DINDINGER, WILSON & CO.

Good Shoes Cheaper Than Ever

CLARK WOOD DOES THE WORLD'S FAIR.

(Continued from page 2.)

were displayed to us by a special lecturer and an organ recital was given at the tabernacle in our honor. The fact that many other people were also present possessed no significance. They were not Oregonians and were persons of no consequence.

We revelled in the music of the superb pipe organ, the finest in the world. I have never heard sweeter, purer, more beautiful tone effects. Hinkle was enchanted and wanted to join the Mormon church at once. I recalled to him the words of the lecturer, who said that no member of the church, even, was permitted to enter the beautiful tabernacle nearby unless of pure moral character and a total abstainer from tobacco or intoxicants. This barred Hinkle and he relinquished his purpose with a sigh.

I want to say right here that I don't remember how many wives Brigham Young had, nor do I care; he will rank among the greatest organizers and builders that the United States has ever known. After discarding polygamy, there is nothing objectionable, and many things highly profitable to the soul's good, in the creed of the Church of Latter Day Saints. And the Mormon people were the most courteous and obliging we have met with in our travels.

We bathed in Great Salt Lake—an experience far from commonplace. The water is delightfully warm and buoyant, and you cannot sink in it, but you can get it in your eyes and nose and smart and strangle until

death were a relief. Because we were Reubens, I guess, we didn't know anything about it, and failed to find the fresh water rinsing apparatus in the bath rooms.

Not long after coming out and dressing we shone and glistened with salt, while everybody else looked clean and respectable. They stared at us and snickered. Hinkle's hair and beard were like a lilac bush after a frost, and he resembled a blooming leper. I dissociated myself from him in disgust until I casually felt of my own face and found a salt mine.

Lot's wife's condition wasn't a circumstance to the discomfort and embarrassment I felt. I again flocked with Hinkle, realizing that both of us were leprosy and in a degraded class by ourselves. We dug out as much of the stuff as we could and tried to look unconcerned on the crowded train. I remarked that we had certainly been pretty fresh, but would keep now for the rest of our pilgrimage to the World's Fair.

CLARK WOOD.

"A TEXAS STEER" TONIGHT.

Hoyt's Famous Production Will Delight Pendleton Audience This Evening.

Hoyt's "A Texas Steer," comes to the Frazer this evening. This production from the gifted pen of the late Charles Hoyt, is considered the best of his numerous plays, and never fails to draw big houses. From the rise of the curtain to the end of the play the audience is kept convulsed with mirth.

A Good Performance.

The Degree of Pocahontas minstrels drew a good house at the Frazer last evening. The work of the amateurs was exceptionally good. The first part consisted of regular minstrel work. A pleasing feature of the olio was the drill by eight boys. The performance was under the direction of Jay Borgert.

Will Elect Delegates.

The Women's Club will meet tomorrow evening at 8 o'clock sharp at the home of Mrs. Mary A. Disoway, on Water street, for the purpose of electing delegates to the State Federation of Women's Clubs at Baker City.

It is no small comfort to have Schilling's Best on call at your grocer's; a pity one can't get everything such and so!

AFTER AGREEMENT

BUSINESS MEN WILL HAVE TERMS OFFERED.

John Clove Has Secured His Last Two Patents and Will Tomorrow Make a Final Proposition to the Mined Men of Pendleton—Easier to Establish Works Here Than at Any Other Point.

John Clove came up on the early morning train from Portland, having completed on his trip all the necessary preliminaries toward completing his title through the patent office to being the inventor of the two devices described by the East Oregonian a short time ago as integral parts of the Clove combine, and only needed to make it a perfect machine.

Tomorrow will follow Mr. Clove from Portland an agreement which he will go before the business men and capitalists generally here with. It will be a simple statement to the effect that the men who agree to its terms will back their words with their deeds and finance the combine at this place. This is probably "the third and last call"—the last presentation of this opportunity to the mined men of Pendleton and Umatilla county.

Mr. Clove's influence is and has been toward the retention of the plant to manufacture the combine at this place. One reason is that the machine shops here are sufficiently equipped to turn out a small output without any heavy additional expenditures, while at any other place the plant would necessarily have to be built from the ground up.

The addition of from \$30,000 to \$40,000 worth of material to the present plant will put it upon a footing of effectiveness that it would require a much larger expenditure to secure at any other point, where operations would have to commence at the very beginning, and will equip it to meet easily the demand which next year will bring for the machine.

PLENTY OF CHARGES.

"Skipper" Hicks Before the Police Court on Three Counts.

Arthur Hicks, for carrying concealed weapons, 10 days in the city jail.

Arthur Hicks, for assault and battery, 10 days in the city jail.

Arthur Hicks, charged with discharging firearms within the city, case continued.

Mike Gratz, Jr., for disorderly conduct, 15 days in the city jail.

As the result of a drunk, two fights and a gun-play yesterday and the day before, "Skipper" Hicks and Mike Gratz, Jr., were responsible for the above to appear on the city recorder's docket.

To the charge of carrying concealed weapons, Hicks entered a plea of guilty. He pleaded not guilty to the assault charge but was adjudged guilty by the court. The charge of discharging firearms within the city limits was continued until today upon Hicks' plea of not guilty.

Gratz, with a wave of his hand and a nod, acknowledged his guilt when asked to plead to the charge of disorderly conduct.

Tom Shannon, whom Hicks was found guilty of assaulting, appeared in court with a badly decorated countenance. He admitted that he and Gratz became involved in a fight, but that is the last thing he remembers of the affair until he awoke with a swelled head. A witness declared that when Gratz and Shannon were fighting Hicks took a hand, or rather a foot, and jumped upon the latter, rendering him unconscious.

TEACHERS ASSIGNED.

Pendleton Schools Now Organized for Business.

The city schools opened in earnest this morning, and the pupils took up their studies. Most of the teachers have been assigned their grades. There are still one or two vacancies to be filled. The primary grades are crowded and extra rooms may have to be provided.

The teachers are assigned as follows: George W. Byre, principal of High school, assisted by Miss Hall and Miss Ivanhoe; eighth grade, Misses Rittner, Epple and Duncan; seventh grade, Misses White and Davis; sixth grade, Miss Harris, (vacancy to be filled); fifth grade, Misses Moorhouse and Marple; fourth grade, Misses Baum and Haley, (vacancy to be filled); third grade, Misses Wood, Froome and Mrs. Ryneerson; second grade, Misses Willis and Lingenfelter; first grade, Misses Parrott, Gans, Lane and Roxene Epple.

RAISING THE MONEY.

Grande Ronde Electric Railway and Power Plant.

The early construction of the Grande Ronde Valley electric railway and power plant, according to W. E. Davidson of this city, the secretary of the company, is practically assured. "My father is now in the East," said Mr. Davidson this morning, "for the purpose of interesting capital, and he advises me that he has several persons ready to finance the enterprise. I intend to go East in about a month to assist in the work."

"I am in receipt of a letter from R. A. Morrow, the vice-president. He has just completed a trip over the proposed line of the railway, and declares that it is one of the finest valleys he ever saw."

SHOT TWO BEAR.

Downey and Rust Got the Mother and Her Cub.

Dan Downey and Oscar Rust had an exciting experience near Lehman Springs yesterday afternoon with an irate black bear and her cub, and as

a result both the animals today are occupying the front of a Court street meat market.

Downey and Rust saw a small cub walk out of the brush and shot it, but before they could reach the side of the dead animal, the mother appeared on the scene, and with a savage growl made for the hunters. There was some tall sprinting for a few moments until one of the men reached a point where he could turn and fire. The mother dropped dead.

The bear ate of the small black variety, so common in the Blue mountains. Ordinarily this species is very timid, and avoids man, but the death of the cub enraged the female in this instance, and she forgot her discretion.

FEATHERWEIGHT BOUT.

Kid McCoy and Andy King in Pendleton September 30.

The next bout to be pulled off before the Pendleton Athletic Club will be a featherweight boxing contest between Young Kid McCoy and Andy King. The fight will take place Friday night, September 30. King is in Walla Walla, where he is managing the Walla Walla Athletic Club. McCoy is at present playing an engagement at the Orpheum theater in Portland. The men will enter the ring at 126 pounds.

Both men are known to be clever boxers and although McCoy met defeat in this city at the hands of Mitchell, the method of his fighting convinced those who saw the contest that he is up in his profession.

New 10-Room Dwelling.

Jurgen Mumm is tearing down the old dwelling on what is called the "old Mat Taylor place," on Lewis street, and will erect upon its site a 10-room residence. It will be of Colonial style, and work upon it will be begun as soon as the plans are completed by the architect, C. E. Troutman.

Hand Badly Hurt.

Engineer Jack Wright, of the O. R. & N. company, went to Portland last night to receive surgical treatment. Mr. Wright was injured in the right hand yesterday by the bursting of a water gauge on his locomotive. Wright's hand is badly lacerated.

Beck Slightly Improved.

Frederick W. Beck, who attempted suicide Friday by shooting himself through the left side, while still in a critical condition, was slightly improved this morning. It is believed he will recover.

Third Helper Engine.

A third helper engine has been put on at Kamela, to help the increasing traffic east and west over the mountains. It is said to be a leased engine from the Short Line.

Denies It.

Mike Gratz, Jr., denies the story that he ever served a term in Folsom prison for the murder of a Chinese, or for any other crime.

No. 1 Five Hours Late.

The west bound passenger train, due in this city at 3:50 o'clock this morning, was five hours late, owing to delay on the Union Pacific.

Two Drunks, Three Days.

Tom Williams and Corney Devine are serving sentences of three days each in the city jail for drunkenness.

SCOTT'S EMULSION

is for babies and children who are thin and pale when they ought to be fat and ruddy; for men and women who are weak and delicate when they ought to be strong and hearty—for all who are not getting proper nourishment from their food.

Poor blood, thin body, open the door for disease. Scott's Emulsion bars the way. Makes the blood richer, produces healthy flesh and above all provides nourishment.

We'll send you a sample free upon request.

SCOTT & BOWNE, 409 Pearl Street, New York.

What is a

Savings Account?

THE USE of a Savings account is not fully understood. It is a banking feature that does more service to a community that can readily be appreciated. In every community, there are numbers of people who have small sums and no means of using them to advantage. The Savings

Department of this bank affords the means of utilizing these funds. One man has \$5, another \$50, another more, another less. These sums when placed together in a bank can be loaned out so as to pay interest. The Savings Department is the means of getting these small sums together and loaning them out safely. There are many people who would be pleased to receive interest on their money for a short time.

The Commercial National Bank is the only institution in this city which provides strictly for the receipt and care of savings and trust funds. Interest paid on all such accounts at the rate of

Four Per Cent per Annum

for each calendar month that the money remains in bank. Deposits made on or before the 4th of a month draw interest from the first of that month. Interest is credited on all accounts February and August 1st, at which times, if not drawn, it becomes part of the principal. Any part of a deposit may be withdrawn without disturbing interest on the balance.

Certificates of deposit are issued bearing interest at the following rates:

Certificates Payable in 6 months, 4 per cent.
Safety deposit boxes for rent.

Don't overlook the fact that we are a National Bank, under the direct supervision of the Federal Government.

Interest Compounded every six months

From home looms and those over seas

HAVE BEEN DRAWN THE FABRICS FROM OUR AUTUMN "STEIN-BLOCH SMART CLOTHES." THEY ARE MADE FROM FINE WOOL-ENS, AND NOT "MERCERIZED COTTONS" THAT LOSE THEIR SHAPE IN A WEEK.
