Reduced Rates From the East Bring Carloads of Anxious Homescekers to the Coast-Travel This Fall Thought to Equal the Most Busy Period of Last Year-Tourists Visit Every Point on the Coast-Many Coming to Settle.

The colonist rates from eastern coints to Oregon and Washington that went into effect September 15 will continue one month, and during this time it is expected that a large increase will be made to the permanent population of the Pacific Northwest. says the Oregon Daily Journal.

The first of the immigrants are now arriving, and scattering into the various rural sections of the state. The Oregon Rallroad & Navigation company has received notice of a special tourist carload of people that left Chicago Saturday for Oregon points. It is estimated by railway men that the travel into this state during the month will equal that of a similar period last year, when about 3000 ople were brought into the Pacific Northwest, and most of whom settled here, or are now preparing to come

and remain permanently. It frequently occurs that the man who comes and visits Oregon this year cannot come at once to reside here

his property and the following year's colonist excursion brings him here to become a permanent resident. The tickets have destinations rang-

ing all the way from Spokane. Seat-tle and Portland to San Francisco and Los Angeles, but there is no fear that Oregon will not get more than her portion of the homeseekers.

## MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on which a para-sitic germ will prosper, is like scooping water from the ocean to prevent the tid. from rising.

You cannot accomplish a satisfactory cure without having a right understand-ing of the fundamental causes of the trouble.

You must kill the Dandruff Germ

You must kill the Danarun Germ. Newbro's Herpleide does this because it is specially made to do that very thing. When the germ is removed, the hair has no choice but to resume healthy growth and beauty. "Destroy the cause, you remove the effect."
