE

STATE IS AN ANCIENT POLITICAL BAROMETER.

Vigorous Campaign Has Been Conducted by Both Parties for Weeks Past—Contest is Over State Officials and Congressmen—Democrats Hope to Capture at Least One Representative.

Portland, Me., Sept. 12.—Today's election in this state is watched with much interest by politicians throughout the country, for Maine, like Vermont, is a sort of a political barometer, and the result of the election is taken as an indication of the way public sentiment is inclined in the present national campaign. In view of these conditions both parties have put forth their utmost efforts to make the best possible showing at the polls today.

During the last few weeks both national committees have sent into the state orators of national prominence. The democrats have had Mayor McClellan and other leaders of wide reputation, while the republicans have had as their principal speaker Senator Fairbanks and Secretary Taft.

The republican candidate for governor is William T. Cobb of Rockland and the democratic candidate Mayor Cyrus W. Davis, of Waterville. Local issues have figured to some extent, but the importance of the hearing which the result in Maine might have on the rest of the country has been the chief theme of both republican and democratic orators from the outside.

In 1896 McKinley's plurality in the state was 45,777, and in 1900 it was 24,132. The republican plurality on the governorship in 1902 was 27,439. The republicans admit that they hardly expect their plurality in today's election to reach the figures that McKinley had in either of his campaigns. They say they will be satisfied with a plurality of 25,000. They admit if the republican plurality should fall far below that figure the result might well be taken as indicating a drift toward democracy.

In addition to the governorship contest there is much interest just now in the fights in several of the congressional districts. The democrats are out for the scalp of Llewellyn Powers, representing the Fourth district as the successor to Charles A. Boutelle. They profess to believe that they can overcome Mr. Powers' majority of nearly 9000 in 1902 and capture the district.

EAGLES AT BALTIMORE.

Twenty-Five Thousand Members Now on the Ground.

Baltimore, Md., Sept. 12.—While, officially, Eagle week does not begin until tomorrow, 25,000 members of the order are already here and there was a round of entertainment today in their honor. The feature of the day's program was an excursion to Annapolis and down Chesapeake bay for the members of the grand lodge and ladies. Every incoming train today is adding to the number of visitors.

The program for the week embraces the four days' session of the grand lodge, which opens tomorrow morning in the Maryland theater, and unlimited entertainment for the members of the order, who will have an immense variety to select from, all being free to those who wear the badge of the order. Outside of the grand lodge meeting most interest attaches to the parade, which is to take place Wednesday.

LABOR LEADERS IN SESSION.

Executive Meeting American Federation.

Washington, D. C., Sept. 12.—Prior to going into session behind closed doors today the members of the executive committee of the American Federation of Labor, assembled here for their annual meeting, declined to discuss what action, if any, will be taken toward aiding the butcher strikers. It is not regarded as likely that the federation will extend the strikers any material aid.

The meeting has a number of other important matters besides the Chicago strike to consider, among them being the strike of the weavers at Fall River, and the prolonged strike of miners in Colorado. The committee will also, it is said, consider a formidable program for securing labor legislation from the next session of congress.

International Electrical Congress.

St. Louis, Mo., Sept. 12.—Distinguished scientists and electrical engineers are gathering in St. Louis for the International Electrical congress this week. The meeting will be notable for the large number of distinguished foreign delegates in attendance. Preliminary meetings are scheduled for today and tomorrow, though the formal opening of the congress does not take place until Wednesday. The meeting will be held in connection with the annual meeting of the American Institute of Electrical Engineers.
